Stresses Force Of Jaycees In World For Goodwill

"Our organization is a force for peace and good will in the world today for it teaches us, the young men of the world, how to learn to resolve our differences around a conference table. It teaches us understanding of each other and our many problems". This was the opinion expressed by Douglas Fisher, national president of the Junior Chamber of Commerce at a dinner meeting of the Montague and Charlottetown Junior Chambers held last night at Montague.

The Montague Jaycees were hosts to the Charlottetown Chamber, Maritime regional president, Don LeBlanc, Hon. Keir Clark, Hon. Lorne Bonnell, Judge J. S. DesRoches, S. S. Hessian, Q.C., M.L.A. and His Worship, Mayor Bruce H. Yeo, in honor of the President, Mr. Fisher.

After a delicious steak dinner, Mr. Fisher was officially welcomed by Mayor Yeo, while Hon. Mr. Clark expressed the regrets of Premier Matheson at being unable to attend due to previous committments.

Don LeBlanc, who accompanied Mr. Fisher, said he was delighted to have the opportunity of visiting Montague, and after seeing the modern hospital, schools and neat appearance of the town offered his congratulations to the citizens through the Jaycees.

Alan Nelson, local president, welcomed the guest of honor who was then introduced by Walt Wheeler of the Charlottetown chamber.

OUTLINES PURPOSE

In an outline of the Junior Chamber story, Mr. Fisher spoke of its fourfold purpose: Improvement of the individual, through leadership training; community betterment; Canadianism, and fellowship which is an essence to friendship. He said that "The Junior Chamber is a training ground to accomplish a great deal more, eventually increase your standard of living and circle of friends, and allow you to live in a better community because of your efforts. Your Junior Chamber organization trains you for leadership whether it be in your work or in your activities in the community."

Mr. Fisher also spoke of the two roads a Jaycee could follow education and administration and said he hoped the members would take the educational road first, to learn the principles involved in being an effective leader, then travel on the administrative road, where they would have the opportunity of practising principles learned on the educational road.

IN JAPAN

Mr. Fisher told the attending 12th annual International Congress of Junior Chambers which was recently held in Tokyo, Japan, where he talked with Jaycees from Vietnam, South Africa, Peru, Sarawak, Thailand and many other countries.

He congratulated the local Chamber of noticing their charter hanging in a prominent place in the banquet room, along with a certificate for second place in a national awards for civic betterment. This award came as a result of an essay written by Arnold Wightman of the local chamber. He also congratulated Ralph Annear on being one of twelve winners out of twenty thousand in the national teen-age safe driving road-e-o.

John Tredenick, Montague Chamber, thanked Mr. Fisher for his most impressive outline of the Jaycee story. Arnold Wightman, regional vice president and meeting chairman, called on Gilbert Clements who made appropriate presentations to Mr. Fisher and Mr. LeBlanc on behalf of the Montague Chamber, and Jack Morris, who also made a presentation to Mr. Fisher on behalf of the Charlottetown chamber.

At the close of the banquet Mr. Fisher and Mr. LeBlanc were taken on a tour of "the Farm Museum", a Junior Chamber project, following which members and guests were entertained at the home of Dr. A. E. Ings.

Mrs. Archibald Hume, Montague, left for Halifax Wednesday to visit her brother-in-law and sister, Mr. and Mrs. Cecil Wightman. Mr. Wightman is a patient in the Victoria General Hospital.

Expanded Oil Survey Planned For Kings Co.

Preparatory surface work preliminary to any full scale oil survey was carried out last summer in Eastern Queens and Kings County.

This work was carried out by a two-man team of geologists from the Department of Mines and Surveys, Ottawa, working in cooperation with B. Graham Rogers of the provincial Department of Industry and Natural Resources.

It is understood that a major survey of this area will be carried out next summer.

The California Standard Company, Canadian subsidiary of Standard Oil Company of California, will explore for oil in other parts of P.E.I. next spring.

Part of the necessary preliminary work is expected to commence in a month or so.

No Threat To Pilots Known

OTTAWA (CP) — Transport Minister George Hees said Friday he knows of no "threat" to fine 52 striking St. Lawrence River pilots.

George Marler (L — Montreal St. Antoine-Westmount), former transport minister, had asked in the Commons about reports that the pilots, off their Montreal-Kingston, Ont., run since Nov. 4, would be subject to fines of $200 each under the Canada Shipping Act.

"I don't know of any such threat having been made by my department," said Mr. Hees.

