PEKIN RELIEF SUFFERS A CHECK,

Ministers Alive August First.

ADVANCE BEGAN ON THE FOURTH.

Tugela Tactics Adopted By The Chinese.

[SPECIAL TO THE EXAMINER.]

LONDON, August 7.—"The advance of the allied forces commenced today," cables the British Consul at Tien Tsin under date August 4.

This is the first official information received here that the attempt to relieve Pekin has begun.

It is accepted as correct.

The British Consul does not mention any fighting, but the Shanghai correspondent of the Daily Mail telegraphing on Sunday says: "The Pekin relief column is reported to have suffered a check. The Chinese are said to have adopted Tugela tactics, and after several hours of fighting to have retreated." This is the only message received in London this morning bearing out the reports of Admiral Remy and Commander Tausig regarding an engagement at Pei Tsang.

The fact that the advance did not begin until Saturday is taken to strengthen the accounts of a battle on Sunday, especially when it is said to have occurred so near Pekin as Pei Tsang.

In the same cablegram, which was read in the House of Commons, the consul at Tien Tsin says that news from the Japanese legation has been received up to August 1st.

The edicts announcing the safety of the ministers on that date are confirmed.

Yesterday, the Chinese Minister, Chih Sen Lo Feng Lu, communicated to Lord Salisbury a message from Tsung Li Yamen, dated July 30, reiterating the statement that the Ministers were safe on that day.

A FATAL ACCIDENT.

CROPS AND TRADE,

Situation and Outlook in the United States.

Henry Clews writes (Aug. 4.): "The crop situation shows improvement owing to more favorable weather during the last week or ten days. The serious damage to wheat has been confined to the Spring wheat sections of Minnesota and the Dakotas, where only about half a crop is expected. Business in those sections and the railroads also will be unfavorably affected by this loss; but elsewhere the outlook is promising. In spite of the damage and the shortage on the Pacific coast the indications favor a yield of about 550,000,000 bushels of wheat compared with 547,000,000 bushels last year. Higher prices, be it noted, assure a money value considerably in excess of last year. Corn is in excellent condition; and if the next few weeks pass without injury from frost, the yield may reach over 2,000,000,000 bushels and prove one of the biggest on record; a fact of much consequence to the business interests and railroads of the West and Southwest. The South is now more prosperous than for many years; in fact it is doubtful if the South was ever in better condition than today. Cotton costs less to produce than formerly, but it is bringing very profitable prices to both grower and distributor. The South is also benefiting greatly by the diversification of industry, the wonderful development of cotton manufacturing and the iron industry creating an era of prosperity to which that section has long been a stranger. Railroad earnings are generally showing wonderfully good results, when it is remembered they compare with two phenomenal years. Such gains cannot always be expected. At the same time expenses are often increasing very heavily; hence unreasonable expectations of extra dividends are likely to meet with disappointment. A number of roads have lately increased or paid their first dividends, and this fact has proved the strongest support which the market has had. There are a number of 4 per cent dividend payers with permanent prospects, which are likely to sell at considerably higher figures when the investment demand again sets in. A good many buyers are holding off for lower prices, who may at any time be obliged to shift their position. If the various conditions be balanced one against the other the outlook is certainly favorable. The foreign situation is improving; money is easy; the political campaign promises to re-elect Mr. McKinley; the crop outlook is satisfactory and trade has undergone a readjustment which should pave the way for a good autumn business. On the other hand, the foreign outlook is not free from danger; a good many timid souls are waiting for an election scare which may never come, and the unsettled condition of the iron trade throws a shadow over the market for all the industrialists. As the vacation period passes away, a better and more active market may be looked for.

The Queen Threatened.

BUENOS AYRES, August 4.—Gluseppe Castagni, a brother-in-law of Bresci, has secured passage for Montevideo, after failing to secure the return of passage money to New York, which he paid three weeks ago. He boasts that Bresci committed a highly commendable deed, and asserts that Queen Victoria will be the next victim. Some clerks in a British shipping office here gave him a horse-whipping for his remarks regarding the Queen. It is not known whether he will sail for Montevideo or New York.

Safe With the British.

LONDON, August 6.—It is said that a resident of Westonsuper Mare has received a telegram from a nephew in Pekin, dated August 1st, saying: "Safe in the British legation."

Preparations in the States.

NEW YORK, Aug. 6.—Preparations being made by the War and Navy Departments to facilitate the operations of the American forces in China, not only in the advance against Pekin, but also for a winter campaign, indicate that a condition of avowed war may be averted, intends to be prepared for it, says a Washington special to the Herald. In anticipation of the northern part of the Gulf of Chili freezing in November, General Ludington is making a strenuous effort to land at least six months' supplies at Taku. General Ludington is also arranging for the transportation of 27,000 tons of fuel to Taku. Thousands of small campaign stoves have been sent to that point. Heavy winter clothing, doors for tents, arctic shoes, etc., have also gone.

UNLIKELY STORY FROM PRETORIA

States That Canadian Soldiers

HAVE BEEN FOUND GUILTY OF FORGERY

And Have Been Sentenced to Ten Years' Imprisonment.

[SPECIAL TO THE EXAMINER.]

OTTAWA, Aug. 7.—A terrible story affecting the honor of the men of the First Battalion C. M. R., is told in a letter received by an Ottawa gentleman from his son who is a trooper in the regiment. The letter is dated at Pretoria, July 6th. It states that twenty men of the C. M. R., originally drafted from the Royal Canadian Dragoons, have each been sentenced to ten years' imprisonment for one of the worst offences known in war.

It is said that they forged Lord Roberts name to a commanding order which they executed upon a number of Boer farmers.

As a result they secured arms and a large quantity of supplies—and the story goes that they then sold them to Boers in the field.

The report on its face seems incredible. But it is told by the writer with great circumstantiality.

The Government has no information on the subject; and it is to be hoped, for the sake of the fair fame of the Canadian militia, that a speedy denial will be forthcoming.
