Ask For Ayer's

Sarsaparilla, and be sure you get it, when you want the best blood-purifier.

With its forty years of unexampled success in the cure of Blood Diseases, you can make no mistake in preferring Ayer's

Sarsaparilla

to any other. The fore-runner of modern blood medicines, Ayer's Sarsaparilla is still the most popular, being in greater demand than all others combined.

"Ayer's Sarsaparilla is selling faster than ever before. I never hesitate to recommend it."—George W. Whitman, Druggist, Albany, Ind.

"I am safe in saying that my sales of Ayer's Sarsaparilla far excel those of any other, and it gives thorough satisfaction."—L. H. Bush, Des Moines, Iowa.

"Ayer's Sarsaparilla and Ayer's Pills are the best selling medicines in my store. I can recommend them conscientiously."—C. Bickhaus, Pharmacist, Roseland, Ill.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommend it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

"I have sold your medicines for the last seventeen years, and always keep them in stock, as they are staples. 'There is nothing so good for the youthful blood' as Ayer's Sarsaparilla."—R. L. Parker, Fox Lake, Wis.

"Ayer's Sarsaparilla gives the best satisfaction of any medicine I have in stock. I recommend it, or, as the Doctors say, 'I prescribe it over the counter.' It never fails to meet the cases for which I recommend it, even where the doctors' prescriptions have been of no avail."—C. F. Calhoun, Monmouth, Kansas.

[WRITTEN FOR THE EXAMINER.]

Obituary.

Let him lie; 'tis the calm of an evening sleep,
Let the light o'er his brow sweetly fall,
While the silent rays home through the gold portals creep;
And the soul-voices quietly call.

It is told of a land that is fairer than this
With the flowers and the sunshine and love,
Where are star-gleams of hope bloom to fulness of bliss,
And they point through the cloud-banks above.

And they speak of a music that floats on their breath,
As the angel-forms move to its strain,—
But the way to that land is the valley of death,
And our hearts throb with newness of pain.

But there sounds from the sweet revelation of God
The "Amen" to His promises given,
And we rise from our sorrow o'er newly laid grave-sod,
With heart-treasure garnered in heaven.

The Maritime Exhibition.

A LARGE EXHIBIT FROM THE ISLAND EXPECTED—AN IDEA OF MONCTON'S ENTERPRISE.

(*Correspondence of The Examiner.*)

MONCTON, N. B., Aug. 28.—The Maritime Agricultural and Industrial Exhibition here on the 17th, 18th, 19th and 20th Sept., promises to be one of the largest and most important ever held in the Province.

The grounds are level and well drained, and situated in a splendid position for the purpose, within a short distance of the railway station. They occupy eight acres, and are well watered and lighted. The main building, 60x180, is nearly finished. A balcony has been built around the sides for promenading, and a band will be in attendance day and night.

It is the intention of the committee to have the exhibition partake largely of the character of a holiday *fete* and bazaar. Exhibitors will be especially invited to give attention to the commercial feature of the show, and every effort will be made not only to secure a large exhibit of live stock, but to secure the attendance of American and Provincial horse buyers from the principal towns and cities.

I would advise that entries from the Island be made at least ten days before the opening, so as to secure good accommodation. It would be well if your exhibitors would make a joint display. Arrangements could be made with Mr. Forbes, the secretary, for space, so that the exhibit could be shown together, and thereby make it more attractive. If the time were not too short, it would be best to have a meeting called as suggested by one of the Charlottetown dailies, and some arrangement be made with this view.

The prize list has been revised and the prizes increased 52 per cent. principally on horses and cattle. A very large exhibit of horses is expected. Much interest is centered on the exhibit of this class from the Island. It is hoped that our stock-raisers will be well represented with the best that the Island can afford. The farmers of New Brunswick and Nova Scotia are taking hold of the question of improved stock, and a goodly number of first-class stock horses have been imported during the past few years. The horses from the Government Stock Farm will be on exhibition. I hear that Truro alone is to enter 25 in this class.

The exhibit of cattle is also expected to be very large. I see it stated that Mr. Donald Ferguson is to enter his much prized herd of Galloways, and hope that other leading farmers will make a good display.

The Exhibition Committee is composed of the leading business men in and around Moncton. Meetings are held nightly, and the greatest enthusiasm shown. Mr. Forbes, the secretary, is the right choice for the position; level-headed, enthusiastic, and a great hustler, built on the same principle as your own secretary, Archie McNeill.

An interesting programme for each day and evening is being prepared. Sir Leonard Tilley is to open the Exhibition, and lay the corner stone of the new public school building. Torchlight processions, polymorphian parades and band tournaments make up an interesting time. The Charlottetown band used to give a good account of itself. Couldn't they be induced to come over and participate. Mr. David Stewart, leader of the Moncton band, would be pleased to receive any enquiries.

Now is the time for the Island farmers to show their enterprise, and keep up their envied reputation. The Garden of the Gulf should make a display of horses, cattle and horticulture, that will open the eyes of the farmers of the other two provinces.

ESSEX.

Everything Goes.

Dr. Brown-Sequard is confident that his "Elixir of Life" will restore impaired vitality for a period, but he is not prepared to say that its effects will be permament. Same old thing, exactly. We never knew of a patent medicine in the tonic line yet that was anything else but whiskey with a new alias. The new wrinkle now seems to be injecting it into the arm instead of the neck, but it puts the spring into the old man's heels just the same. Then he appears to have the same old trouble getting over it. "But don't we believe in the Elixir of Life?" Don't we? Yea, verily son; we believe in the hot water cure, in blue glass, in faith cures, in Christian science, potato in your pocket, water cure, mind cure, Swedish movement, "Injun doctor," bag of camphor and assafœtida around your neck, and rabbit's foot, and do you suppose we are going back on Brown-Sequard? Nary; put the Elixir in the creed; everything goes.—*Burdette in Brooklyn Eagle.*

Local and Other Items.