ACCIDENT AFTERMATH

LONDON (Reuters) — Britain had to call off its recent Pacific hydrogen bomb tests because it was running out of vital fuel, the News Chronicle said Friday. The newspaper says fuel for the explosions on Christmas Island in the south Pacific was seriously cut by a recent accident at the Windscale plutonium plant.

P. W. C. NOTES

So Much Is Going On It Is Hard To Keep In Touch

Have you ever set down to begin writing an article; then find you can't think of a leadline. Well if you have you are facing the same problem as I, for there has been, and will be so much happening at P. W. C. in the next few days it is a bit hard to decide which comes first. With so much going on in sports, studies and socials, one would be tempted to forget his duties all together, and retire to some nice quiet nook and dream, while the rest of the world whrils merrily by. But, with a Variety Concert nearing opening night, and sport blasting along at full power, such an act would be unethical, and down right dangerous to life and limb.

Socially, the Variety Concert is the word. Wallace Platts, the student director, has his cast hard at work memorizing their lines, and practicing their actions, all in preparation for the big opening night, this coming Tuesday, Nov. 19th. The show will begin at 8.00 p. m. and Wallace promises plenty of good entertainment when his cast runs through their twenty some skits. Of these twenty skits one will be chosen to win the prize offered by the Student's Council as the best student presentation of the show. As yet Wallace, and his cohorts have remained clothed in a deep secrecy, and it is doubtful that anyone beyond the Concert's set, has ever seen the cast in action; so a complete surprise in store for those who attend next Tuesday.

RECORD HQP

This Friday night is to be a different occasion also. The Amateur Atlantic Association of the Student's Council is sponsering a dance unique in College history, as it is a record hop, and the proceeds will be used to buy badly needed uniforms for the many competeing teams that represent the college. Bob Lund, the Athletic representitive of the Council, was the orginator of this plan for raising funds. Bob's committee watched with envious eyes the profits made by the Council at the dance held a few weeks ago by the Socital Committee, and decided they could do as well. So members of the College teams got together and sponsored Friday's dance with the idea of new uniforms in mind.

TIMES

The quarterly, The College Times, is nearing publication date, with editor Lincoln MacLeod busily collecting and reading the many poems and articles which will adorn its pages. "Link." Ken MacIntyre, and the other members of the staff have been hard at work to make this issue one of the biggest in many years, and from all reports they have succeded in their goal, for never has their been so many entries of student talent in one edition, but then again this has been an unique year in many ways. As the news deadline has been set for November 20th there is still time to enter your favorite poem or joke, and share your chukles with the many who have contributed theirs.

Another edition, unknown as yet, has reached publication date. This dark horse is the College Directory, listing the names, addresses, and phone numbers of the Student body. The Directory, sponsered by the Student's Council, will be put on sale Monday or Tuesday, and is sure to be a fast seller as it has been in previous years, for this is the chance to get the address of that mysterious boy or girl in your section.

With so much ado socially, one may wonder where time for other matters can possibly be found; but never underestimate the mind of a scholar, for he has found time to study, and on top of all to play sports. Sports, one of the most important and fundlemental aspects of College life has been going full blast this week at P. W. C.

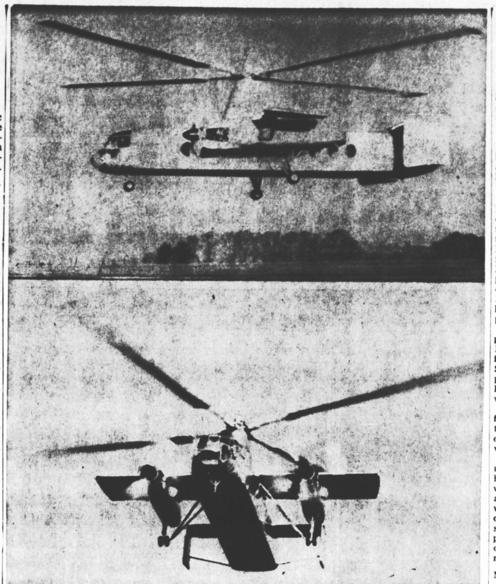
SPORT

Hockey has finally shaken off its summer's inactivity, and in a few days has risen to be the prime sport of the College. Five intermural teams have been organized, and a league has been started. The teams were chosen with the idea of keen competition in mind, and form a side watcher's view of the first game the chosers have succeeded in their aim, giving the College one of the best House leagues iced in years. Co-ed hockey practices have also been posted, and the girls are expected to turn out in full force for their first practice to show the male population they are as proficient in Canada's National Game as any boys team the College may ice. For those of use who value our limbs the Council has set aside a hour long skate every Monday, so we may also get our exercise.

