

It.

Attention is invited to the little poem below. It is brief and unpretentious, yet its beautiful and touching words will find their way to many a fond parent's heart, grieved and sorrow-stricken because some loved one has gone astray, and is now a victim of intemperance, leading a life of sin, regardless of consequences to body, as well as to immortal soul.

If, sitting with this little worn-out shoe And scarlet stocking lying on my knee, I know the little feet had pattered through The pearl-set gates that lie 'twixt heaven and me. I could be reconciled and happy too, And look with glad eyes toward the jasper sea.

A Solemn Fact.

Queen Elizabeth's table was always laid with the utmost solemnity. The major-domo entered the banquetting room with his white wand, accompanied by one with the tablecloth. Both knelt three times reverently, the cloth was spread, and after some further reverent kneeling they retired. In like manner the major-domo led the man who carried the salt-cellar, the plates and the bread, when the performances on the knees were again repeated. Two ladies of title now entered, one a matron and the other unmarried. These prostrated themselves three times, when the younger lady rubbed the plates reverently with salt and bread. After that came the yeomen of the guard, or "beef-eaters," each bearing a silver dish. There were usually four-and-twenty to a course. A gentleman received each dish, and after it was placed by him on the table, a lady taster took out a small portion and gave it to the man who carried it, to eat, in case it should have been poisoned. During the whole of these observances the prostrations were continued, just as if the Queen herself had been present, and the trumpeters blew fanfares and the kettle-drums rolled. By this time the Queen had entered her private room leading out of the banquetting hall, and each dish was in turn carried in to her by an unmarried lady, and placed on the table for Her Majesty to make her selection; after which they were conveyed once more into the great room, to be consumed by those who had the honor of dining at court. Throughout the whole meal the most reverential and solemn etiquette was rigorously exacted by all.

Sunlight.

No article of furniture that will not stand sunlight should be put in a room, for every room in a dwelling should have the windows so arranged that some time during the day the sunlight may enter freely into the apartments. The importance of admitting the light of the sun freely to all parts of our dwellings cannot be too highly estimated. Indeed, perfect health is nearly as dependent on pure sunlight as it is on pure air. Sunlight should never be excluded, except when so bright as to be uncomfortable to the eyes. And walking should be in bright sunlight. A sun-bath is of more importance in preserving a healthful condition of the body than is generally understood. It is a well-established fact that the people who live much in the sun are generally stronger and more healthy than those whose occupations deprive them of sunlight.—Herald of Health.

A MARVELOUS STORY TOLD IN TWO LETTERS. FROM THE SON: "28 Cedar St., New York, Oct. 28, 1882. GENTLEMEN: My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the enclosed letter will tell you what a marvelous effect Ayer's Sarsaparilla has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy so good health as he has. I could easily name fifty persons who would testify to the facts in his case. Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of Ayer's Sarsaparilla. Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the Sarsaparilla in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has brought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882. Yours gratefully, HIRAM PHILLIPS."

AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Itchings, Sores, Bolls, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system. PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists; \$1, six bottles for \$5. CUT THIS OUT and return it to us with 10c or 4 3/4 stamps, and you'll get by return mail a Golden Box of Goods that will bring you in more money in one month than anything else in America. New and Original Departure in Coal Cooking Stoves. COMBINING DURABILITY, HEAT AND ECONOMY. THE above Stove I invented and patented in 1876, and at the present time HUNDREDS ARE IN USE, giving perfect satisfaction. A large number have been in constant use for eight years, and the repairs have been very trifling, in many instances none have been required. This valuable experience should be sufficient evidence of their durability, which is accounted for in the following:—It has, instead of a Lined Fire Box, two heavy Curved Cylinders, which obviate the expense connected with all Square Cooking Stoves of being compelled to renew Linings and Grates, at least once or twice every year. The heat being radiated from the Cylinders to the floor, where most needed, overcomes a serious objection to all kinds of ordinary Coal Cooking Stoves. The Cylinders are situated directly under the cover holes, and a fire may be made in one or both, thus adapting it for use either in winter or summer, with equal satisfaction, besides effecting a great saving to fuel. I have also attached the PATENT TELESCOPE OVEN to all my Elevated Oven Wood Stoves, such as the Waterloo, Niagara, Star, &c., causing the thousands using them to exclaim—My Stoves are worth TEN DOLLARS MORE than the same kind made by other foundries. The trade and retail purchasers will please bear in mind the fact that although a great advantage is claimed for my own Oven above all others, they cost no more, and being the sole manufacturer and patentee, no other foundry can supply. Enquire for Fawcett's Patent Telescope Oven, and if your dealer has none on hand send direct to the Sackville Stove Foundry. I am adding several new and handsome Patterns this season, which, with my former large variety of One Hundred Different Patterns and Sizes of Cooking, Parlor, Office and Hall Stoves, also Farmers Boilers, Hollowware, Ploughs, Stove Pipes and Tinware, comprise the most complete assortment offered by any manufacturer in the Lower Provinces. Terms and prices will be found as favorable as can be obtained elsewhere. CHARLES FAWCETT, SACKVILLE FOUNDRY, SACKVILLE, N. B. June 19th, 1885—eod wky
