LATEST NEWS FROM EUROPE.

ARRIVAL OF THE *AFRICA.*

The R. M. S. *Africa*, which arrived at Halifax on the 29th ult., has put us in receipt of English papers to the 19th ult. The *European Times*, in referring to the cable disaster, says:—

"The pleasing intelligence on Thursday morning that the *Great Eastern* had sighted Crookhaven, immediately revived all the interest which the great experiment of laying the Atlantic Cable had excited. The experiment, so far, has proved a failure; but the circumstances attending it are not disheartening, and the facts which took place on board the vessel from the 23d of July, when she sailed from Valentia, until she was compelled to return, encourage in many persons the belief, or rather we should say the hope, that the effort will at length be crowned with success."

The shooting, on parade, of Major De Vere, of the Royal Engineers, by a soldier named Curry, from an upper room of the Brompton Barracks, at Chatham, has raised the question whether the means by which human life can thus be sacrificed ought to be left in the hands of any vindictive scoundrel who may have imbibed a hatred of a superior officer.

We are still informed of the outbreak of cholera that commenced at Alexandria, moving westward, although, for the last few days, fewer reports are made. At Alexandria itself we learn that the cholera had entirely disappeared from the city, and that the public health was daily improving. On the 15th ult., the condition of Alexandria was so good that the French officials and residents did not conceive it to be doing violence to feeling in celebrating the *fete* day of their Emperor.

News of an unpleasant kind comes from the Cape of Good Hope. Hostilities have commenced between two of the native rival tribes, the Boers and the Basutos, who have been fighting with desperate courage. So far the Boers appear to have fared badly, and 100,000 sheep, and large droves of horned cattle belonging to them have fallen into the hands of the enemy. The chief of the Basutos was about to summon 20,000 warriors of his tribe, and if defeated, to retreat within the range of mountains behind his capital, and there retaliate upon his foes by guerrilla bands.

THE CROPS.

The "weather and the crops" has always, at this period of the year, been a matter of anxiety on the part of the farmer and the Chancellor of the Exchequer. July has generally been our wet summer month. This year has been the exception. No rain, bright sunshine and warm weather, have been the characteristics of the month. Since August set in, the reverse, however, has been the case. Hardly a day has passed without rain and unseasonable weather occurring. A change for the better has now certainly set in. This improved state of things will, therefore, favorably affect the discount market, which has for some time back been ruled by the character of the weather as affecting the crops; and the large exportations of gold calculated upon to be required to pay for imported grain assumed to be necessary on a deficient harvest, will not, therefore, have to be made, for at present there are no reports calculated to give belief that hurt has been done to the grain crops, whilst the rains that have taken place over the past portion of the present month, are all calculated to benefit the green crops.

THE ATLANTIC CABLE.

The *Times* publishes a diary of the Atlantic Cable expedition, occupying seven columns, and, in a leader on the subject, remarks that although the results are very encouraging for the future, still, even if perfect machinery were at hand, it would be, we fear, too late to lay the Atlantic cable this year, though sanguine spirits may remind us that after the equinoctial gales are past, the month of October is calm, and further delay must cause the total loss of the portion of the cable which has been payed out. One malicious injury was discovered, a piece of iron wire being driven through the covering, and causing dead earth. The diary is graphically written by Dr Russell, who says the buoys which mark the place where so much went down will soon be waifs and strays in the strong seas of autumn. The *Great Eastern*, favoured with a strong breeze, made nearly nine miles an hour coming home. All the London papers also publish the diary.

THE NATIONAL REUNION.

Nothing is more gratifying at the present moment than to see the good feeling which prevails between England and France, reflected as it is in the sight now taking place at Cherbourg where the fleets of the two countries are exchanging courtesies. People from all parts have congregated at the French port, and the place was never so crowded since the time the Queen was there seven years ago. "All the French ships," there, says the account, "dressed athwart ships across the yards—while the English, as usual, hoisted their colors fore and aft, over the mastheads and down astern. The effect was very pretty, though on this occasion the wind, being violently hard ahead, showed the French mode off to the greater advantage. All the English vessels carried the French flag at the main, and when the salute was over, the Lords of the Admiralty paid the high compliment of lowering their own flag from the Enchantress and hoisting that of France in its place." Then followed a grand procession of boats from the French ships to attend the *Te Deum* in Cherbourg Cathedral in honor of the Emperor's birthday. We hope the two countries may never be engaged in less pleasant work.

THE FETE AT CHERBOURG.

