THE RIEL REBELLION!

Col. Otter's Fight with the Indians.

Who the Dead Are.

OTTAWA, May 6. Some particulars of the men killed in the engagement on Saturday or Sunday, on Poundmaker's reserve, near Battleford, have been gleaned.

John Rogers, of the Ottawa Sharpshooters, was a son of J. P. Rogers, of Barbadoes, West Indies. He has been in the Interior Department, as clerk, for two years and a half. To-day would have been his twenty-seventh birthday.

William Osgood, of the Ottawa Sharpshooters, was aged 23 last December. He was the only son of his father, an aged man, residing in New Edinburgh, a suburb of Ottawa. His father said he had a presentiment that his son would be killed in the first battle.

Corporal Laurie was a graduate of Kingston Military College, an officer of the Northwest Mounted Police, and son of the editor and proprietor of the Saskatchewan Herald, Battleford.

Doubts exist as to the accuracy of the names of Dobbs and Faulkner, given as killed. The first is said to be Henry Davis, of Cobourg; and the other names given for the second are Fenwick and Foulks.

Among the wounded are Lieut. Pelletier, son of Senator Pelletier, who was a member of the Mackenzie Government; and Col. Sergeant Winters. The latter was attached to the Imperial army during the Egyptian campaign, of five years ago, and at the siege of Alexandria was taken prisoner by Egyptians, but was released a short time afterwards. Subsequently he participated in the battle of Tel-el-Kiber. When he returned to Canada he was appointed to a position in the Marine and Fisheries Department. He hails from Prescott, and has been a member of No. 1 Company, G. O. F. Guards, since his arrival in Ottawa.

THE RUSSIAN WAR.

SIR PETER LUMSDEN RESIGNS.

OPINIONS OF THE PRESS!

LONDON, May 6. The Post, this morning, in an editorial, concludes that Sir Peter Lumsden, finding his advice disregarded and the disputed territory ceded to Russia, has resigned.

The Post believes Gladstone is shrewd enough to see that he will gain only a brief respite by his self-abasement.

The Post's Berlin correspondent learns that Russia made it a condition of the peace agreement that England shall not occupy Port Hamilton.

Sir Peter Lumsden will appoint agents on the Afghan frontier to watch the movements of the Russians.

The Times complains of the Government reticence concerning the Afghan affair, and the ambiguity of the official statements respecting the arrangements made regarding the Afghan frontier, which, it intimates, may be set aside before Sir Peter Lumsden arrives in London, although the official reason given for his recall is that his presence is desired to aid the Government in making a settlement.

The change of purpose made by Abdurshaman, Ameer of Afghanistan has placed England, the Times thinks, in a difficult position. It is time to make him understand, continues the Times, that he must strongly garrison Herat, and allow, at least, the presence there of English officers to fortify the place. If peace has been further temporarily secured, the Times concludes, it will be madness to waste time thus gained, which at best could be but short.

The Standard declares that the recall of Sir Peter Lumsden completes the picture of England's humiliation.

COPENHAGEN, May 6. Russia has asked the King of Denmark if he is willing to act as arbitrator between Russia and England. The King replied that he was willing to accept the position if so requested by England.

CRONSTADT, May 6. A story is current that a mutiny occurred on a Russian man-of-war, while off Malta. It is said that during the captain's absence on shore, the second officer ill-treated the men and the latter retaliated, whereupon twenty of the men were put in irons.

Serious illness of a Russian Minister.

SEMBERG, May 6. It is feared Count Tolstoy, Russian Minister of the Interior, who has fallen into a profound state of melancholy will die. Several celebrated medical experts will hold a consultation on his case.

Sir Leonard Recovering.

OTTAWA, April 6. Sir Leonard Tilly is much better to-day and may possibly take his seat in the Commons this week.

ANOTHER BATTLE—THE REBELS KILLED AND WOUNDED—LIST OF MILITIAMEN KILLED AND WOUNDED.

WINNIPEG, May 5.—A despatch from Saskatchewan Landing via Swift Current, per a courier, who arrived this evening from Battleford, brings news of another battle fought at Poundmaker's reserve on Sunday.

A flying column of 200 men under Colonel Otter, attacked the Indians, 600 strong, at five in the morning. The fight lasted till noon.

Our loss was 7 killed and 12 wounded.

The enemy lost 50 killed and wounded.

Otter covered, including the engagement 70 miles, fought the battle and returned to Battleford inside of 30 hours. The men behaved magnificently.

The list of killed is as follows:—

Battleford Volunteers—Pte. Gilbert.

FURTHER PARTICULARS.

SASKATCHEWAN LANDING, May 6.—Further particulars of Col. Otter's battle indicate that the Indians fought with coolness and bravery; but they were poorly armed.

Many squaws took part in the fight and behaved as courageously as the braves.

Although exhausted after their long march Col. Otter's column fought steadily for seven hours, by which time the Indians seemed to have been beaten, and retired.

Col. Otter took advantage of this, to draw his men back for rest and refreshment.

It is believed that the first blow has been struck of what will prove a long and bloody Indian war.

