THE FIRST CANNON SHOT.

Hark! over Europe sounding,
The first, the signal gun;
The fire has burst, the blow is struck,
A fatal deed is done!

From north to south it echoes,
From east to west afar,
The insulting nations join their hand
And gather to the war.

From restless slumbers waking
The thunder in her ear,
Unhappy Poland starts to life,
And grasps her broken spear.

Old Rome grows young to hear it;
There's mischief in her glance!
And Hungary mounts her battle-steed
And waves her fiery lance.

Not long shall last the combat,
Though Russia laugh to scorn;
The wrongful cause if up to-day,
Is down to-morrow morn.

When France unites with England,
Beware defeat and shame,
Ye foes of right who force the fight,
And fan the heedless flame.

Hark! over Europe sounding,
The first, the signal gun,
But when the last loud cannon peal
Shall tell of victory won,

Be sure, ye proud aggressors,
Your hour shall not last long;
They may not, can not, shall not win,
Who battle in the wrong.

VARIETIES.

Cheap Paint.—For the outside of dwellings, and outhouses, where economy and durability are considerations. Take a barrel, and put in it a bushel of quick lime slack the latter by pouring over it boiling water—covering it four inches deep

A chap out West, tried advertising for a wife. It worked to a charm, as usual He says he has received in answer to his advertisement, 794 letters, 13 daguerreotype likenesses of ladies, 2 gold fingerrings, 17 locks of hair, 1 copy of Ike Marvel's 'Reveries of a Bachelor,' 1 thimble, and 2 dozen shirt buttons. He ought to be convinced.

SINGULAR BIBLICAL MANUSCRIPT.—In the library of the late Dr. Williams, in Redcross street, London, there is a curious manuscript, containining the whole Book of Psalms, and all the New Testament, in fifteen volumes folio. The whole is written in characters an inch long, with a white composition on black paper, manufactured on purpose. This perfectly (unique) copy was written in 1745, at the cost of Mr. Harris, a tradesman of London, whose sight having decayed with age, so as to prevent his reading the Scriptures, though printed on the largest type, he incurred the expense of this transcription, that he might enjoy those sources af comfort which are "more to be desired than gold—yea, than much find gold."

A CANDID WITNESS.—In the examination of an Irish case on Monday, before the Court of Magistrates, for assault and battery, the Counsel, in cross examining one of the witnesses asked him what they had at the first place they stopped? He answered, "Four glasses of ale." "What next?" "Two glasses of wine." "What next?" "One glass of brandy." "What next?" A fight of course."

A Broad Hint.—The Rev. Mr. Johnson was one of those rough quaint preachers of a former generation, who was fond of visiting and good living. While seated at the table of a good lady in a neighbouring parish, she asked him if he took milk in his tea. "Yes, marm, *when I can't get cream*! was the ready reply

The above incident reminds us of an anecdote of another clergyman, who was a bit of an humorist. He once took tea with a lady of his parish who prided herself much on her nice bread, and was also addicted to the common trick of depreciating her viands to her guests. As she passed the nice warm biscuit to the reverend gentleman, she said,"they were not very good," she was "almost ashamed to offer them," &c. The minister took one, looked rather dubiously, and replied, "they are not so good as they might be!" the plate was instantly withdrawn, and with heightened colour the lady exclaimed "they are good enough for you!" Nothing further was said about the biscuit

With a double vigilance should we watch our actions,when we reflect that good and bad ones are never childless, and that, in both cases, the offspring goes beyond the parent, every good begetting a better, every bad a worse

R.R.R.

What do the Sick Require?

To these who think.—If sick, if suffering the tor tures of pain, or afflicted with long illness, the invalid's constant hope and most frevent desire is to be relieved and cured of the distressing ailment, that time. On this principle the R.R.R. REMEDIES are founded. Instant Relief from Pain, Quick Cure of Diseases, Speedy Restoration to Health, is the great platform on which the R.R.R. Theory is predicated.

The R.R.R. REMIDIES are worthy of the age. They instantly relieve the bed-ridden from the most excruciating pains, and by curing by first the most obstinate and serious maladies, infusing new life and vigor in the shattered and bruised body, and renew each member and organ of the human system with strength and power.

