**Empire Press
Union Discusses
Growing Menace**

By EDWIN JOHNSON
Canadian Press Staff Writer
LONDON, June 28—Constant vigilance against the "growing menace" of legislation aimed at restricting freedom of the press was urged today by successive speakers before the Empire Press Union Conference now in session here.

With Joan McNeil, 39, and his 38-year-old wife, Ann, were a daughter, Mildred, 18, and a son Jack, six.

Another Canadian-born daughter, Mrs. Dorothy Lofton, 19, was to have been deported also. But Mrs. Lofton, an expectant mother, fainted as she was being taken to the station and was permitted to remain with her American husband for the time being.

Mildred, her sister Colleen, eight, said, ran away from officers because she wanted to stay in this country. Edna, who was American-born and could have stayed anyway, also disappeared.

Just before the train left, however, Mildred appeared to bid her parents goodbye and was placed aboard.

The Canadian Government would not accept Edna, Colleen, Marjorie, 14, and Shirley, 10, because they were born in the United States. So the four will be placed in an institution.

PROWSE BROS. STORE ENTERED—Nathan Jenkins was arrested by City Police early yesterday morning and later charged with having stolen goods in his possession. He was arrested according to police when he was found on Prince Street near the C. N. R. roundhouse carrying an armful of clothing. The goods were Prowse Bros. labels. Investigation by Mr. T. W. L. Prowse and Police revealed the store had been entered and men's clothing taken. Value of the missing goods \$100, it was said. Entrance was made by breaking a window on the lower floor of the store occupied by Sherwin-Williams Paint Co. In the Prowse building. The intruder went to the top floor of this store and breaking the skylight reached the roof, going to the adjoining sky-light, which was also smashed, allowing entrance into the ladies' ready-to-wear department of Prowse Bros. Coming down from this top floor a locked door leading to the second floor was smashed and the intruder entered. The intruder appeared before Stipendiary Magistrate Martin yesterday morning charged with having stolen goods in his possession. He was remanded for one week.

**Jap Blockade
Is Relaxed
At Tientsin**

SHANGHAI, June 28—(AP)—Tension eased in the blockaded foreign area of Tientsin today but threatened to increase at the South China ports of Foochow and Wenchow as the Japanese Navy was reported to be in the vicinity.

Clarence E. Gaus, United States Consul-General, informed Japanese officials that Japan would be held responsible for any damage to American interests in attempts to capture these two ports, and he rejected a Japanese warning for all foreign vessels to leave the ports by Thursday.

The British authorities yesterday took a similar stand regarding Foochow and Wenchow, which lie about 500 and 300 miles south of Shanghai respectively.

The French Foreign Office announced that France also had rejected the Japanese warning.

The Japanese were reported preparing for direct attacks against these ports. Villages outside Foochow were bombed from the air and nine Japanese transports were reported to be in the vicinity.

From the foreign mission colony at Foochow came a message saying: "all remaining" apparently referring to all foreigners. Eighteen Canadian missionaries were reported to have left Wenchow by the British Steamship John Moller.

Chinese dispatches said that Japanese landing parties near the ports numbered only a few hundred men.

conference today by the Canadian section of the Empire Press Union. The memorandum reported a growing tendency in Canada during recent years to enact legislation which in the provinces, which tends to limit the freedom of the press.

It dealt with the court fight which resulted in the Ontario Council of the Supreme Court of Canada in finding the Alberta law unconstitutional.

While pointing out that Quebec's "padding" law appeared to have succeeded in its purpose of suppressing communistic activity the memorandum said that a section of Canada's press views the act as a "menace" not only to press freedom, generally, but as an act violating the rights guaranteed to a people at large under the British memorandum submitted to the North America Act.

**C.W.L. Tea At
City Hospital
Held Yesterday**

The Nurses' Parlor of the City Hospital formed the setting for a very delightful social event on Wednesday afternoon, June 28th when the members of the Charlottetown Sub-Division, Catholic Women's League held their annual afternoon tea. The charming rooms were prettily decorated with pantries and snowballs, while the tea table with its delectable dainties, lovely lace cloth, gleaming silver service and candleabra holding blue tapers, was the object of admiring comments from the many delighted guests, who pleasantly crowded the rooms during the tea hour. The tapers and floral decorations of English Buttercups and fern carried out very effectively the color scheme of the green-blue and gold.

The President Mrs. Murray was assisted in receiving by Mrs. W. T. Coady, Convener of the Tea, while Mrs. P. J. Reedy and Mrs. R. J. McDonald ushered.