CHERBOURG, 18th August.— At the banquet given on the 15th to the Lords of the English Admiralty, M. Chasselop Laubat, Minister of Marine, in his speech, proposing the toast of Queen Victoria and the British Navy, said the time of hostile rivalry between the two countries had passed away. There now only remained emulation in doing everything that could advance the cause of civilization and liberty, freedom of the seas, pacific contest in labor, and beneficent contests achieved by commerce. Such is the signification of the union of the noble flags of England and France. The Duke of Somerset, replying to the toast, thanked the minister for the sentiments he had expressed, and continued, "We accept the toast as a proof of the cordial friendship of the Emperor and the French nation for our Queen and country. We must, on our part, entertain the same sentiments of esteem for the Emperor of the French. We hope that his Majesty may long continue to enjoy his present good health. This we desire, not only because it is profitable for the welfare of the two countries, but also because it tends to guarantee the happiness and the pacific progress of Europe.—In proposing the health of the Emperor, I wish to speak not only in the name of the Government, or of any political party, but in the name of every enlightened Englishman."

FRANCE.

PARIS, 18th August, 3.30, p. m.—The Bourse has been flat. Rentes closed at 68.15, or 5 cents higher than yesterday. An order of the Privy Council, which was held to-day, enlarges on the power of the act for preventing contagion in cattle, and gives further power to inspectors.

AUSTRIA AND HUNGARY.

PESTH, August 11.—A Banquet was given yesterday by the citizens of this town, in celebration of the eve of the Emperor's birth day. The chief Burgomaster, in his speech, proposing His Majesty's health, referred to the recent visit of the Emperor to Pesth, and dwelt on the devotion manifested by the Hungarian people towards the Emperor's person, and their attachment to the dynasty. The town was brilliantly illuminated in the evening.

AUSTRIA AND PRUSSIA.

GASTEIN, August 18. — The negociations which have taken place here between Austria and Prussia have brought about an understanding which places their co-dominion of the Duchies on a new provisional basis. No definite solution of the Schleswig-Holstein question, has, however, been yet arrived at. Lord Napier, British Ambassador at the Court at Berlin, arrived here yesterday.

It is expected that the rebel Vice-President, Stephens, will soon be released or pardoned by the President.... No other news this morning.... Gold 143¾.

NEW YORK, Aug. 28. P. M.—A Washington despatch says the order relative to the passports for paroled rebel prisoners, is the signal for a general emigration of permanent rebels led by Lee, who will go to London and there finish his history of his military campaigns. Among others preparing to go are Generals Longstreet, Ewell, Beauregard, D. H. Hill, Wheeler, Malone, Buckner and Gardiner, and it is probable they will be accompanied by hundreds of others of less rank. ....Edward B. Ketchum, the forger, was arraigned in New York this forenoon. At the request of the prisoner, a full hearing in the case was postponed until Monday next. It is estimated that the property in the State of South Carolina valued in 1860 at $400,000,000, has been reduced to $50,000,000.

TORONTO, Aug. 29.—The international cricket match was concluded to-day; the contest was very close, the Americans barely winning, as their last man was in. The score stood as follows:—1st innings, Canada 73; Americans 64; 2nd innings, Canada 54; Americans played throughout with one man short.....Gold 144.

NEW YORK, Aug. 31.—In the Wirtz trial yesterday, Col. Persons, formerly rebel commander of the Andersonville prison, stated that when he was there the prisoners numbered from 18,000 to 20,000, and that the capacity of the prison was 10,000, and beyond that number no more ought to have been placed on the ground — even after the enlargement. Captain Wirtz was not to blame for the size of the prison; one of his reasons for desiring to abate the prison as a nuisance was the almost insufferable stench and filth in a part of the graveyard. The green flies were almost as thick as locusts..... Advices from the Mexican border to the 19th inst, represent a curiously fraternal state of affairs between our Generals on the Rio Grande, and certain dignitaries of Maximilian's government, who, it seems, have been hob-nobbing together, and treating each other in true convivial style, and our Generals are reported as expressing friendship for the Emperor ....Gold 144.

NEW YORK, Aug. 31, P. M.—The *Herald's* Fortress Monroe correspondent says there is no change concerning Davis, Clay and Mitchell. Each occupies the cell awarded him, takes his food regularly, reads daily the newspapers and other publications, smokes his pipe and enjoys his hours in promenade. The impression that Davis is permitted the freedom of writing letters is erroneous. The letter to Mr. Gillett, one of his counsel, is the only one he has been allowed to write.....Gold 144.

