jet interceptor and the Bomarc missile are useless without the warheads.

Bomarc missiles installed at North Bay, Ont., and LaMacaza, Que., were in a state of impotence and might as well have not been there during the Cuban crisis, Mr. Pearson said. He said it was completely absurd to argue, as the government had done, that the Bomarc and other nuclear carriers could be armed after the start of a worldwide emergency. Mr. Pearson said the Cuban crisis demonstrated that Canada should reach an agreement with the United States before a new emergency can develop on the armament of the three nuclear carriers. The opposition leader's remarks followed the same line as in his speech to a Liberal convention in Toronto Jan. 12, which drew protests from some former Liberal candidates. The government made no shadow of doubt that Canada has made such commitments and he had evidence to support that statement. The present situation was "humiliating for Canada and a disgrace to the HARD TO CHANGE. He said it now is more difficult than ever to expand in Canadian commitments, and these changes will take longer. He said he would like to implement the strike reconnaissance role in Europe - though not as a necessary weapon. In a summation of Summerisde and the town's incorporation act, Mr. Stewart explained that the taxes concerned are fully covered in the Town of Summerisde Incorporation Act. Mr. Stewart said that the Town, in its budget, must strike a tax rate sufficient to meet its expenditures, and if a tax on motor vehicles was not imposed, the tax rate on other property, both real and personal, would have to be increased. The (Continued from page 1) sites should be built firmly on land, he said. ALL MAKE MISTAKES Many mistakes have been made by all the countries in the world, the prime minister said. You will never see these words in Investia of Pravda. Yet they are the most meaningful of any newspaper can print. They outweigh the news of atom wars. They are more important than news of international affairs - or of the Stanley Cup. They say more about this country than all the books on freedom. They can be written by Liberals or Conservatives, Social Crediters or N.D.P.'s, ditch diggers or bank managers, old men or children - by anyone, or any subject, at any time. And they are printed - free. In The Guardian, this forum for all shades of opinion is called, "Public Forum". Some opinions challenge us for our stand on an issue; some agree with us; others offer new approaches to a problem. More important than any view (ours included) is the right to express it.
