As an instance of the necessity of investigating cases where relief is asked for, the Rev. Mr. Blunt, at a meeting held in London recently, said:—“Not long ago a woman had taken him in with a pious story that her husband had not had a day's work for six months. It was true, for he was a night watchman.”

It is written in a quaint old Jewish manuscript, now in the British Museum, that the oldest of mankind, Methuselah, did not live as long as he might have done.

“Now, to avoid all this, begin the month of May by a thorough purification. Throw open the doors and windows of the cellar, and clean out all decayed matters. Sweep the floor and walls. Give the walls a good coat of whitewash; this will expel vermin, sweeten the air, and give the cellar a neat and tidy look, making it rival the parlour in its way. If provisions, or other substances liable to decay, have to be kept in the cellar during the summer, chloride of lime should occasionally be sprinkled over the floor. Keep the windows open for a free circulation of air, guarding them, if necessary, by a wire netting.”

Correspondence.

CHARLOTTETOWN, June 21, 1860.

Hon. E. WHELAN. Sir,—Permit me, in justice to my own feelings, to explain through the columns of the Examiner, the cause of the unpleasant misunderstanding which has lately taken place in the “Prince of Wales Rifle Company.”

do not question the right of His Excellency to exercise his prerogative in appointing any gentleman he may consider qualified to command the Volunteers of Queen's County, but I do protest against the claims of senior officers being over looked and neglected.

THE MEMBERS OF THE “MUTUAL IMPROVEMENT ASSOCIATION,” of St. Peter's Road, having adopted the use of Sectarianism in their debates and lectures of late, in direct opposition to their own bye-laws as well as the wishes of lovers of peace and order...

MR. WHELAN. Sir—I have for some considerable time taken notice of the very slow manner in which the water tanks and carriages belonging to the Fire Department of this City have been kept.
