GOVERNMENT POND

SIR,—I have noticed from time to time remarks in your valuable paper in reference to Government Pond, but not being a resident of the west end and very seldom passing that way I did not pay particular attention to them. But happening to take a stroll out to Victoria Park via Brighton Road last Sunday, I could not but be struck with the most disgraceful condition of the pond and approaches leading to our most beautiful suburb. Surely, sir, whoever is responsible for the condition of affairs will have this place attended to before the summer travel commences. Such a condition of things would not be allowed to exist for a moment in any American village of five hundred inhabitants. But, as a resident of the west end said to me, "the man who represents this section in the City Council is only a figurehead, the only interest he takes in the city is to see that the street in front of his place of business is kept in good order, and that Counciler Craik be runs the whole show."

Surely Councilors Horne and Nicholson, both residents of the west end, will not allow this to be said about them. Wake up Father Donald, and show us that you are not dead, but only taking a nap after the big job you did on the park roadway. Put your shoulder to the wheel and give us a shove for the benefit of the poor unrepresented taxpayers of ward five, west, and earn their everlasting gratitude as well as that of every lover of

PROGRESS.

The Seventh Son.

MONTREAL, May 8.—Montreal, and in fact all Quebec province, is greatly interested, while the French population is excited, over the discovery of a boy healer, a seventh son of Joseph and Rosanna Taillon, of No 533, Grand Trunk street. The boy's name is Jean Louis Taillon, and now that publicity has been given to some of his cures, his parents say that ever since he was a child he has had the power to remove pain from suffering friends.

Peace Again in Venezuela.

CARACAS, Venezuela, May 8.—Peace is now re-established in Venezuela. General Ramon Guerra, formerly Venezuelan Minister of War and Marine, who started the revolution last February, and was finally severely defeated by the Government troops, has escaped into Columbia.

NEWS NOTES.

It is expected that the Queen's birthday honors will include a peerage for the British ambassador to the United States, Sir Julian Pauncefote, in recognition of the part he has taken in the promotion of an Anglo American understanding.

NOTES AND COMMENTS.

—Senator Perley, of Alberta, has lately purchased a cultivator plough, which is operated by a gasoline engine and is expected to plough and pulverize fifteen acres per day. It is the first implement of the kind purchased in Canada, and its introduction to prairie life will be regarded with much interest.

—Austria is just now rejoicing in a new kind of powder which not only smokes but also noiseless and flameless. With guns supplied with this powder an enemy may be shelled for hours without the precise position of the artillery being discovered.

—Sir Charles Tupper has been trying to hurry the Government. But it seems this cannot be done. After Parliament has been in session for nearly two months, our business is business Government are still unprepared to submit their principal measures. Smart men, those Liberals.

CAN THIS BE TRUE?—Referring to Government Pond, a correspondent says: "To my own certain knowledge people have been in the habit for years, and may be doing it still, for aught I know, and for aught it seems that anyone cares, of emptying their closets into the pond. You may say and think that the tide coming in purifies it. Do you not know that only a high tide covers it, the surface of the pond being higher than the bed of the river. I am quite sure that if you made up your mind to keep at it and got the people interested, the City Council would be forced to take action."

DISEASE AND DISEASE GERMS.

Quack cure-bills are being put on the market nearly every day which are credited with the power to kill disease germs. Even if these so-called remedies could do what is claimed for them, it would be a long, weak, uncertain process. The only safe way to withstand disease and to kill disease germs is to make your body strong and your system healthful. Abbey's Effervescent Salt will do this. It is on account of its power to build up strong systems and make pure, rich blood that it can prevent and cure disease.

You need Abbey's Effervescent Salt now more than at any other season of the year. There are more disease germs in the air in the melting spring-time than at any other season, and you must be strong and healthful to withstand their attack.

Abbey's Effervescent Salt is not for any special season or any special climate. It is a health-builder the daily use of which will give you all-the-year-round-health. Get a small-sized bottle and give it a trial—you'll find you'll feel better and work better. Get it today. All druggists sell it. Large bottles, 60 cents; trial size, 25 cts.

The Canada Lancet's statement: "There is no doubt but that the daily use of Abbey's Effervescent Salt will be a great preventive and aid in warding off the attacks of disease."

To The Front Again

After one years vacation from the meat and grocery business, I have opened up again in my old stand on the corner of Hill-street & Richmond Sts, where I will keep a full supply of all kinds of meats, fresh and salt. I now take this opportunity of thanking my numerous customers for their very liberal patronage during my thirteen years in the meat business. I invite all my customers back again, and will guarantee them every satisfaction, and any who have not had the good luck of dealing with us in the past, and saving money, would do well to start now. Having secured the services of Mr. Howard Worth, who has spent eight years in the meat business, part of that time as a meat cutter in the city of Boston and is capable of cutting meat to suit all customers. We are better prepared than ever to give the public satisfaction.

Our motto is "small profits and quick returns." Come along every day and see for yourselves. Special reduction made on Saturday.
Remember the place, corner of Hillsborough and Richmond Streets.
