

A Feature for Every Friday— Among The Farmers Federation Of Agriculture News

What About Rice?

Many farmers and particularly those with low land have good reason to be concerned over the wet weather of the past two weeks. Many fields, which in a normal year would have been seeded some weeks ago are either flooded with water or growing hay crops.

provinces came in for an annual overhauling. The annual school meeting is unique in that the tax payer has the opportunity of deciding whether or his taxes are going to be high or going to be low, this in itself is sufficient reason for attendance but certainly the importance of education in itself demands more interest in the meeting than generally shown.

Wide Of The Mark

Information obtained through the 1951 census indicates that estimates made by the Dominion Bureau of Statistics, of potato plantings in Canada for the past five years have been far wide of the mark.

The estimate for 1951 was 400 thousand acres, the actual was 285 thousand. The estimate for 1950 was 513 thousand acres which was quite likely a 150 thousand acres too high.

Misinformation of this kind can have a serious effect on markets and may have been, in part, responsible for low prices obtained for some years prior to the past season.

Statistical information is of value if accurate but it would appear that potato growers have every right to expect something better than a 33 per cent over-estimation.

Beef Prices

In the absence of cattle quotations on a live basis at Moncton and Charlottetown we publish prices being paid on June 10th at Moncton. Per 100 lbs dressed, medium steers and heifers and choice young cows 43.35 to 43.85; common steers and heifers 39.40 to 39.90; Good cows 38.60; other cows above canners and cutters 33.70; steers, heifers and cows, as canners and cutters 29.85; bulls over 500 lbs dressed 30.35.

Farm Machinery

From year to year, farmers are purchasing more and more machinery, machinery that is far more complicated and far more expensive than in years gone by.

After purchasing a machine the farmer has the right to expect reasonable service and performance from it. In too many cases, however, poorly assembled and poorly engineered implements become the responsibility of the farmer who must rely on his own ingenuity to make adjustments and correct imperfections. In too many cases new machines or new models of machines with engineering defects, are placed on the market and the farmer puts up with the resulting inconvenience and loss.

Farmers have perhaps been a little easy-going in this respect but might do well to bear in mind that their money purchases not only a machine but proper servicing of it and satisfactory performance as well.

CONQUERS SKUNKS

VINELAND, Ont.—(CP)—James Piatts has devised a trap which gets rid of skunks. He claims a total of 13 skunks for the device, a wooden box affair with a trapdoor, which imprisons the animal until it can be taken out in the woods and shot.

Veniot-Livingstone Wedding

A wedding of interest to residents of Clyde River and vicinity was solemnized recently at Cochrane, Ont., when Flora Livingstone and Burton Veniot were united in the holy bonds of matrimony by the Rev. Edgar Ferns assisted by the Rev. W. Scobie MacLaren, of Knox Presbyterian Church.

The bride wore a powder blue crepe dress and carried a corsage of red roses. Her hat, shoes and purse were navy blue.

The bride was attended by Mrs. Rocco Sisco, who wore deep blue crepe with yellow rose corsage. The groom was attended by E. R. McCormack.

Following the ceremony a reception was held for a large number of invited guests.

The bride's gift to the bridesmaid was a handsome wallet, while the groom presented the best man with a cigarette lighter.

The couple will make their future home in Ontario. The bride's many friends in this province will be wishing her and her husband a bon voyage and many good wishes for happiness.
