Announcing Meteor for 1960

1960 METEOR MONTCALM four-door sedan, one of Ford of Canada's five cars.

Canada's idea car of the year—and looks it!

Meteor's originality for 1960 shows in its three distinctive roof styles. From glamorous grille to taillight grouping, Meteor is unmistakably Canadian. Every flowing line is pure-bred function—its beauty tells you so! Power is new! Both Tempest V-8's and famous Econ-O-Fuel Six deliver maximum power at speeds you drive most. Standard engines purr best on low cost, regular grade gasoline. New standard full-flow oil filter allows up to 4,000 miles between oil changes. New lavish interiors provide more leg room, head room, and shoulder room. Doors open wider. New seat height is more comfortable with standard front seat foam cushioning. New smooth ride comes from a wider tread, a new front suspension and self-leveling rear suspension. New, 25% bigger brakes are largest in Meteor's field. In every way, Meteor is Canada's idea car of the year. See the most distinctive Meteor ever — at your local dealer.