The R.R.R. REMEDIES consist of RADWAY'S READY RELIEF, RADWAY'S RENOVATING RESOLVENT, and RADWAY'S REGULATORS.

RADWAY'S READY RELIEF is for the instant relief of the sufferer from pain, and to check and arrest the progress of diseases; to disinfect animal, malarious, and infectious poisons, thus protecting whoever uses it against all poisonous infection from Contagious, and from sudden attacks of Cholera, Pestilence, Ship Fever, Yellow Fever and Ague, &c., is sure for the effectual and radical removal of all pains and diseases of the Joints, Limbs, Nerves, &c.

Its first action is to arrest the pain, (hence its usefulness in Neuralgic cases ;) its second, to repair and heal, as in the case of a cut, or wound. If the Relief be applied after the first little smarting is over the pain is extinguished, and the work of restoration now commences. But if the Relief is not applied, there are many chances to one that the pain will continue, and an inflamation be set up, and instead of a simple incised wound we have inflamation —disease to contend with. Beside, its direct power over pain, the Ready Relief is the most effectual and convenient "counter irritant "that is known to the medical world.

If there be a congestion or heaping up of the blood in any particular part, producing pain and threatening inflamation or disease, as Sore Throat, Lumbago, or pains in the loins, Pleuratic congestion &c. the Relief will be found the most invaluable curative. By applying it over the adjacent parts, the blood is drawn away from the affected parts, the congestion dissipated and the pain removed at once. Let any one who may doubt this, but make the trial. From these two properties, its power over pain and its "counter irritant " render it the most valuable remedy for Diarrhœa, and internal pains are extinguished the popular meaning of the term, yet it stops the pain and arrests the discharge of the most frightful Diarrhœa or Cholera in a short time.

DISINFECTANT.

RADWAY'S READY RELIEF is the most safe and powerful disinfectant in the world—as such, it is a most effectual cure and positive preventative of

SCARLET FEVER, AND AGUE.

So with other fevers and all malarious diseases. Ten or twenty drops, taken internally, in a little water will protect the system against any attacks from infectious and malarious poisons.

PNEUMONIA,

whether Typhoid or Bilious, RADWAY'S READY RELIEF, given internally, and applied over the surface of the body, and the bowels regulated and kept soluble with RADWAY'S REGULATOR, the patient will soon be relieved from danger, and speedily restored to health. If the R.R.R. Remedies are given, they will save the life of the patient.

RADWAY'S RENOVATING RESOLVENT is the second of the R.R.R. REMEDIES, and for the cure of old Chronic Diseases that have been lingering in the system for years.

HIGHLY IMPORTANT TO ALL AFFLICTED WITH CHRONIC DISEASES.

For the present, then, let us pass to the consideration of the RESOLVENT, the second of the three R.R.R. Medicines.

RADWAY'S RENOVATING RESOLVENT is the great remedy for the cure of Chronic Diseases, of inflammation that is kept alight on fire by some sustaining cause: for the first principle is to put out inflammation, or the concealed combustion. And this cause is a deposit resulting from the inflammation whilst it is in an active or non-destructive state. This deposit is in a state of transition before it becomes chronic. If a person has Chronic Rheumatism, it is the result of a deposit in the fibrous tissue surrounding joints; if a person is Scrofulous, these deposits are found in the glandular system, such as under the chin and along the neck ; if he have a Consumption or Chronic Cough, there is tuberculous matter deposited in the lungs, which is called Tubercles; in the Bronchial tubes : if Syphilis, it occurs in every tissue and organ in the whole system, for that disease spares nothing. Now to cure these diseases, these Chronic inflammations, and the local decay or decay, it is manifest that the diseased deposits must be first removed, the sustaining cause be taken away, and that the impure blood be altered in its condition and rendered pure and healthy.