Basketball is a close second to hockey in popularity, with two boys' teams organized and entered in a league; and a girls team beginning to shape up under Professeur Bob Leclair's guidance. The boy's first team will play their first league game Saturday, while the second team will match skill with Souris High sometime next week. It is a bit early for a House league in this sport yet, but the Athletic committee promise to organize such a league sometime early next term, with the idea of teaching participants the fundamentals of this popular indoor game.

Volleyball is under way also, with a team representing the College being entered in the City league. Badminton and Ping Pong tournaments will begin after the Christmas exams, and these sports are expected to retain their previous popularity.

Well that about does it for this week, but in writing this column a saying of an old philosopher has creeped into my mind. His words are these, "When you and I went to College it was to learn the Three "R"S, but these old standbys have been replaced, it it is now the three "S"s, Sport Socials, and Studies; in that order.



VERTICAL TAKE-OFF AIRLINER SHOWN

The Fairey Rotodyne, vertical take-off airliner is shown during its first flight near Maidenhead, England recently. The 17-ton aircraft will carry 48 passengers or 4½ tons of freight up to 400 miles at a cruising speed of 185 miles per hour. It is equipped with two propellor-turbine engines driving forward facing propellers and a 90-foot diameter four-blade rotor mounted above the fuselage. Each rotor blade has a jet unit on its tip. (AP Wirephoto)

THE WEEK AT S. D. U.

Only Exhibition Game But A Great Victory

The colours red, white and blue have inspired many to perform deeds that will be remembered, long after their performers have passed into oblivion. There were the British and the Union Jack at El Alamein, the Americans and the Stars and Stripes at Guadalcanal, the French and the Tricolour at Dien Bien Phu and there was St. Dunstan's and the snow and St. F. X. on the gridiron last Monday.

The men in Red on a field of white, fought the blue-clad X-men and came forth with a 7-0 victory that will be long remembered at S.D.U. Monday's exhibition game was the fifth played by the fledgeling Saints, who came through the five of them like masters and without a point scored against them.

NO CHILL

The cold blustery day with wind and snow souring the field and bleachers couldn't chill the excited fans. They watched a hard fought see-saw game until the third quarter when Jack Kane pile-drove across the St. F.X. line for the first and only touchdown of the match. Gil Collins moved the score up to 7-0 when he crossed over to make good the convert.

The Xaverians rallied hard after the Saints' score, but couldn't get through the amazingly strong defensive squad. So the game finished with a well won victory for S.D.U. Their final encounter for the season left little doubt in anyone's mind that they will be a team to beat, when they move into scheduled inter-collegiate play.

N.B. MEET

On Monday Nov. 12 a Cross Country Track team from St. Dunstan's travelled to Minto, N.B. for a meet with the New Brunswick champions from the Minto High School. The team gave good account of itself although it lost in gaining 25 points to the 11 of the more experienced Mintonians. Bill Phillips, a native of Minto, did an excellent job of coaching the St. Dunstan's team, but was unfortunate in that two of his top runners were hit by the flu and were unable to train during the two weeks previous to the meet. Both men ran but their weakened condition helped them little in gaining stiff competition to their opponents.

The total distance for the course run was 2.1 miles covered in the winning time of 10.49 minutes. The first S.D.U. runner to cross the finish line was Frank Driscoll, who clocked a time of 11.42.

LOW POINTS WIN

The scoring for meets of this nature is a little complicated and a trifle difficult to understand at first. To start with the team with the lowest pointage wins. The first four men to finish the course for each team represented, count and the points awarded are numerically equal to the position in which the runner finishes. For example if the first runner to finish the course for a team finishes in fourth place he would win 4 points. Naturally those who finished first would receive the lowest pointage, and the least number of points totalled from the first four runners on each team determines the winner.

Coach Phillips, who first became interested in Cross Country Running at Minto, attended, in 1953, the Canadian Olympic Training Program held every year in Toronto.

While at the Olympic training school, he gained a considerable amount of experience in coaching and running techniques so should be well qualified to train the Saint Dunstan's team. We might mention that Bill inaugurated Cross Country Running at S.D.U. in 1956 and should be commended for the fine work he is doing at S.D.U. for this sport.

BASKETBALL

In Basketball to date, action has been comparatively slow. There were two exhibition games held in the College Gymnasium last week. On Saturday a combination five from First and Second team played against the Sport Lodge Trotters. The final score for this initial game was 48-32 for St. Dunstan's. The second exhibition game was held Sunday afternoon when the Saints again posted a victory by defeating Prince of Wales 72-36.

The first scheduled game for Saint Dunstan's in the newly formed Island League will be held this Saturday afternoon at 4:00 P.M., in the College gymnasium, when the Second Team meets Prince of Wales.

