### Operated By R. N. Dawson On The Trans-Canada Highway

Dawson's Service Station, a new modern station located at Crapaud, on the Trans-Canada Highway, officially opens this morning.

This fine station is operated by Robert N. Dawson, and associated with him in this business is his father Percy Dawson, who has been in the farm machinery business for some 20 years.

No novice to the service station business, Robert Dawson has operated a station at Crapaud for approximately 15 years, at another location in the village.

After the Trans-Canada Highway was built through Crapaud, he acquired an excellent site near his home on the new highway and has constructed a new and larger building to provide adequate service to his regular customers and to take care of increased business from the travelling public.

Robert has spent most of his life in business at Crapaud. In addition to his service station business he also sells Ford and Monarch cars and trucks, Hudson

cars, and International trucks, and also conducts a used car and truck business.

As a dealer in farm produce he buys potatoes, turnips and other farm products, and handles fertilizer, sprays, etc.

He also does a large business in

national-harvester Company, they do a very large business in farm machinery, tractors, refrigerators, etc.

Last year the International Harvester Company placed each dealer in the Maritime Provinces on a quota basis.

Dawson's Service Station sold 190 per cent of their Farmall tractor quota, leading the Maritime on the tractor quota percentage, and winning for Mr. and Mrs. Dawson a company sponsored trip to United States.

Robert is married to the former Margaret Cameron of Hampton, and they have two sons, Barrie and Ronnie.

Always taking a keen interest in community affairs, Robert is a past-president of the Crapaud-Victoria Board of Trade, president of the 1st District of Queen's County Liberal Association, chief of the Crapaud Voluntary Fire Department, a director and secretary of the Crapaud Rink Company, a member of the Board of School Trustees, and he played a prominent part in the incorporation of the village of Crapaud.

Dawson's Service Station is built on the site used by the Crapaud Creamery Company before the new creamery and cold storage plant was built on a new location.

Measuring 75 x 30 feet, it is a white, one-storey building with deep cement basement. It is a "3-way" station, (i.e. inside accommodation for 3 cars), complete.