Pouring during the first period were Mrs. F. J. Casey and Miss Mae King and during the second period Mrs. W. C. Devey and Mrs. I. B. Fleming. The young ladies serving were: Mrs. C. St. Clair Trainor and the Misses Hilda Gillis, Louise Blanchard, Evelyn Fleming, Rita McDonald and Marjorie Brown. The following ladies assisted: Mrs. E. Paquet, Mrs. J. E. Cullen, Mrs. I. E. Croken, Mrs. J. D. MacGuligan, Mrs. J. H. Blanchard, Mrs. K. Green, Mrs. J. McLean, Mrs. J. Brown, Mrs. M. Sempel and Mrs. S. Trainor.

An orchestra composed of Miss W. Gaudet, piano, and the Misses W. Hermans, C. Kenny, violins, dispensed delightful melody during the tea hour, adding in no small measure to the pleasure of the guests.

Retiring Grand Master Baker in his address stressed the beneficial effect to the Masonic Order here of the observance last year of the bi-centennial of the establishment of the first Masonic Lodge in Canada. At the celebration in Charlottetown last summer representatives were present from England, Ireland, Scotland, all the Canadian Provinces and a number of States of the Union.

The retiring Grand Master also spoke of the recent visit to Canada and this Province of His Majesty King George VI. A Past Grand Master of the United Grand Lodge of England and of the Grand Lodge of Scotland. Reference was made also to the resignation of the Duke of Connaught and Strathearn as Grand Master of the United Grand Lodge of England, a position he had filled for more than 40 years. He is being succeeded by His Royal Highness the Duke of Kent who is being installed at a special communication of the United Grand Lodge of England in London on July 20. The Grand Jurisdiction of the Press Sub-Committee of the Royal Visit, Mr. Thompson represented at that special communication by Past Grand Master Donald Baker of Summerside, and Past Grand Master C. Elliott of Charlottetown. It was announced. They are sailing from here on July 7.

At yesterday's session feeling reference was made to the resignation of Walter S. Thompson, director of publicity for the Canadian National Railways, is held, is contained in the following references as to the part he played as Chairman of the Press Sub-Committee of the Interdepartmental committee on the Royal Visit. Mr. Thompson travelled on the Royal pilot train and so well looked after the press representatives that Mr. Harold Dingma, of the Toronto Globe and Mail had this to say of the "genius of pilot train."

Walter S. Thompson, the genius who guided the Royal pilot train for every mile of its transcontinental tour, was honored tonight in a private audience with the King and Queen. Each gave him their autographed picture and the King presented him with gold and enamel cufflinks, engraved with the Royal insignia.

To Walter Thompson it was the triumph of six months of gruelling work. He it was who arranged the minute details of every stop on the Royal tour, and arranged them so that newspapers and radio men could tell the world this great story of a King and Queen.

Walter Thompson won, too the friendship of every man and woman on his train, not a vague friendship but a close and intimate one. He was trusted and respected by half a hundred newspapermen to a greater extent than any other official has ever been trusted by a lone experimenter, somewhat cynical and hardboiled group of reporters.

Officially Mr. Thompson was the chairman of the press subcommittee on the Royal visit. Every one called him first plain "Walter," because they "used and trusted him. Half a hundred newsmen are a tough lot to handle at any time. Herded together in a train for a month with little privacy, with rows of sleeping men to do at all hours of the day and night, and the result ordinarily would be a riot of angry tempers and cracked nerves. It didn't happen.

FAMILY MAY LEAVE FOR A HEN

Twelve-year-old Tommy Asbury of Blockwich, Staffordshire, England, has plenty of toys but would sooner play with Jennie.

Jennie is a hen and she romps with Tommy on the hen-run. Most mornings she lays him an egg for his breakfast.

So attached are the two, that Tommy's parents are thinking of giving up their home rather than part with Jennie.

They have a month in which to decide. Last week the magistrates told Tommy's father that he must either get rid of the hen or find another house.

The landlady had applied for an ejection order on the ground that keeping a fowl is a breach of tenancy.

Tommy isn't a strong boy, and he had to leave school early yesterday because he wasn't feeling well.

"He is grieving," his mother said yesterday. "Jennie was given to him as a chicken a year ago by his Uncle Joe. He spends his pennies on corn for her."

"When he is not feeling well, he lies watching her, for hours. Jennie lives at night in a little run at the bottom of the yard. "We would move tomorrow if we could find another house."

FOR SUMMER COMFORT 6

During the warm weather wear comfortable shoes, a girde not quite as tight as those you wore last winter, and remember that frequent washings lengthens the life of any foundation garment.

Above all, refuse to discuss the weather, and keep in mind that if you look cool, scrupulously clean and neatly groomed, you'll mind the heat less than one whose nose is shiny, hair straggling, clothes unpressed. In the summer time, grooming becomes doubly important from the point of view of comfort as well as appearance.
