THE CALEDONIAN GAMES.—Not being able to attend these Games on Wednesday last, we have taken an account of them from *Ross's Weekly*,—it being the longest we have seen, we thought it would likely prove most acceptable to the Caledonians; but we understand some fault has been found with it on the ground that it does not do full justice to the young Canadian, Mr. McLennan, whose feats of strength excited the admiration of every one on the ground, particularly in putting the hammer, weighing 16lbs., a distance of 180 feet—which created a rather painful sensation amongst the vast crowd over whose heads the missile flew like a cannon ball, ploughing the ground where it fell for a space of *three feet*, and burying itself in the earth about seven or eight inches. Such a feat was never contemplated by the oldest, most experienced athletes from "the land of mountain and of flood."

SUDDEN DEATH.—An apprentice to Mr. James Scantlebury, Carriage builder, named Peter McGonnell, came to his death very suddenly on Tuesday last. Shortly after his dinner, while at his work bench, the poor fellow dropped on the floor, quite insensible. Dr. Jenkins was on the spot almost immediately, but no skill could restore him. The Rev. Dr. McDonald was also in attendance, and administered on behalf of the sufferer such of the rites of the Catholic Church as the peculiar circumstances of the case admitted, and immediately after life became extinct. McGonnell bore an excellent character, was an industrious young man, and was well liked by all his acquaintances.

OUR stock of English paper having run out, we are under the necessity of using an interior article for two or three weeks. We expect a large supply of a very supperior article in a short time, which, with new type that we intend to get for it, will make the EXAMINER, we trust, an attractive paper for our subscribers this fall.

THE RICHES OF CAPE BRETON.

A writer in the New York *Scottish American Journal*, writing from Sydney C. B., is doing good service to Cape Breton by directing attention to its remarkable natural resources, especially its inexhaustible coal fields. We make a few extracts:—

"Cape Breton is, after England and Scotland, the greatest coal country in the world. Each week's discoveries of this mineral are astonishing. Silver, copper, iron, lead, and, I believe, tin abound. The portion of the surface which has been cultivated abundantly proves that as an agricultural country, this need be excelled by none. The portion not cleared is covered by the finest timber of every description. The scenery is magnificent, its harbors very numerous and adapted to the accommodation of the largest ships. The Great Eastern could come within a stone throw of the House of our M. P. P. here in Sydney. Salmon and trout abound in the rivers, and the bays are literally teeming with cod and halibut, herring, mackerel and every variety of fish. Such fish, in fact, as one has to see and taste before he can form an idea of its excellence. The herrings here are twice the size of any I ever saw in Scotland, and at *least* equally rich. The coal found here cannot, for gas purposes, be excelled. Each mine opened seems to have some peculiarity to add to its value. One provides gas coal, a second produces a steam coal, while a third renders cheap fires possible to the poor man by answering best for household purposes."

The writer enumerates the "wants" of Cape Breton—a bank, internal railways, and steam communication with the rest of the world, are its chief necessities. He continues:—

"Here is wealth at our very hands waiting to be gathered in. Such a field for enterprise, capital, and skill never was offered to man. The county of Cape Breton alone shipped more coal last year than the whole of British North America put together including the Albion mines, and Pictou. The following will show you the rate of progress in three years:—In the year 1863 the export of coal from here reached 220,000 tons; in 1864, 330,000 tons; and in 1865 it is anticipated that 400,000 tons at least, will be shipped—your readers will please bear in mind that all this has been done in the teeth of the most unheard of difficulties. Ships have to load in very exposed positions, and this they cannot do in all states of the weather. If now, a railway could be constructed to connect the mines with Sydney, a distance of 24 miles, the international company alone could ship half a million tons with ease. There are other pits which would probably exceed this. The survey has been made for a line of railway to achieve the object I mention—the cost estimated at $600,000 in gold, including plant wharfs, &c., cheap enough too. Why one year's profit on the working of one mine—calculating the profit to the coal masters at only one dollar per ton—would pay it, or nearly so. The British people must do this—here the capital is not to be had. In your country—I mean the States—the heavy premium on gold prevents its being done instanter. It is, indeed, a small matter for British capitalists to be prevailed upon to fill their pockets safely, legitimately, *naturally*; they are, or ought to be, our natural supporters—we are of themselves. The last discovery of silver here shows 86 per cent pure silver! Copper in its neighbourhood in paying quantities."