WINNIPEG FROM ANOTHER POINT OF VIEW.

A Halifax man writes to the Herald, We arrived here yesterday morning (April 23) after a very rough journey. We were burned by a scorching sun all day and frozen half to death at night; one night and day, on flat cars in a pouring rain with only a couple of hard biscuits and cheese. You could not have the least idea of how the dude element suffered. Some of them now are what the Yankee would call a perfect picture with scales all over their faces, especially on their noses, which look as if they had just taken off a severe mustard plaster. But the boys all have lots of pluck and will make good soldiers. This is the far famed city of the Northwest! Oh, but what a city! Mud that you nor any body else could form the least idea of without seeing it. It will suck the boots off your feet. It is a thick greasy mud that clogs on to everything it touches. The cartage, company, and all express wagons are high like Dawes & Co's. brewers, had at first in Halifax. They could not work a sloop here, for the wheels would sink so far that the body would catch on the mud. The horses here are the finest lot I ever saw. You can scarcely see a horse here under 1200 lbs., most of them run about 1500 lbs. They are most all Clydesdale stock and are rolling fat. Main Street is a splendid street about 150 feet wide and two miles long. They have just started to pave it with blocks of wood.

The horse cars run on Main street on one track through the centre of it. There are some beautiful buildings here, especially the City Hall. Water is taken round in water carts and sold at 25 cents per barrel. It is all hard water which you cannot get a lather on to wash yourself with. All the houses are fixed to catch every drop of rain water and convey it to the main conductor and into big hogheads. We have to pay 5 cents for enough of it to wash ourselves with. There are no cents in circulation, the smallest coin is a five cent piece. I never enjoyed better health in my life, but with a heavy heart for my dear wife and children, when I think of them all, I can not see the paper for the tears which dim my eyes.

THE SITUATION AWAY WEST.

A despatch from Calgary announces the return from Edmonton of Rev. Mr. McDougall and Stonies or guides who proceeded General Strange's expedition north. They left Edmonton Tuesday morning. Major-General Strange, with morning. Major-General Strange, with a right wing of 65th, was only two and a half days' march from Edmonton when half days' march from Edmonton when the Stonies passed him. The left wing under Captain Perry, was one day behind General Strange. Several half-breed refugees, men, women and children, from the north, have arrived at Calgary. Lieut.-Governor Dewdney has telegraphed mounted police authorities to render their assistance as they are loyal. Rev. Father Lacombe reports that half breeds at Prince Albert and

Edmonton District generally are obedient to Bishop Grandin's advice. They are ready to fight against hostile Indians, and want to show their loyalty. The water in Bow and Elbow has risen eighteen inches during the past three days. This means the immediate further raise in the South Saskatchewan, of which they are the principal tributaries. Fort Saskatchewan is in a very poor condition for defence. Beaver Lake settlement has been pillaged and news comes that St. Anne's Hudson Bay post has also been pillaged by Stonies. Victory has been menaced, but nothing done there as yet. Saddle Lake Government stores have been seized also at Peace Hills and trains of carts were stopped and looted on the main trail between Edmonton and Calgary. A telegram from Medicine Hat announces the Saskatchewan river rising rapidly. Flat boats have about been completed at Swift Current Crossing and will be sent down the river at once with supplies.

MAJOR PERRY'S DIVISION.

In camp, 7 miles north of Red Deer River, May 1st, via Calgary, May 4.—This division, under Major Perry, moved away from the Red Deer at 6 o'clock this evening. We were three days getting across the river. The trial of the ferry last night was successful, but the force of the river was so great that the barges were swamped with the first load, so during the night the carpenters were busy decking the ends and raising the sides, and to-day it worked well. Some horses swam over yesterday. By careful measurement of the cable it was found that the river was 695 feet wide. More than 90 vehicles and about 30 tons of baggage with over 170 horses have been transported across during the last three days. The delay has been serious, but it is nothing in comparison with what it might have been had we not had an expert engineer in the person of Major Perry in command. A score of men from the 65th are left to take charge of the ferry and guard the supplies left. There will be no delay, for the third column is now scarcely a day's march behind. A teamster from Edmonton reports that a loyal half breed has been sent with horses to ransom the four white women who are Big Bear's captives. He says the Indians have 1,000 cattle and 700 horses all stolen from settlers. The Indians are retreating to the Peace River country. A courier brings news that General Strange reached Edmonton on Thursday night. One of his scouts near Edmonton was shot at evidently by Indians, as arrows were used. Mr. Glass, missionary at Battle river, passed us to-day. He says the Indians are quiet on the road; but that there is a very large gathering of them at Sounding Lake. His house was broken into by the Indians, but when the approach of the troops became known, they, with others, went to join Big Bear. The whole country between Edmonton and Battleford, as far north as the North Saskatchewan, and south as far as this, the homesteads have been burned. Many settlers started for Battleford a month ago and have not been heard of since. Big Bear has eight or nine hundred fighting men, and six or seven hundred more are out under other leaders. He thinks the Indians will have a fight with the troops and then strike for the north.