It becomes necessary, then, that the absorbents be active and that the whole of the system have want to medicine that will act on the absorbents and stimulate them into action, and at the same time purify the blood. Medicines that depend merely on purifying the blood alone will scarcely ever cure Chronic diseases : to ensure success they most at first have the power to stimulate the absorbents, and remove the diseased deposits. The certain and the RESOLVENT is directed first to the absorbents, stimulating them into action , and second to the blood which it depurates by its action over the glands, the liver, pancreas, and all the other organs of secretion that nature has established for purifying the blood. You will, after this description, we hope, appreciate the same we have given to the second of the R. R. R. REMEDIES OF RENOVATING RESOLVENT, It resolves away diseased deposits; it purifies the blood and renovates the system. Consequently Tumors are removed and diseased organization: Chronic Swellings are dissipated; Nodes are softened and melted away. The most loathsome Skin diseases disappear under its action; Scrofulous conditions are soon amended, and the disease checked when ever it has attacted the system. Syphilis, with all its horrible train of concomitant evils, is speedily and infallible cure; and Consumption too, ofiimes finds its master—Consumption, that prevalent and lamentable disease of the lungs, that is so well known to you all, from its fatal effects, that destroys more than one-half the havoc it produces among the young, the most gifted and the most beautiful of the human race. creeping over our vitals with an insidious yet awful certainty, and consigning to an early and premature grave its yearly hecatombs of victims. Tubercular Consumption is often regarded as a specific disease of the lungs alone. This is a mistake: it is but one of the forms of Scrofula—it is a Scrofula deposit, an inflamation of the lung structure, and could be as readily cured as any other Scrofulous disease—such as Rickets, Hip Complaint, or White Swelling—if it was not for the peculiar structure and action of the lungs in which it takes place.

The lungs expand and contract during every respiration: and from the moment the first breath of life is drew in, until the last gutteral sigh passes from the dying invalid, a never-ceasing action is kept up on their part. It will readily be conceived then, how difficult it must be to heal an Ulcer of the lungs : but where it is continualy kept irritated by the act of breathing.

Understand, then, we do not offer you the RESOLVENT as so certain a cure for Consumption or Scrofula of the lungs, as it is for other Chronic diseases. We believe that it will cure Scrofula in any other part of the body, but from the very nature of the case, this complaint—except in its first stages—is oftentimes incurable; but we can recommend it as the most certain remedy in use (and we directed in our pamphlets) that we possess to arrest its progress, and can point to a large number of cases of Lung Diseases that it has cured.

Such then, is the RENOVATING RESOLVENT What the Relief is to Acute diseases the RESOLVENT is to Chronic ; it resolves away the foreign and diseased deposit ; it purifies the blood and it renovates the system

NO. 3

We now request the reader's attention to the third of the R.R.R. REMEDIES.

RADWAY'S REGULATORS.

Every pill taker should examine the theory on which the REGULATORS are founded. Every one "who takes pills," will find RADWAY'S REGULATORS the most pleasant and safe Regulator of the Liver, Bowels, Kidneys, and other organs of the system in use.

We have hitherto been treating of diseases or inflammation in its acute or chronic state, and its remedies ; the RELIEF in the one case and the RESOLVENT on the other. We now pass to the consideration of that state of the system immediately preceding disease or inflammation, viz: IRRITATION. To allay irritation of the nervous system, and remove its effects wherever it exists, and to aid the RELIEF or RESOLVENT in treatment of inflammation, are the chief purposes of the REGULATORS

But how is nervous irritation the cause of diseases? Because the glands of the system are controled by the brain and nervous centers, and what irritates the brain causes irregularities of the glands ; and when the glands refuse to do their work, the foreign matter which it is their duty to remove, is left in the blood, and increases already existing disease. The glands are sewers of the system and are composed chiefly of the Liver, the Kidneys, the Pancreas, the Salivary Glands, and the glands in the skin and intestinal canal. Now, a regular and honest action of these organs are indispensable to keeping the blood in a pure and natural state. If we give you medicine and food to eat you can easily understand that the blood will become corrupted by it, and diseased action will follow ; and it will be just as surely corrupted if the glands do not abstract the worn out matter from it.

Again if the kidneys be interfered with in their action, from any irritation whatsoever, why then we have the skin and the pulmonary membranes, circulating in the blood, producing headaches, coms, drowsiness. &c.

And, last and most important of all, if any irritating causes interfere with the operation of that great laboratory the Liver, behold the disastrous effects ! The bile, instead of passing into the intestines to aid them in their movements, (for bile is Nature's purgative) is felt to circulate in the blood : the bowels, therefore become inactive and the carbuniferous bile (for only one of the elements of the component of bile) circulating in the blood is the cause of the fevers of the system. The superabundance of the carbon in the blood meeting with the oxygen as it passes through the lungs is slowly consumed, and gives out a superabundance of heat, and this is fever.

