Sunlight and Lifebuoy Soaps at 5 cents per twin bar, is like buying silk at the price of cotton.

New Zealand Mutton.
The story of a New Zealand sheep designed for the London market may be very briefly told. It is taken from the run to the slaughter house, killed, dressed and transferred to the cooling room. The skin and superfluous fat are retained; after ten hours' cooling the carcass goes into the refrigerating room for 36 hours. Thence it goes to the storing room, and when it has been developed in its cotton "shirt" and labeled is ready for its journey over sea. The steamers which bring the meat to us through the tropics have, of course, to be fitted with refrigerating appliances, and our sheep takes its place among thousands of others, some of the boats being fitted to carry as many as 70,000 carcasses at one time.

There are 88 vessels engaged in the trade, capable of transporting 6,700,000 sheep per annum. Arrived in the Thames, the barges come alongside the vessel, and the sheep is transferred to a cold storage station. Here it may lie for weeks or for months if necessary, so that—an important commercial advantage—there is no necessity for immediate sale on a depressed market.—Good Words.

The Fare and the Fine.
A good story is told of a certain Scotch baillie who, on rising one morning, found that he had overslept himself and had but a few minutes in which to keep a most important appointment. Making a hurried toilet, he rushed from the house and hailed a passing jehu. "Drive me," he said to the man, "to the courts of justice with all possible speed. On no account delay an instant." Faithful to his instructions, the driver urged his steed to its very utmost. Faster and faster they went until, after an exciting drive, he deposited his fare at his destination in time for the appointment, but not before he had damaged a passing vehicle in his mad career. The baillie, on alighting, handed him his fare, with the addition of a substantial tip, and then, to the man's astonishment, pressed 30 shillings into his hand, at the same time saying: "Here's 30 shillings, my man. You will be brought before me tomorrow for furious driving, and I shall fine you that amount."

Don't Put Things Off.
"I cannot too strongly impress upon you, Philip," said Mrs. Gratebar, "the fact that things in general are not automatic—that is, they will not do themselves—and the longer you put off the attack upon them the harder they are to tackle. Don't put things off, Philip. To things that require deliberation you will give sufficient thought; but, as to the run of things that come up, acquire the habit of disposing of them as they come along; you will find it a great help in many ways. Don't coddle 'em up, Philip. The first thing you know you will have more stacked up than you can saw, and then, too, the pile is liable to fall on you at any time and hurt you." "Two things to remember, Philip—first, things are not automatic; second, the time to attend to things is now."—New York Sun.

TO CURE TOOTHACHE IN A MINUTE
Use NERVOL. One application cures; if not, your money back. Equally good for Neuralgia and Headache. 25c. at all Druggists.

Bargains.

You want real bargains, not common goods at low prices. The greatest bargains you can obtain in SOAPS are the world renowned.

Sunlight & Lifebuoy

Brands, just try them, and you can not help but acknowledge that they are the best bargains you ever had.

Is the baby too thin?
Does he increase too slowly in weight?
Are you in constant fear he will be ill?
Then give him more flesh. Give him more power to resist disease. He certainly needs a fat-forming food.
Scott's Emulsion is just that food. It will make the baby plump; increase the weight; bring color to the cheeks, and prosperity to the whole body. Thin children take to it as naturally as they do to their milk.

STOVES & HARDWARE

No More War
Swords will be beaten into plough shares later on; but our armers do not need to wait till the "Peace Conference" is over, before buying their plough shares, as they can do so at once, by calling at the Masonic Temple Store, where any share, or other plough extras can be had for less money, and better than any imported. Prove this at once, by trying them.

Artificial Teeth on Metal Plates
A dentist who knows his business, and one that has any regard for his patients will always advise them to have a metal plate.
PROF. MELVILLE B. BUCKLEY,
Instructor Boston Dental College,
Boston Mass
In view of the vast amount of injury done to the mouths of wearers of rubber or vulcanite plates, by the retention of undue heat, owing to the non-conductibility of rubber, and as Aluminium is now so cheaply produced, and making as it does a rigid, light, clean, unobjectionable plate that seems no reason why any person should wear a rubber or vulcanite plate. Not only this, but better results in fit and adhesion are obtained in difficult cases, than in the use of rubber.
L. P. HASKELL, D. D. S.
Chicago Ill Dental School
The above quotations are from hundreds of eminent dentists whose close observation in many years experience in plate work has learned them the many advantages of metal over rubber.
Many persons who are compelled to wear artificial teeth on a plate find that the ordinary plate causes heating of the mouth, bad taste, shrinkage of the gums, etc., finally causing the plate to get loose, sometimes sore lips, sore mouths and sore throats, and caused directly from the wearing of an ordinary plate.
We recommend a metal plate either of Gold, Platinum, Aluminum.
It is a conductor of heat and cold, it is non-irritating, and is thinner, lighter, and stronger than any other plate.
We have testimonials from persons for whom we have made metal plates—not one would wear an ordinary plate again. You can have your impression taken, and a metal plate made same day, fully guaranteed because we make them ourselves, and know all about the material used. Call and see specimens of our work.
Every piece of work done by us must give entire satisfaction to the patient, else we will not allow it to leave our office.
See our artificial teeth without plates.
