Preferential Rates May Apply To U.S. Railroads

Prince Edward Island potato growers may, in the near future enjoy preferential freight rates on shipments of their crop to the Atlantic States of the United States if negotiations presently underway between Canadian and American railways materialize.

Under the new tariff agreements arranged last year, the table stock quota for P.E.I. locally jumps to 75 cents per hundred pounds which in most instances makes it impossible to compete on the American market.

Under the new tariff agreements arranged last year, the table stock quota for P.E.I. was lowered from 1,000,000 bushels to 600,000 and at the same time the seed quota was lowered from 2,500,000 bushels to 1,300,000.