RADWAY'S REGULATORS induce a healthy regularity of glandular action No. Costiveness or Dyspepsia or Indigestion, or Pains in the Side, or Liver, Complaint or Pains in the Back, Sweetings will trouble you if RADWAY'S REGULATORS are used ; and we positively assure all who are afflicted with these distressing complaints that RADWAY'S REGULATORS will cure them.

R.R.R. REMEDIES are suited to the treatment and unaided will cure most of "the ills that flesh is heir to." The easy-purging practice of the lancet, cupping glass, and leeches , they entirely dispense with,and banish forever the pernicious use of that baneful drug, calomel

If you be sick we advise you to resort at once to the R.R.R. REMEDIES, as the most prompt in their action, the most sure and effectual of remedies.

Instance of cures performed in all climates, and almost miraculous recoveries we can furnish you the certificates and credentials without number.

But these may be obtained without merit as well as with it, and, without knowing the circumstance prove nothing to your mind.

The R.R.R. Remedies are for sale by druggists everywhere, and information concerning more of the REMEDIES, are referred to our FAMILY FRIEND a Monthly paper. A copy will be sent free of charge, to all who will send in their address and address.

RADWAY & Co.

Properties for Sale.

THE Subscriber offers to sell, at moderate rates, and on reasonable terms, his right by Deed to the following Freehold Properties, viz.: 100 acres of Land on Lot or Township No. 3. 300 acres on Lot No. 8; 450 acres at Fifteen Point; 82 acres on Lot No. 25, near McMurdie's; and 72 acres at Seven Mile Bay.

Also,

His interest in the following Leasehold Premises, viz. 44 acres of Land with Dwelling House, Store, Barn, and Out-houses on Lot 18, near the Indian River Chapel, which is an excellent business stand. It is now in the occupancy of Mr. A. Coughlan. Also, the Property in Tryon, formerly occupied by the late George Bynon.

The above Tracts of Land being generally known, require little, if any further description.

J. WEATHERBE.

Charlottetown, 10th Feb., 1854. on

THE LIQUOR TRAFFIC:

Ought it to be protected, or to be prohibited by Law?

THE ADDRESS, recently delivered at the Temperance Hall, Charlottetown, before *the Members of both Houses of Legislature*, and others, by the Rev. E. Ryan, M.A. is just Published and for sale by Mr. G. T. Haszard and Mr. Stamper. Price sixpence; considerable reduction if sold by the dozen

WANTED, for the Fanning Grammar School, at Princetown Royalty, a *TEACHER*, of the Second, or highest Class. This School having latterly been ably conducted, the inhabitants are the more desirous that it should not retrograde; consequently none need apply who are not fully competent, and who can produce satisfactory references as to their competency and general good conduct. Apply to the undersigned.

THOS. MACNUTT,
Chairman of Trustees.

Princetown Royalty, March 28, 1854.

PRINCE EDWARD ISLAND ALMANCK FOR 1854.

FOR SALE by GEO. T. HASZARD.

APOTHECARIE'S HALL.

The Old Established HOUSE, 1810.

CHARLOTTETOWN, JANUARY, 1853.

T. DESBRISAY & Co.

HAVE just received, per late arrivals from London, Dublin, United States and Halifax, their Supplies for the Season, comprising, in the whole, an

Extensive and Varied Assortment of

DRUGS & CHEMICALS, PERFUMERY, Brushes, Combs, Soaps, and other Toilet requisites; Paints, Oils, Colours, and Dye Stuffs; Fruits, Spices, Confectionary, Medicated and other Lozenges; with all the Patent Medicines in repute, and every other article usually kept at similar Establishments in Great Britain (*See Apothecaries' Hall Assertion.*) The whole of which they can with confidence recommend to the public, and, if quality be considered, at as low, if not lower prices, than they can be procured in the market. on

WAXWORK.

THIS celebrated Horse "WAX-WORK," imported from England, by the Royal Agricultural Society in 1853, will serve for the Season at the following places, commencing on the 1st April:—He will stand in Charlottetown on Tuesday, and every second Wednesday; with Mr. Jakeman's; and will travel as far as Crapaud, at Mr. James Bulpets, and remain there from Tuesday evening, until Thursday morning, once a fortnight for the Season; thence return home; and the remainder of the time at the Subscriber's Stables, Old North River Road, 4½ miles from Charlottetown.