NEW CANADIAN PREMIER.—The following particulars respecting the new Premier, we transcribe from a Canadian contemporary:—

"Major the Hon. Sir Narcisse Fortunat Belleau, Knight, the new Premier, has previously been an Executive Councillor, and has spent some years in public life. He is of French extraction, his ancestors having emigrated from Bordeaux. He was born on the 20th October, 1808, and was educated at the Quebec Seminary. He became Mayor of Quebec in 1850, and occupied this position of civic eminence for three years. He had previously been a City Councillor seven years. He distinguished himself at the Lower Canadian bar, of which he was *batonnier* of the Quebec section in 1837 and 1838, and was made a Queen's Counsel. In 1852 he was appointed by the Crown to be member of the Legislative Council, and was Speaker of this august body at two different times, namely, from November, 1857, to 1st August 1858, and from the 6th August, 1858, to 20th March, 1862, at which time he was made Minister of Agriculture. It was during his Speakership, in August, 1860, that his Royal Highness the Prince of Wales conferred the honour of knighthood upon him, a similar honor being conferred at the same time upon the Speaker of the Legislative Assembly, the present Sir Henry Smith."

The people in Kingston have given their representative in Parliament a public reception on the occasion of his return among them from his recent mission to England, at which there was an *impromptu* lunch. Mr. Macdonald's health was drunk, and he made a speech, a report of which we take from our Kingston contemporary, the *News*. Mr. Macdonald paid a just tribute to his late Premier, then lying on his last bed; and he made a general reference to the visit to England. While, of course, reserving the detailed report to be first given to Parliament, the remarks he made are yet of much interest. He gave the Consul Potter men very clearly to understand that England would not give up the ship—that men and money to the last would be expended before that end came. Altogether this speech was in his usual, lively, cheering way; and contained statements on which men may with advantage dwell. Kingston does well to honor its member. It honors itself in honoring him. A member is often under obligations to a constituency, but the true theory is the precise opposite to this; and that is in a particular way the actual case of Kingston.—*Montreal Gazette.*

THE Paris correspondent of the *Daily Telegraph*, in an article upon the present state of France, says that the policy which now rules France and her colonies is decidedly popular. The evidences of this popularity are to be found in "increased freedom of trade, in a closer fusion of classes, and in the general prosperity of France." The above writer also contends that "the majority of Frenchmen care for no more liberty than is absolutely necessary to enable them to get through their daily routine, and will thank any party who will save them trouble, responsibility, and civil or political business. If not made to be ruled, Frenchmen are at least educated for that purpose, and now they have a ruler whom they respect."

The Australian papers just come to hand, contain an account of a railway accident due to causes almost identical with those to which the recent railway disasters in England were attributable. It appears that a train, having among its passengers Sir Dominick Daly, Governor of New South Wales, the Bishop of Adelaide, and all the colonial ministers, left Adelaide for the port to visit Her Majesty's Steamship "Falcon." A portion of the line had just been relaid, and the rails were placed upon sleepers resting on the sand without any ballasting. With the line in this state the train came along at express speed, and, of course instantly ran off the loose rails. Yet, strange to say, only two of the carriages were upset, and none of the passengers were seriously injured. An official report of the accident was to be laid before the Colonial Parliament, and considering that a change of Ministry might have been necessitated by the destruction of all the members of the Government by this accident, the Legislature will probably have given the affair some attention.

It is said that eighty plantations in Louisiana have recently been confiscated. These embrace many of the finest sugar estates of the Southern country. Mr. Conway, the government agent, is making arrangements to divide up these estates into forty-acre lots for freedmen and poor whites.

A French chemist asserts that if tea be ground like coffee, before hot water is put upon it, it will yield double the amount of exhilarating qualities. Another writer says that "if a piece of lump sugar the size of a walnut is put into the tea-pot, you will make the tea infuse in one-half the time."

The calendar of crime is extraordinarily heavy in New York. Scarcely a day transpires which has not murder on its record. The Boston *Journal* says that, if twenty years in State Prison was the penalty of carrying fire-arms, and murderers were not so easily dealt with in New York, it is possible that there would be much fewer breaches of the sixth commandment there.