NEW YORK, Sept. 1. — The only proclamation which has been issued on the subject of the arrest of George N Sanders, is that of May 21, and that promised a reward only on the condition of his arrest in the United States.....The United States steamers *Saranac* and *Suwanee* have sailed from British Columbia in search of the *Shenandoah*.....A Washington despatch says that President Johnson has determined to restore the writ of Habeas Corpus in a short time.....The receipts from the Internal Revenue yesterday amounted to over two millions of dollars..... ROPE WALKIG AT NIAGARA—EXTRAORDINARY FEATS — NARROW ESCAPE FROM DEATH.

From the Buffalo Courier, Aug. 12.

On Thursday afternoon, Leslie, the great American rope-walker, gave his fourth exhibition at Niagara Falls, in the presence of Gen. Grant and suite, who accepted invitations to witness the performance. At first, Leslie, who was attired in a dress of silver cloth trimmed with gold, made the passage of the river on a run in four minutes. He returned to the centre of the rope and performed a variety of gymnastic feats. He laid down on his back, hung on the rope by one leg, and made a detour on the guy ropes. This done, he came ashore and was highly complimented by Gen Grant, who endeavored to persuade him not to attempt the peach basket feat as the wind was blowing very hard. But Leslie who is determined to perform what he advertizes proceeded to invest his feet in veritable peach baskets with solid wooden bottoms, which he purchased at Barnum's, and started on his perilous transit. It was a fatiguing journey, but was safely accomplished in some eight or ten minutes. He was welcomed on the Canada side by a reporter from the New York Herald, and, after partaking of some refreshments, started to return with his balancing pole strapped to his neck, a pail of water in each hand, and another on his head. This is a feat never before attempted, and it was only accomplished by the intrepid Leslie. Feeling somewhat exhausted, when near the centre of the rope he sat down, steadying the pails to his hands on the rope, and leaving the one on his head in position. He remained sitting some five minutes, and then resumed, without spilling a drop of water, his journey. Shortly after he started his right hand became suddenly numb and the pail dropped from it. This destroyed his balance, and compelled him to drop the other pail. In doing this, he slipped or fell from the rope, upon which he caught by one leg. Here he hung, with his pole weighing forty five pounds tugging away at his neck. Suspended there, he could see the hands of the crowd on shore uplifted in horror and hear the sharp cry of terror. It was a case of life or death, and, with almost superhuman energy, Leslie succeeded in catching the rope with his left hand, regained his equilibrium and the control of his pole, and reached the American shore in safety, though completely exhausted. We venture to say that no somnambulist was ever placed in a more perilous position, or displayed greater coolness or courage. No one, however, will wish to see the pail feat attempted again.

Leslie will make his next ascension at the falls on the 24th instant, on which occasion he will be enveloped, neck and heels, in a sack.

THE SCOTTISH GATHERING.

The annual gathering of the Caledonia Club came off on Wednesday, at Down's gardens North-West Arm. An immense number of persons were assembled, and everything passed off satisfactorily. The games were spirited and interesting—and altogether the success of the gathering is unprecedented. The splendid band of H. M. 17th Regt. discoursed capital music. The excursionists were conveyed to the grounds during the day by the steamer *Mic-Mac*. The crowded state of the return steamer compelled several hundred to take the road for it. More ample accommodation ought to have been provided. His Excellency the Lieutenant Governor, Major General Doyle, and His Honor the Chief Justice, and other celebrities, were upon the ground. The Glengarry Scotchman, McClellan was the Lion of the day. His feats in throwing the caber, putting the stone, throwing the hammer, jumping, leaping, etc., were perfectly marvellous. The day was most propitious, and the whole entertainment was a decided success.—*Halifax Unionist, Sept. 1.*

THE SECRET HISTORY OF THE RECIPROCITY TREATY.—In noticing this matter yesterday, and the statement made by Mr. Whitney that out of the $40,000 voted in payment of the expenses Mr. Galt received $10,000, we expressed our unbelief in any imputation against Mr. Galt of having improperly or corruptly obtained public monies. We are glad to say that we have since had information which completely satisfies us that we were right in this opinion. After the Treaty had been passed, the non payment of the money disbursed in obtaining it occasioned very considerable embarrassment to some of the persons who had been instrumental in securing it. To put an end to this embarrassment Mr. Galt endorsed some notes, which he afterwards had to pay, and the money he received out of the grant of $40,000 was the repayment of these advances made, we believe, from the most generous and proper motives.—*Montreal Herald.*