This Horse stands 16½ hands high, is very powerful, and of a handsome grey color. Terms, 15s. for the season; the money to be paid the first time of serving.

JOHN STOCKMAN.

Old North River Road, May 3.

Mountaineer.

THE BEAUTIFUL thorough-bred STALLION *Mountaineer*, by Muley Moloch out of Champagne, (the Carpenter and Lighting's dam) By Blucher (the sire of Muley in 1814.) by Waxey out of Pantina by Buzzard, grand-dam by Trentham out of Cytherea. Muley Moloch by Muley out of Longwait's dam, by Dick Andrews out of Spitfire.

He is a Dark Bay with Black Legs, very powerful has fine action, and a good temper. His pedigree is excellent, combining the most fashionable and racing blood on the turf. Muley Moloch being sire of the celebrated Alice Hawthorne, and many other superior Racers. Mountaineer is now four years old, and are very powerful and promising, and selling at high prices. The performances and racing capabilities of Muley Moloch, Longwait, and Alice Hawthorne, are too strongly impressed on the minds of the racing public to require repetition, especially the latter, she having won about 35 Queen's Plates and Gold and other Cups, besides many of the most valuable Stakes and Prizes in her day.

He will stand in Town, at the Subscriber's stables. Fees Twenty Shillings, paid in advance.

NEIL M'INNIS.

April 8th, 1854.

The New London Horse "PIERNOT,"

WILL stand for the Season, commencing on the 1st May at Malpeque, Barrett's Cross Roads, through Freetown, and South West Bedeque; at Neil Lefcorgy's, Bedeque Road; Barny Trowsdale, Crapaud; down the South Shore to Long Creek, at Michael McRae, on the West River, and at the North River, my Andersen's Road, at Mrs. Todd's; at Richard Bagnal's on the Malpeque Road, round by New Glasgow, Grand River, New London; and station at Duncan McIntyre's, South West River.

The Horse will visit each Station once a fortnight, making six rounds in the Season.

JAMES HELM.

April 4th, 1854. on t f.

Twelvetrees Brothers' Soap Powder

(an entirely new invention.)

IS the cheapest, safest, best, and most effectual article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap!

The saving of Time and Labour is so astonishingly great, that a WEEK'S WASH can be accomplished BEFORE BREAKFAST —no rubbing being required.

This wonderful Powder is more SERVICEABLE THAN SOAP, as it produces a better and much quicker lather, and is adapted for purposes for which Soap cannot be safely or effectually used.

It will not injure the hands, or the most delicate material ; but whilst it is incomparable for permanently whitening Linens, &c., after they have become discoloured by age, or injured by bad washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOOLLENS, COLORED PRINTS, MUSLIN and LACE.

For Sale by

GEO. T. HASZARD, QueenSquare.

LAW BOOKS.

CHITTY on Pleading, Chitty on Contracts; Blunt's Commercial Digest and Shipmaster's Assistan English CommonLaw Reports, for sale at GEO. T. HASZARD'S Book Store.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all bilious diseases—such as Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness. Irritability, Inflammations, Headache, Pains in the Head, Stomach, Back, and Limbs, Female complaints, &c.,&c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Aperient were more frequently used. No person can feel well while a costive habit of body prevails. Subject to soon generate serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is the time of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce fevers, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, in all parts of the United States, has shown results more surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

DOCT. A. A. HAYES, Practical Chemist of the Port of Boston, and Assayer of the State of Massachusetts.

ISA. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. SUTHWICK, Esq., one of the first merchants in New York City.

C. A. DAVIS, M. D., Dept and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of Mere drugs and extracts, but of the active virtues only of Vegetable remedi attracted by chemical processes, and the whole combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills which renders a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. In the usual mode of compounding, every medicine is burdened with more or less of acrimonious and injurious qualities ; by which its individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each ingredient employed are left out, the curative virtues only being retained. Hence it is self-evident the effect should always be what have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine which is known to Man.

As it is frequently expedient that my medicine should be taken secretly the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied him with written formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded to them by their address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life rests entirely upon the mystery of its mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions that they possess merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known, and subsequent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see our wrapper on the Box.