GEN. GRANT IN CANADA.—Gen. Grant has been receiving quite an ovation in Canada. He was made the lion at Quebec, where he was called on by the Governor General, Gen. Doyle, Admiral Hope, most members of the Cabinet, and others. At Montreal another ovation was in store for him, and at Toronto the good people were making preparations to give him a worthy reception. Speaking of his stay in Quebec, the Toronto *Globe's* telegraphic correspondent says:—

"While here, Gen. Grant spoke without reserve to several persons on the Mexican question. He said that he had placed one hundred thousand men on the Rio Grande as an *army of observation*, and that the French would have to leave Mexico, peaceably if they choose, but forcibly if they refused. The situation of Mexico he looked upon as one which had been created by the rebellion, and the rebellion would really not be overcome until Maximilian was compelled to depart, and the Mexican people allowed to organize a Government without foreign interference.

"With regard to the relations between the United States and England, he did not think the present friendly state would be disturbed, unless complications ensued by England's mixing herself up with France in the Mexican question."

TEA PARTY AT LOT 11.

MR. EDITOR:

SIR:—As Tea Parties are all the rage throughout the Island, and feeling that you take an interest in the people, both politically and socially, let me inform you that the Tea Party advertised to come off at Lot 11, in connection with the Presbyterian body, on the 16th inst., was a decided success. The day was fine—the viands could not be surpassed for richness and abundance, and every justice was done to them by the large and respectable company in attendance. After due consideration was given to the wants of the inner man, our esteemed friend from Alberton, Herbert Bell, Esq., was called upon to sell a large quantity of Cake by auction that remained; at the close of which the Rev. Mr. Murray was called to the Chair, and the literary feast was opened by the Hon. J. Warburton, with a neat and appropriate speech. Rev. Mr. Stewart, H. Bell, Esq., and the Rev. Mr. Murray followed. The usual votes of thanks were passed, and the amount realized was announced to be twenty-five pounds, which sum will materially aid the Presbyterian Congregation of Lot 11 to finish their Meeting House.

I was quite rejoiced to see the good feeling that existed between persons belonging to all denominations; and I hope I may again enjoy the like pleasure of meeting the good people of Lot 11 and neighbourhood, on some future occasion.

Yours,
TRAVELLER.

Lot 11, August 16th, 1865.

News by Saturday Night's Mails.

THE ATLANTIC TELEGRAPH.

The Halifax *Morning Chronicle* of Saturday says:—We have bad news from the Atlantic cable enterprise. As stated in our despatch published yesterday, all attempts to grapple the cable failed, owing to the insufficiency of the tackle employed. *The Great Eastern* has returned to England to obtain more and better gear. It is stated that probably as soon as proper gear is procured another effort will be made to grapple the cable in shoaler water. It would be useless at present to speculate on the final result, but at all events the present difficulty need not be regarded as fatal to the enterprise. As it is, we can but hope for the best until we learn the result of the attempt to raise the cable on the return of the *Great Eastern*. We fear, however, that it will not be in operation this year, but as to the ultimate success of the project we entertain little doubt.

AFFAIRS IN THE UNITED STATES.

About a thousand applications for amnesty were received at Washington on Tuesday, including a hundred and fifty from Virginia, three hundred from North Carolina, and an equal number from Mississippi and Alabama. Over three thousand pardons are now made out, and awaiting the President's signature and the seal of the Secretary of State. In consequence of the accumulations of these cases the President has found it necessary to have a stamp made with which to affix his signature, thus relieving him of the laborious duty of writing his name to each pardon.

Arrivals from Maryland of entire families of negroes, carrying on their persons all their wealth, are frequent in Washington. A census is being taken of the colored population, with a view to ameliorating the condition of the destitute, and assisting the idle to employment. Campbell Hospital, which is now being divided into rooms, is sufficiently large to accommodate a thousand of such people. The old resident negroes look on the influx with disapprobation and jealousy, fearing that the demand for employment may have the effect of reducing the present wages for labor.

It is authoritatively announced that the telegraphic wires in the Southern States are overburdened with Government business, which has the preference over private despatches at all times, and that for some time to come the latter can be accommodated only to a limited extent. The condition of the telegraph lines South is very defective, and some months must elapse before they can be thoroughly repaired. General Sherman, in his march through Georgia to the Carolinas, thoroughly destroyed the lines, and they have been hastily reconstructed to suit the emergency. It is understood that measures will speedily be taken to perfect the lines and open them for business.

LATEST NEWS BY TELEGRAPH.

NEW YORK, Aug. 18, p. m.—A despatch from Memphis, Tenn., 17th, says that a shock of an earthquake was felt this morning, shaking buildings, tumbling down chimneys, and upsetting loose articles. An iron safe building was thrown over. The shock was even more plainly felt at Holly Springs, Mississippi, and Lagrange, Ten.—It lasted ten seconds. No particulars of the amount of damage done thus far have been received. The *Herald's* Paris correspondent says that the Queen of Spain and her Prime Minister are not on good terms. A strong republican feeling exists among the officers of the army, and a revolution may be considered as imminent..... Gold 142½.