MANGANESE DISCOVERY.—A supposed rich deposit of manganese has been discovered near Noel Lake, Hant's Co., N. S.

NOT TOO BAD.—The product of ten stamps in the McGuire gold mine at Malaga, N. S., for one month was a brick of gold worth $6,800.

To overcome the marks of age, all who have gray beards should use Buckingham's Dye for the Whiskers, the best and cleanest dye for coloring brown or black.

LOOKING AFTER TITLES.—It is reported that a Boston lawyer is in Halifax enquiring into the title of the city to the grand parade, the gardens and other public property.

ISLAND EXHIBITS.—The Moncton papers intimate that Hon. D. Ferguson will probably exhibit a herd of Ayrshires, a herd of Galloways, and a flock of Shropshire Down sheep at the maritime exhibition in that city next month.

EARLY TURNIPS.—Among the shipments in the schr. Harriet Torry from Cardigan Bridge, we noticed some good sized turnips of this year's production, grown by Mr. Donald Wilson, of Cardigan River. This is unusually early for turnips.

A THIEF IN PETTICOATS.—A female thief, aged 16, is going the rounds in the vicinity of Weymouth, N. S., lifting cash and goods. She was arrested the other day and a wallet containing $24, and some valuable goods, were found in her possession.

AYER'S HAIR VIGOR restores color and vitality to weak and gray hair. Through its healing and cleansing qualities, it prevents the accumulation of dandruff and cures all scalp diseases. The best hair dressing ever made, and by far the most economical.

A CENTENARIAN WHO MAKES HAY.—Speaking of smart old men, says the Moncton *Times*, Wm. J. Ross, St. Martins, who is one hundred and one years old, takes the lead. This year he cut and stored ten tons of hay and also looks after seven cows and two horses.

AYER'S SARSAPARILLA, by purifying and enriching the blood, improves the appetite, aids the assimilative process, strengthens the nerves, and invigorates the system. It is, therefore, the best and most thoroughly reliable alterative that can be found for old or young.

LOCKED IN A CEMETERY—Two ladies who went to visit the grave of a deceased relative in a Halifax cemetery, a day or two ago, got locked in and were kept unwilling prisoners amid the gruesome surroundings for some hours. They, however, scaled the high fence before the hour "when graves do yawn."

ENTERPRISING.—James E McDonald, Esq., Cardigan, has lately imported a superior hay press, and is pressing a quantity of hay for export. His new schooner is rapidly being completed, and will be launched in a few days. She is a very handsome model, and reflects credit on her builder, Mr. D. S. McLaren.

CROPS AT THREE RIVERS.—Some wheat and oats have been threshed around Cardigan this week. Wheat makes about fifteen bush. to the acre. Oats turn out poorly. A great deal of blight and rust are noticeable around Three Rivers. Some farmers have cut their oats for feed, as it was not worth threshing. Early potatoes are good this year.

PROPAGATING THE LOBSTER.—Lobster packers here and elsewhere will be glad to learn that the experiment of artificially propogating lobsters at Trinity Bay, Nfld., has been successful. Eggs are taken from the female lobsters at the canning factories, and so treated in the hatchery that 75 per cent. are hatched.

FOOD FOR ST. PIERRE—The schr. Harriet Torry, Gallant master, sailed from Cardigan Bridge on Tuesday, Aug. 27, for St. Pierre, Miq., with the followidg cargo, shipped by Jas. E. McDonald, Esq., viz: 12 head cattle, 35 sheep, 120 hens, 200 brls. potatoes, 111 bushels oats, 350 lbs. butter, 2 cases eggs 2 tons hay and 1 brl. turnips. Mr. Neil Nicholson was a passenger by the same vessel.

BIG MORTGAGES.—An exchange says: The valuation of Lucas County, one of the most flourishing counties in Ohio, is given by newspapers of that State as $20,070,080, but the mortgages swell up to $14,996,247.10, or more than two-thirds of the total valuation. The figures should prove suggestive to any who may have been led by the political pessimists of Canada to look favorably upon commercial union as likely to conduce to the prosperity of our farmers.

PREACHED BY EXAMPLE—The Central Presbyterian Church at Atlantic, Ga., recently decided to raise the pastor's salary from $3,000 to $4,000 a year. The pastor, who has just returned from his summer vacation, has however, astonished the congregation by saying that he felt compelled to decline the proposed increase. He knew the condition of the church, he said, and felt that its money coufd be used to better advantage in some other direction.

AT THE WRONG END.—A Winnipeg despatch says: A number of Brandon boomers, who, believing they had the inside track, bought up property at the west end on the presumption that the Northern Pacific & Manitoba Road would come in there are sore at learning that the entrance to the city will be made at the east end. Amongst the speculators are several members of the Legislature, who are trying to induce the Government to influence the railway company into changing its route to save them from loss.

KING'S COUNTY EXHIBITION.—The contract for fitting up the exhibition building and cattle show grounds for above exhibition, will be sold on Friday, Aug. 30, at six o'clock, p.m, at the drill shed, Georgetown. A great many fine young horses are being fitted for the exhibition, and the show of mares and foals will be unusually good. The early harvest will give farmers a good chance to prepare grain for the exhibition. We hope to see a good exhibit in this class, and also in roots and vegetables. Let every farmer take some article to the exhibition this year.
