

THE DAILY EXAMINER.

JULY 22, 1896.

THEY ARE STILL PROTESTING.

The Patriot, in the fullness of its heart and the exuberance of its generosity, thinks that THE EXAMINER and other journals are waging their sympathy on the Hon. David Mills, the Philosopher of Bethwell, and expresses the opinion that under the circumstances of the case are better understood the London Advertiser and other papers of that stamp will acquiesce in his absence from the Cabinet. To have the Charlottetown Patriot lecture such papers as the London Advertiser is decidedly refreshing. It remains to be seen how the Advertiser, the Chatham Banner, the Ottawa Free Press and other leading Liberal journals will appreciate the Patriot's advice. It is papers such as these, papers that are in touch with the people who feel most keenly the shelving of Mr. Mills, that are the most outspoken concerning the matter, and what they say is but a reflex of the opinions of the people of Western Ontario. The Chatham Banner, from which we quoted a few days ago, is evidently not disposed to let the matter drop with its first broadside. In the course of another article dealing with the passing over of Mr. Mills it says:

"We do not believe Mr. Laurier, left to his own counsel, would have dreamed of such an act of desertion. He has been badly advised; allowed himself to be 'steered' by men who, if they have the Liberal party at heart, have abused their influence and aroused an uneasy feeling in the public mind as to the future."

The Banner is evidently determined to get at the bottom of the matter. But it will probably not be so demonstrative after the Patriot of last evening reaches its sanctum. For be it known that the Patriot is the self-proclaimed organ of both Local and Dominion Governments and when it speaks lesser lights in the journalistic world like the London Advertiser, the Chatham Banner and the Ottawa Free Press, must hold their peace.

But there is yet another journal that has dared to "speak out in meeting" and give free rein to its feelings with regard to the conduct of the Government towards Mr. Mills. That journal is the Ridgeway Dominion. Here is what it has to say:—"For Mr. Laurier or any other to ignore the claims of the western part of this Province may prove a dangerous experiment and certainly cannot but detract from the strength of the new Government."

"If any man a month ago had said that in the event of Mr. Laurier's success the Hon. David Mills would not have a seat in his cabinet, the speaker would have been laughed to scorn. Nevertheless such is the case."

"After serving thirty years in Parliament where he was regarded by both sides of the house as one of the greatest Liberals in Canada, Mr. Mills finds himself crowded out by the new man whom his leader has summoned to his aid. After having borne the heat and burden of the day through a long term of opposition, to partake of the sweets of office and serve his country, as that country fully expected, is not to be the fortune of Mr. Mills, but of men who stood idly by in the Dominion contests when the outlook appeared doubtful, and who are now to be taken from their long enjoyment of provincial honors and emoluments to participate in those of the Dominion."

NOTES AND COMMENTS

—Very many friends and acquaintances will sympathize with Mr. William Doid in the latter part of his life, who died last evening after a brief illness. Mr. Doid was in his sixtieth year. —It is reported that Perry the Noble has been appointed Inspector of Fisheries for this Province in the stead of Edward Hackett, who resigned. Mr. Perry is a representative of West Prince in the Dominion House of Commons. —The Guardian is somewhat exercised over THE EXAMINER and the Manitoba School matter. But its anxiety is unnecessary. During the past few weeks we have referred to the school question several times, and will do so in the future whenever it is deemed necessary. The Guardian may rest assured that we are keeping a close eye upon its friends at Ottawa.

—The Boston Herald, discussing the Grit Cabinet, says: "That a leader of Sir Richard Cartwright's experience, ability and long service for his party should be forced to step aside in favor of a young man from all parts of the district to uphold their national ticket. No recent incident has occurred so strongly to prove the intensity of the feeling of nationalism in the Polish districts of Prussia."

TO COST TWENTY MILLIONS.

The Plans Perfectioned for New York's Long East River Bridge. New York, July 20.—At a meeting of the East River Bridge Company, the final plans for the East River Bridge were adopted. The structure as finally decided upon will run parallel with the south side of Delancy street, from Clinton Street to the river, in this city, and Brooklyn, on the line parallel with South Sixth Street to Bedford Avenue, where a turn will be made for half a block north, when its course will be continued to Driggs Avenue. In New York an approach taking in two whole blocks from Clinton to Norfolk streets and from Delancy to Broom streets will be made. The property sought to be condemned in this city will cost about \$2,500,000, and the Brooklyn cost will probably cost a like amount. The structure will cost, together with damage to abutting property, about \$10,000,000 more. In the revised plans it is proposed that the bridge will be one hundred and eighteen feet in width. It is estimated that the widening of Delancy street, from the Bowery to the bridge approach proper, will cost another \$5,000,000, making the total cost of the structure and accessories about \$20,000,000.

THE QUEEN'S PRIZE.

