

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you need not fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago. **Dodd's Kidney Pills ALWAYS CURE.**

WHERE MONEY IS VERY MIXED

Although all accounts are kept in dollars and cents (American standard) in British Guiana, there is no existing coinage to correspond. Gold is rarely tendered, all larger sums being handled in bank notes, kept so long in circulation that they become almost unrecognizable in their filthy fragmentary dilapidation.

The silver coinage consists of the most incongruous varieties. Besides British a number of coins, fractions and multiples of the "gilder," enter largely into circulation. These are known as the "bit" (4d.), "half bit," the "two bits," the "gilder" (being 32 cents, or 1s. 4d.), and even a peculiar three half-penny piece is still extant, although eagerly sought for by collectors.

All these coins are of great and interesting variety, incident on the transfer of the colony from the Dutch and the once distinct governments of Berbice and Demerara and Essequibo, long since amalgamated.

Of copper coins the penny is known as a "gill," while the humble baube becomes a "cent." Farthings were once introduced, but were regarded with contempt and suspicion, except by a few Chinamen, who succeeded in passing them in their brightness for half sovereigns.

To instance the confusion resulting, 11½d. is here described as "two bits and a half and a gill and a cent."—London Tit-Bits.

Parents Are Unfair to Teachers.

"That existing methods of educating the young fall short of the ideal there is scarcely any question," writes Edward Bok in The Ladies' Home Journal. "The most prominent educators of the land admit this fact. Every effort is undoubtedly made to better prevailing systems. But the fight is single handed. As teachers and educators constantly say: 'We are alone. Parents give us no assistance. They do not even give us the benefit of ordinary interest.' And this is true—lamentably true. Parents are all too lax about the methods pursued in educating their children. In hundreds of cases they do not even know what the methods are. They know nothing about them. There is no co-operation of the parent with the teacher. However much we may be able to improve modern methods of education, the best results to our children cannot be reached until parent and teacher shall come into closer relations than they are at present."

Frenchwomen as Wives.

Max O'Rell considers that Frenchwomen make better wives for poor or struggling men than do the women of other nationalities. Their ambition and keen sense, he says, are great helps to a man's efforts, and they never allow themselves to weary in their endeavors to be cheery and charming. Mr. O'Rell says that the women are naturally exceedingly energetic and endowed with that vivacity which is so great a support to their own spirits, and that this enables them to impart animation and courage to others.

Other writers have noticed this peculiarity of temperament in Frenchwomen. It has been said that Americans have it to a certain degree, that degree which compels a constant activity, but that lack of true balance makes womanly energy in the western continent fitful and uncertain, while the Gallic women will be found of more equable natures.—New York Tribune.

"To Buy on Tick."

"To buy on tick"—that is, on credit—is something that does not seem to have much connection with the movement of a clock, and yet it is a figurative reference to the same thing. The syllables "tick-tack-tock" are used everywhere to represent sharp, quick sounds of various kinds, with the movements that cause them, whence the tick-tack of a clock or the ticking of any quick, light motion, as the stroke of a pen or pencil that "ticks" off our orders. Hence to take a thing "on tick" is to have it marked with a tick or stroke of the pen.—E. F. Andrews in St. Nicholas.

THE KIND OF BIRD

The party with the long hair and starving family, not to mention lesser symptoms of the literary bent, was less servile than usual.

"How about my poem?" he brusquely demanded.

"She's a bird," replied the conductor of the magazine.

"What kind of a bird?" persisted the man of letters, thoroughly aroused.

And the other, saying nothing, merely indicated with a gesture the pigeon-hole above his desk.—Detroit Journal.

A Hopeless Case.

A Scottish paper tells a story of an old Scottish woman who was "unc' drouthie," without the money to buy "a drappie." "Lassie," she said to her little granddaughter, "gang round to Donald McCallum and bring me a gill. Tell him I'll pay him i' the morning."

Back came the child with a refusal. Donald declined to part with his whisky without the cash. Eager and irritated, the old woman cast about for some means of "raising the wind," and her eye fell upon the family Bible. "Here, lassie," she said, "gibe him this and tell him to keep it until I bring him the siller." Off went the little girl, but she soon returned, still carrying the Bible. Donald was obdurate.

"He says he maun hae the baubees first, granny."

In anger the disappointed grandmother threw up her hands and exclaimed: "Losh, did onybody ever hear the like o' that! The man will neither tak my word nor the word o' God for a gill o' whusky!"

Coughs and colds need not be endured; they can be cured, and that quickly.

Many mixtures are temporary in effect, but Scott's Emulsion of Cod-liver Oil with Hypophosphites is a permanent remedy.

The oil feeds the blood and warms the body; the hypophosphites tone up the nerves; the glycerine soothes the inflamed throat and lungs.

The combination cures. This may prevent serious lung troubles.

JACK TAR AT A CHRISTENING

A sailor went up to the font to have his baby baptized. Sailors as a class claim little stock in babies, and, naturally enough, this one presented the infant feet foremost.

"The other way," said the minister, and, accordingly, Jack turned the infant upside down.

"Excuse me," said the clergyman.

"I mean the other way." So back came the embryo foretopman to the first position, to the discouragement of everybody.

"Wind it, Jack," said the nautical assistant, and with an "Aye, aye, sir," Jack promptly turned the baby end for end, and it was duly christened head first.—"On a Man-of-war."

A Literary Slip.

One of the most literary of the London evening papers makes the following startling announcement: "A complete set of hydrants and fire appliances will be arranged, and the fire is to be fitted with a double asbestos and steel fire-proof curtain, controllable by one man. The latter is designed to be one of the largest in London—namely, about 80 feet wide and 50 feet deep."—Glasgow Times.