NEW YORK, Aug. 18.—Advices from Mexico state that ex-rebel General Slaughter publishes a card, in which he defends Gen. Mejia and the Imperial authorities from the charge of assisting the Confederates. He says that no arms entered Texas through the Mexican lines.....The children of Jeff Davis, accompanied by the mother of Mrs. Davis, and two servants, passed through Albany, New York, yesterday, en route for Canada.....The Department of Agriculture has issued a table, showing the condition of the crops to the first of August, a decrease in the wheat crops of this year, from the yield of last year, of over twenty-six million bushels, as shown by the tables of last year.....Gold 142⅝.

S. T.—1860—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated

PLANTATION BITTERS,

which are now recommended by the highest medical authorities and warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure, and must supercede all other tonics where a healthy, gentle stimulant is required.

They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the sytem and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhœa and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs, all preserved in perfectly pure St. Croix rum. For particulars, see circulars and testimonials around each bottle.

Beware of impostors. Examine every bottle. See that it has an unmutilated metal cap over top of each bottle, and green label, for exportation, around each neck. See descriptive Circular around each bottle.

P. H. DRAKE & CO.
NEW YORK.
May 1, 1865. 6ms

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce, or which, we think, has ever yet been made by any body. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for the use, and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body, or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by DR. J. C. AYER & Co, Lowell, Mass, and sold by Geo. A. Bayard, St. John, N. B.; Avery Brown & Co, Halifax, N. S.; and by W. R. WATSON, Ch'town, P. E. I.

A deserter from the detachment of the 16th Regt. stationed here, was apprehended, a few days ago, near the East Point, and brought into town. It was rumored yesterday that five have since made their escape. We fear that, among a certain portion of the community, desertion is looked upon with too much favor. We believe that the poor soldier is not unfrequently led astray by the hopes held out to him of bettering his position.—*Patriot.*

THOROUGHLY TESTED.—MRS. S. A. ALLEN'S World's Hair Restorer and Zylobalsamum has stood the test for twenty years. Millions of bottles sold every year. It is not a dye, and differs from all other preparations, as it contains the specific aliment which is the life of the hair. They are unequalled for restoring, invigorating, beautifying, and dressing, the hair, rendering it soft, silky and glossy. They cleanse the hair and impart to it a most delightful fragrance. Every Druggist sells them.—W. R. Watson, Agent for P. E. Island.

EXCAVATIONS AT POMPEII.—Some interesting details have been published respecting the freshly uncovered temple of Juno among the recent excavations at Pompeii. Three hundred skeletons were found crowded within that sanctuary, a propitiary sacrifice being evidently held at the time when they were overwhelmed. The statue of the goddess, with attendant peacock, the tripod in front of the altar, the golden censer, the jewels on the person of the priestess, the rich vessels holding a deposit of animal blood, are the main particulars dwelt on. The eyes of Juno were of the most vivid enamel, her arms and her whole person richly decorated with gold trinkets. Her gaudy bird resplendent with a cluster of glittering gems. Aromatic ingredients lay calcined within the censer, while gorgeous lamps and bronze ornaments strewed the tesselated pavement.

HOLLOWAY'S PILLS have been placed by the common consent of mankind at the head of internal remedies for removing obnoxious poisons from the living tissues of the human body. They have saved thousands from falling a sacrifice to the effects of dyspepsia, dysentry, diarrhœa, constipation, liver complaint, &c., a fact attested by myriads of witnesses. They never fail to give relief to a sufferer from scorbutic affections, and, in most cases, they effect a complete cure. Excessive weariness and bebility—the warnings of decreasing organic energy and vital decay—are replaced by vigour and healthful action in every organ throughout the system, by the restorative and exhilirating influence of this life-sustaining preparation.

"There is nothing," says Sir Samuel Romilly, "by which I have through life more profitted than by the just observations, the good opinion, and the sincere and gentle encouragement of amiable and sensible women."

Married.

In the Wesleyan Church, St. John's N. F., on the 26th July, by the Rev. Paul Prestwood, Superintendent Minister of the St. John's Circuit, the Rev. Charles Ladner, Wesleyan Minister, Fogo, to Maria S., eldest daughter of the Hon John Bemister, Colonial Secretary of that Island.