MELANCHOLY ACCIDENT.—We have been requested to call attention to the disgraceful and dangerous state in which the Bridge over Beer's mill pond, Montague, is. A lamentable and fatal accident happened there on Thursday the 17th inst A girl named Margaret Gordon, about 20 years of age, attempted to cross the bridge, but owing to its shattered condition and want of repair, some part of the plank gave way and the unfortunate woman was precipitated into the mill pond, where she met with an untimely grave. It is certainly disgraceful to our Government, that an accident of this nature should happen on one of our high roads. It is not certainly the want of money, for the sums annually voted for roads and bridges is sufficient and more than sufficient to place all highways in a respectable and passable condition. We trust that the matter will be inquired into by the Government at once, and if the accident has happened through the neglect or supineness of any official, that he be immediately dismissed.—*R. Weekly.*

The Bazaar and Tea in aid of the erection of the Presbyterian Church at West River, yesterday, was we understand, quite a success. The weather was all that could be desired, the attendance good, and the sum realized about £50. *Isl.*

A terrific gale occured at Savannah on the 16th inst., accompanied by a flood of rain, which deluged the streets. The telegraph office was badly damaged by lightning.

THE CROPS OF CANADA.

A few weeks have brought a great change in this respect. While the harvest was uncertain, our people, remembering the poor crops we have had of late, and yielding to that tendency to discontent which is characteristic of poor human nature, filled the air with all manner of complaints, and muttered thunders about absurd and desperate means of relief, were heard in some quarters, while uneasiness and misgiving were general if not universal. There is no denying it, that a "change is coming o'er the spirit of our dream," that we are in some way or other getting rid of the nightmare that was upon us, and that a general feeling of contentment and hopefulness is abroad. There is only one way of accounting for this, and that is for the general knowledge of the fact that we have got an abundant harvest. No great political changes have taken place. There has been nothing to dazzle the public eye, or draw off attention from our actual condition. Tidings have come to us from other lands, which show that we are better off than many of our sister nations—the sight of teeming plenty has gladdened us — evidence has been given that we have our lot in a good and pleasant land—and thankful for present blessings —we are setting ourselves, as a sensible people ought to do, to work out the problem of our destiny, trusting in the all-wise and merciful Providence that has never ceased and never will cease to care for us and ours.—*Toronto Globe.*

THE PAY FLEET.—Since Saturday morning twenty-three Gloucester vessels have arrived here from the Bay of St. Lawrence, making a total of eighty-six that have completed their first trip this season. Besides these, two vessels belonging to other ports have landed their fares here, and two vessels bringing about 1900 barrels have been freighted from the Gut of Canso. The fleet, as a general thing, have come home with their first trip, while last year most of them sent their mackerel home. Up to this time last season but twenty vessels had arrived home from the Bay. This makes considerable difference, as the owners must have realized by this time.—*Gloucester (Mass.) Telegraph.*

The will of Mr Richard Thornton, so well known at Lloyd's and almost every commercial establishment in the city, and who died a few weeks ago, leaving the enormous wealth of £3,760 000, was proved at Doctor's Commons on Friday last. It contains the following bequests: £1 000,000 to Mr Thomas Thornton, who likewise is to inherit the deceased's estates; £1,000 000 to Mr. Richard Thornton West; £500 000 to be divided among other relations and friends; a handsome provision for Mr Neal and other of the deceased's clerks; £100 000 to be divided among all the charities, hospitals, asylums and benevolent institutions in London, &c. The sums are duly proportioned in each bequest; £15 000 to Christ's Hospital, where deceased was educated; £10,000 left in trust for the benefit of the schools in Merton, Surrey; £10 000 left in trust for the school in Mr. Thornton's native village, Burton, in Yorkshire; £1 000 left for the benefit of the aged poor at Burton; £500 left for the benefit of the poor at Merton. There are many other bequests contained in the will. The executors are Mr. Thomas Thornton, Mr R T. West, Mr Pulford, and Mr. Lee. It is represented that the probate duty of the will cost £42 000, and the legacy duty will amount to upwards of £100,000.—*English paper.*

[FOR THE EXAMINER.]

MR EDITOR:—

Seeing that you have accepted several communications respecting Tea Meetings, you would oblige me very much by giving these few words a place in your valuable paper, respecting a small Tea Meeting at Lot 11, on the 9th inst. On the Sabbath it was announced in the Sabbath School that there was to be a children's tea on the premises of the Hon James Warburton on Wednesday. On the afternoon of that day the children of the Episcopal S School in Lot 11, were seen wending their way to Woodbrook, the scene of their amusement. Just inside of the front gate, in "Spruce Avenue," on a small scale, the tables were spread, and such a display of good things as some of the youths had never before seen. After having taken a walk round the premises in company with the Hon Gentleman himself, we were told that the hour of Tea had arrived. Every one then turned towards "Spruce Avenue" for the purpose of enjoying the viands with which the tables were loaded. This, I need hardly tell you, was done in a very able manner.

