

A Dangerous Joke.

A few months ago a person hardly dared say they had La Grippe for fear of ridicule. And now that one half of our population have had it, the other half are in mortal terror for fear they too will have it.

It has been the relapses and after dangers from La Grippe that have been so appalling. The death rate in many large cities has exceeded 100 a week from the "grip" alone; and the end is not yet.
