

Oppose Further Nuclear Tests

TORONTO (CP) — The Toronto conference of the United Church of Canada resolved its differences Monday and came out against any further nuclear weapons tests.

Debate on the issue was adjourned Saturday when Rev. Gordon S. Fennell of Mimico led opposition to a seven-part motion putting the conference on record against further nuclear explosions.

Mr. Fennell said he opposed the motion because the bombs might be deterrents to war; because banning them might "bring something even more hellish," and because the church should build friendship between nations, not attack in a negative way.

Professor John Irving, head of the department of philosophy at Victoria University here, supported the motion, saying:

"Preparation for war does not bring peace, but war."

Dr. James Finlay of Toronto brought the issue up, urging the conference to oppose further explosion of nuclear bombs anywhere in the world and to ask the Canadian government to "work indefatigably" to gain international agreement that nuclear fission be used only for peaceful purposes.

His resolution, passed Monday, also asked the government to urge a United Nations-sponsored international conference of scientists to discuss the dangers of radiation from a non-political point of view.