Tea being ended, we all sought amusement. The boys found their bats and balls—the girls their swings, — and the adult males played with their quoits. The only thing that drew away attraction from the day, was the absence of the Rev. H B Swabey and his amiable lady. Mr. Swabey, being the beloved and respected pastor of this part of the church, he was, I am informed, unavoidably detained at home. It was not until night had began to throw her sable pall o'er the land that any of us thought of leaving. At last we began to move homeward, each and every one of us satisfied and delighted with our day's enjoyment. Thus ended a day which I am sure will be remembered by the children of this locality, as one of the happiest days in their history. Too many thanks cannot be given to Mr. Warburton and his family for this noble gift, for it was all at the expense of the Hon Gentleman, and free to all concerned. Hoping that the above family may long enjoy all the blessings of a gracious master, for their efforts in the furtherance of religion and education,

I am, yours sincerely,
A SCRIBBLER.

MILL PROPERTY at MONTAGUE.

"Happy may the maid be that's married to a Miller
For fair day or foul day he's a' bringing till her."

THAT EXCELLENT SET of MILLS owned by *MRS JANE CAMERON*, of MONTAGUE, close to the valuable and extensive Property of the Hon. J. ALDOUS, consisting of a

First Class Grist Mill,

with Three Pairs of *Superior Stones*, capable of grinding all kinds of Grain, and producing Flour or Meal of any grade—together with a commodious and well finished KILN. A superior **SAW MILL** and **SHINGLE MILL**, both new and in excellent working order. Also a COMFORTABLE **Dwelling House**, properly finished. The LAND on which these Properties are situated comprises TWENTY SEVEN (27) ACRES, of good quality, mostly cleared, and in a good state of cultivation. This Farm can easily be made larger by any person desirous to do so, as there are 100 acres of valuable land adjoining, owned by Mr Lemuel Phillips, who feels disposed to sell should a favourable opportunity offer. On the whole, this Property is considered by competent judges to be most advantageously situated, fronting as it does on the Montague River, whose waters convey both Grain and Lumber to within a stone's throw of the Mills; and the convenient and good roads leading from these Mills to all parts of the County, and through old and highly cultivated settlements, need but be mentioned to be fully appreciated by any person acquainted with the value of such facilities. It may not be out of place here to mention that the Hon. the "Commissioner of Lands"—than whom no person should be a better judge—saw in close proximity to this Property a site on which to invest a large amount of capital, feeling sure that it furnished those numerous advantages required to make a desirable and permanent residence.

☞ The terms on which the above valuable Property will be disposed of will be as follow:—Half the purchase money to be paid down the day of sale, and the balance can remain secured on the Property for one, two or three years, at the option of the purchaser.

Parties desirous of treating for the above, can do so, by private contract, up to the

18th day of October next ensuing,

on which day, at 12 o'clock, noon, (if not previously sold), it will be offered at Auction.

St. Dunstan's College.

Under the Patronage of His Lordship the Bishop of Charlottetown.

THIS INSTITUTION is situated on the Princetown Road, a mile and a quarter north of Charlottetown. The site is peculiarly beautiful, healthy, and far removed from the distractions and moral dangers of the city.

The halls and rooms of the building are spacious, airy and comfortable.

The College Grounds are large, affording ample room for games and athletic exercises.

The course of studies embraces all the branches necessary to prepare young men for the study of the learned professions or fit them for mercantile pursuits, such as History, Geography, the English, French, Latin and Greek Languages, Rhetoric, Mathematics, Philosophy, Chemistry, &c. Music—vocal and instrumental—is also taught.

The College possesses a large and well selected Library, as well as an extensive Philosophical Apparatus.

The Professors and Teachers reside in the Institution, forming but one family with the students, and exercising a constant supervision favorable to discipline, decorum and good morals.

Catholic students are carefully and frequently instructed in their holy religion, which they are required to practice. The most solicitous attention is paid to the morals of all; and whilst within the College enclosure, they are constantly under the watchful eye of one of the Teachers or Prefects. Perfect discipline is strictly but kindly enforced.

Students when entering must produce satisfactory testimonials of good character.

The College is visited regularly once a week by a Physician.

TERMS:

Per Quarter of 11 Weeks:

Board and Tuition	£6	0	0
Use of Library	0	1	6
Physician's Fee	0	1	6

Payments to be made half-yearly in advance.

The College furnishes bedsteads and mattrasses; the students must provide their own beds and bedding, brushes, basins, towels, &c.

The Scholastic year commences on the first Wednesday in September and ends about the middle of July. Students are requested to enter the College on the first day of the opening of the classes.

For further particulars apply to

A. McDONALD.