Died,

On the 12th instant, at Auburn Cottage, Brackley Point, after two days' illness, to the deep regret of a large circle of friends, Catherine Shaw, the beloved wife of Charles McMillan, and youngest daughter of Mr. James Shaw, in the 31st year of her age. The deceased was widely known and esteemed for her kindness of disposition and her general deportment as becoming the gospel of Christ, on whose merits she rested her salvation. Her departure will create a blank in the neighbourhood in which she lived.

At his father's residence, Brudenell River, on the 26th ult, Mr. D. A. W. Kennedy, in the 26th year of his age.

Ship News.

BRISTOL, July 22—Arrived, ship William Yeo, from Shediac. 24—Cleared, Lady Seymour, for Quebec.

RARE OPPORTUNITY.
TO be Sold by AUCTION, on Thursday, 24th instant, (if not previously disposed of,) that very desirable LOT OF LAND known as
WARBLINGTON,
fronting on the bend of the York River, and about one and a half miles from the City, on the Lower Princetown Road. It contains 36 acres of Land, beautifully laid out into small Fields or Paddocks, and the whole or nearly so fenced with THORN HEDGES; there is also a fine Orchard and Garden. On the Premises are a Large and Commodious Dwelling House and all the necessary Out-Buildings. A more desirable residence for a Gentleman is rarely to be met with so near to the City.
ALSO,
A very Commodious and Neat COTTAGE, with One Quarter of a Town Lot of Land, very pleasantly situated on Hillsborough Square, at present occupied by Mr F. LePAGE.
For further particulars as to Terms, &c, please apply to
WILLIAM DODD, Auctioneer.
Charlottetown, August 14, 1865. isl pat

RARE CHANCE!
Building Lots at SUMMERSIDE at AUCTION,
BY WM. BEARISTO, Auctioneer.
THE whole of those LOTS known as the Property of J. WEATHERBE, Esquire, at SUMMERSIDE, comprising in all over
Forty Building Lots,
ten of which are Water Lots, about the last in the market. Also, a HOUSE and WAREROOM with one of the Lots. These lots are admirably situated in the most convenient localities in the town for business stands, shipyards, wharves and residences, and will all be offered at AUCTION, on
Wednesday, 30th August,
at eleven o'clock, on the premises.
Plans of the Property may be seen at any time before the sale, at the office of Mr. Bearisto, at Summerside.
☞ Terms moderate, to be made known at Sale. Titles made unexceptionable.
August 14, 1865. isl rw

St. Dunstan's College.
Under the Patronage of His Lordship the Bishop of Charlottetown.
THIS INSTITUTION is situated on the Princetown Road, a mile and a quarter north of Charlottetown. The site is peculiarly beautiful, healthy, and far removed from the distractions and moral dangers of the city.
The halls and rooms of the building are spacious, airy and comfortable.
The College Grounds are large, affording ample room for games and athletic exercises.
The course of studies embraces all the branches necessary to prepare young men for the study of the learned professions or fit them for mercantile pursuits, such as History, Geography, the English, French, Latin and Greek Languages, Rhetoric, Mathematics, Philosophy, Chemistry, &c. Music—vocal and instrumental—is also taught.
The College possesses a large and well selected Library, as well as an extensive Philosophical Apparatus.
The Professors and Teachers reside in the Institution, forming but one family with the students and exercising a constant supervision favorable to discipline, decorum and good morals.
Catholic students are carefully and frequently instructed in their holy religion, which they are required to practice. The most solicitous attention is paid to the morals of all; and whilst within the College enclosure, they are constantly under the watchful eye of one of the Teachers or Prefects. Perfect discipline is strictly but kindly enforced.
Students when entering must produce satisfactory testimonials of good character.
The College is visited regularly once a week by a Physician.
TERMS:
Per Quarter of 11 Weeks:

	£	s	d
Board and Tuition,	6	0	0
Use of Library,	0	1	6
Physician's Fee,	0	1	6

Payments to be made half-yearly in advance.
The College furnishes bedsteads and mattresses; the students must provide their own beds and bedding, brushes, basins, towels, &c.
The Scholastic year commences on the first Wednesday in September and ends about the middle of July. Students are requested to enter the College on the first day of the opening of the classes.
For further particulars apply to
A. McDONALD.
St. Dunstan's College, Aug. 7th, 1865.
☞ The Classes will be opened this year on the 6th of September.