Scores of the Canadians at the Two and Five Hundred Yard Races. LONDON, July 20.—The principal event at the meeting of the National Rifle Association at Bisley to-day was the contest of the Queen's prize at ranges of 200, 500, 600, 800 and 900 yards. The score of the Canadian marksmen in the first stage, 200 yards, was as follows: Crowe 32, Lieut. Mitchell 31, Sparring 31, Campbell 31, Miller 31, Hayhurst 30, Sergt. Mitchell 29, Macdonald 29, Langstroth, 29, Harp 28, Ogg 28, Bent 28, Ross 27, Armstrong 27, Neill 27, Levers 26, Huggins 24, King 24, Rouson 24. At 500 yards the Canadians made the following individual scores: Hayhurst, Neill and Crowe 22, Sergt. Mitchell 23, Campbell and Ogg 31, Lieut. Mitchell and Ross 30, King and Rouson 29, Weller and Levers 28, Sparring and Armstrong 27, Langstroth and Harp 26, Macdonald 25, Bent 24, Huggins 22. Of the Canadian marksmen King, Sparring and Armstrong and Huggins won prizes in minor events.

FIRE IN THE MOUNTAINS.

Extensive Damage to Property in British Columbia—Hard to Run Trains. SPOKANE, Wash., July 20.—The sun is hidden from view here by the smoke of fierce forest fires that are raging in the mountains. Miners and prospectors are flocking down into the valleys by hundreds, many of them having lost all their possessions. W. F. Kolyhauff and Frank Childs, who have just returned from the north fork of the Salmon river in British Columbia, say the fires have gained great headway there. The fire has not yet penetrated the thick underbrush of the valleys, being so far confined to the mountains. Reports from all mining camps to the north are similar. In the vicinity of Kaslo, Slocan and Sanda cities, B. C. miners have been compelled to flee for their lives. Around Rossland, B. C. the fire is still high on the mountains, but it is sweeping rapidly downward.

LETTERS TO THE EDITOR.

CONCERNING TIME ALLOWANCE. Sir,—Having acted as secretary of the yacht owners' meeting on Saturday evening, I shall avail myself of your permission to answer the query of "Yachtsman." It was decided at that meeting to grant time allowance for water line length. As the usual allowance is computed on a basis of water line length and sail area, and as in this case it is impracticable to compute sail area, it is a very difficult matter to agree upon a fair allowance on a basis of water line alone, therefore this matter was left undecided until the next meeting—probably on the day of measurement.

THE SCHOOL MATTER AGAIN.

Sir,—The Guardian this morning is unnecessarily exercised because THE EXAMINER has not recently been making any demand for the passage of a Remedial Bill. But why is the Guardian so dumb as an oyster on the "oce-con" of Manitoba? Why doesn't it back up Premier Laurier's policy on the school question? Is it because the government of Laurier have secured their majority by their leader's deceptive promises made to French Canadians of Quebec? Promises which Laurier has not repaid in his place in Parliament, knowing as he does full well that the discordant elements in his party would break forth in wild confusion at the very mention of better terms to the minority in Manitoba than was contained in the Remedial Bill of the late government of Sir Charles Tupper. The Guardian of late has been very non-committal and has mounted the fence once more, from which position it lets off an occasional squeak.

GETTING UP HIGH.

Extensive Preparations for Noting the Sun's Eclipse in Japan. SAN FRANCISCO, Cal., July 20.—Advices received from Japan say the expedition to take observations on solar eclipses are flocking to Japan. The steamer Caron with a party of United States scientists reached Yokohama on June 22. The eclipse will begin near Shetland Islands, off the coast of Scotland. Thence its track crosses upward across the north coast of Norway, through Lapland, bisecting the northernmost island of the Nova Zemba group; then crosses Siberia to the Gulf of Tartary and south to the Island of Yezo. The central line of the eclipse nearly touches Cape Socotra, the extreme northern point of the island, from which it runs southeast, leaving the coast at Akeshi. A number of mountain peaks some reaching to the height of 7,000 feet, rise along the central line, and meteorological observations have determined that these points offer superior advantages to astronomers. On the island of Yezo, the eclipse will begin at 3:05 on August 9, and will last two minutes and forty seconds. It is proposed to establish a great equatorial mount which will have twenty-five instruments pointed at the sun, and which will be operated automatically by electricity. The instruments will take between 500 and 600 negatives. A French scientist is on hand and will give English astronomers are expected in three days.

GERMAN BY-ELECTIONS.

The Defeat of the Agrarians—Intense Feeling Among the Poles. BERLIN, July 20.—Two notable by-elections for members of the Reichstag were held in the Reichstag district of the Province of Posen. The Agrarians were elected by 1100 majority over the candidates of the Agrarians and the Conservatives. Hitherto Loewenberg has been a Conservative stronghold. The Agrarians explain their defeat in every way except the true one, which is that: the once strong influence of the party is fast waning in Loewenberg, and to that cause is due the last of their series of defeats since the general election.

THE TRANSVAAL RAID.

Report of the Committee Appointed to Enquire into the Jaumson Raid. CAPE TOWN, July 19.—The select committee of the House of Assembly of Cape Colony to inquire into the circumstances of the Jaumson raid has made a report. It finds that Cecil Rhodes was fully acquainted with the preparations for the raid, and that Alfred Beit, director in the South African company; Dr. Jameson, the administrator for the company; Rhodes and Dr. Rutherford Harris, secretary of the company at Cape Town, were active promoters of the raid. There was no evidence to show that Cecil Rhodes intended that the Pitsan force should invade the Transvaal until invited. But at the same time, there was an absence of any preliminary communication from Mr. Rhodes to prevent the raid. The committee does not acquit Cecil Rhodes of responsibility.