This league includes teams from R.C.A.F. Station, Summerside; the town of Summerside; the Sport Lodge Trotters; Y. M. C. A.; Prince of Wales and the Saint Dunstan's Second Team, the last four teams mentioned are from the Charlottetown area. To date the schedule for Inter-Collegiate basketball competition is not known so the Saints' First Team has been restricted more or less to exhibition games and their inter-squad practices.

The decorative signs which have appeared with increasing frequency on the various College bulletin boards during the past week or so, have made many wonder who or what is the mysterious "Everyman". We are informed by Fr. Arsenault, faculty advisor to the Dramatics Society, that all will find out on Monday Nov. 25 when the Society will stage its first production for the 1957-58 season.

Just before closing for this week we would like to enlighten all those who have wondered, during the past few days, why the students from Saint Dunstan's have been looking so glum. The results of the mid-term examinations were made known during the earlier part of the week. Need more be said till next Saturday?

Amalgamation Issue Still Clouded, Chairman's View

The Chairman of the Mertopolitan Committee, after attending a meeting of the rate payers of Parkdale village stated yesterday that the issue of amalgamation is still clouded.

Mr. Storey said he did not know whether this condition had been brought about by intent or accident but felt that many misleading statements had been made to confuse matters.

Elaborating on this subject, Mr. Storey recalled that the chairman of the police committee stated the village would have to have seven policemen. This, Mr. Storey said was absolutely incorrect, pointing out that the Metropolitan report specified two policemen for each of the Villages of Parkdale and Spring Park. In addition to this they would have the full co-operation of the present city police force.

"There is no reference to seven policemen in the Metropolitan Report", said Mr. Storey. "In fact it states that Parkdale and Spring Park will each have two policemen and of course will have the full co-operation of the whole City force as well."

Another item which Mr. Storey felt was beclouding the issue was the talk of disposing with the old schools and that the fire hall would become surplus.

He said the schools would be under the school board and there had been no mention made of what would take place. In so far as the fire hall was concerned, it was recommended that the Parkdale Fire Hall would be a substation and in the case of the police force would have the full co-operation of the fire department at City Hall.

NO FOUNDATION

Mr. Storey said the rumors to the effect that the Village's assessment would be grossly increased were without foundation. He said no one knows what increases may take place but with a neutral Board on which Parkdale would have ample representations, it is unlikely that such a thing would take place.

In any event, he noted, there will be no increase in taxation for the next four years which should give an assessment Board plenty of time to work out a fair and equitable solution.

Mr. Storey felt that sufficient recognition to the Committee's report which recommended two councillors to represent Spring Park and two to represent Parkdale. He observed that these four councillors would represent about 3,000 people and comprise one third of the City Council.

The Committee chairman said it was a simple question of economics — "can three communities operate as cheaply as one and render the same services to the people in the areas concerned?"

Continuing he said, "If there is any doubt whether Charlottetown which would have a population of 20,000 and assets of $33,000,000 could pay for the proposed services, then the question posed by Mr. Harry Hennessey of Parkdale should be answered."

Mr. Hennessey's question was, "If you think that the Metropolitan Area cannot afford the services proposed, how can you expect Parkdale with a population of 1,500 and assets of less than a million to pay for them?".

Mr. Hennessey asked the question at the Parkdale meeting and the same question re-phrased was asked by Mr. Dean Robinson.

To Hold Rally At Montague

The first rally for Men of the United Church to be held in Kings County will take place Sunday evening in Montague. The rally will be held in conjunction with the observance of Laymen's Sunday in the Montague charge.

Several men from other Men's Associations will be present and participate in the observances which will include a service of witness at the close of the regular church worship. The President of the Maritime Council for Men of the United Church, Allison MacKinnon, will be the guest speaker.

All Men's Clubs in the Kings County Area will have representation at this rally.

WINTERTON, England (CP) Residents on Sewers Lane in this Lincolnshire town wanted to change its name. New name, approved by council, is Sowers Lane.

How to KEEP FIT after 50

In the old days fifty seemed the signal to slow down—take things easy—watch your diet—get more rest. It's still good advice. But these days you can face fifty with many interesting and active years ahead,—active, that is, if you can avoid backache and the "tired-out" feeling, due to kidney and bladder disorders, that often develop around that age. For more than 60 years Dodd's Kidney Pills have been helping men and women of all ages to keep kidneys and bladder in good order,—helping them to feel better, to work better, and get more fun out of life. If you are approaching fifty or past it, Dodd's Kidney Pills may help you, too. You can depend on Dodd's. 54
