

THE DAILY EXAMINER.

JUNE 6, 1890.

Woman and Temperance.

The simple language in which Miss Gordon showed the children that the compounds known as brandy, whisky, gin—every liquid containing manufactured alcohol—are all more or less poisonous, and the powerful plea made by Miss Willard on behalf of Woman and the Home—subject to sorrow and despair and ruin on account of intemperance—ought to make a deep and lasting impression upon the community.

Miss Gordon's address was very short and clear. That of Miss Willard long and eloquent. The fine poetic fancy of the latter furnished a series of apt and beautiful similes and metaphors, such as we have rarely if ever heard in the course of a single address; and her defence of the "vested interests" of motherhood—threatened wherever alcohol is used as a beverage—was the product of a powerful understanding.

We have no doubt that Miss Willard had to the full, the sympathy of the audience while she contended for total abstinence as the best protection of the Home against the attacks of ruthless intemperance. But it goes without saying, that everyone was not able to follow her when she pleaded that total abstinence should be enforced by law and that women should obtain the right to vote at elections in order that means may be provided for the enforcement of legal prohibition.

In any case, deeper thought and more earnest conviction are required in this community in respect to the use and misuse of alcoholic liquors; and the W. C. T. U. of this city deserve the thanks of the community for their successful efforts to induce Miss Gordon and Miss Willard to address the children and the children of a larger growth who live in Prince Edward Island. Thought and conviction are needed to influence some of the leaders, as well as many of the followers, of the Scott Act movement to act consistently with their talk and their votes.

The Whitman Slander.

MR. G. B. NORTON has directed attention to a mis-quotation of the report of the *Republic and Sun*, of Joliet, Ill., by which the "scum of the earth" was described by the Rev. Edward Whitman to be "the Baptist people of Charlottetown," instead of, as originally published, "the people from Prince Edward Island." The *Republic and Sun*, containing a report of Mr. Whitman's meeting was handed into THE EXAMINER office by one who received it from Mr. Whitman himself; and the change in the report, as published, was made in Mr. Whitman's handwriting. Supposing that the reporter for the *Republic and Sun* had misapprehended Mr. Whitman's meaning, and that the words in writing were merely to correct the report, THE EXAMINER inserted them. This is the explanation of the matter so far as THE EXAMINER is concerned. It matters little, in our opinion, which is the true rendering. We know that the Baptist people of Charlottetown include many of the best people in Charlottetown,—leaders in politics, in the professions, in business, in moral and religious movements,—and that, speaking generally, their characters as men and women are just as good as those of their neighbors. If the Baptist people of Charlottetown are the "scum of the earth," so also are the people of Prince Edward Island. All are in the same boat together. Whether applied to the Baptists or to the people of the Province, the statement referred to is equally false and slanderous—so false and slanderous, indeed, that it is hardly worth noticing, except as the last resort of an unscrupulous and desperate man, fighting for life. The same remark may be made concerning the ravings about Mr. Russ, against whom not a tittle of evidence has been adduced (except the fact that he was instrumental, as in duty bound, in Mr. Whitman's condemnation by the Baptist Church of Charlottetown. The publication of the report by THE EXAMINER was merely for the purpose of letting the people of this Province know what Mr. Whitman had to say in his own behalf, and how feebly those who were at one time his friends were being dealt with by him—not, as some persons have implied, as an endorsement of his wild statements.

SETTLED OUT OF COURT.—The celebrated suit of John Ross, contractor, against the Canadian Pacific Railway, for \$50,000, balance of account for construction of Lake Superior section, has been amicably settled out of court. The company will pay \$50,000 and withdraw their counter claim of \$2,000,000.

SYMPATHY MUST BE THE BOND between the truly earnest, successful teacher and her pupils. Some large-souled people seem to have a super-abundance of sympathy, while others have but little, and this little seems to be stowed away in some dusty, unused recess of the heart. But every one can cultivate the power of sympathy. It is a thing that grows.

Successful Islanders.

Mr. John Craig, who has been accountant with the C. F. R. freight department for eight years, has taken the position of chief clerk in the N. P. & M. freight department. On Saturday evening, the C. F. R. freight staff presented him with an address which contained many kind sentiments of respect and esteem. The address was accompanied by a gold watch and chain. Mr. Peters presided and referred to the general regret felt in the department by the loss of such an excellent man as Mr. Craig.

We clip the foregoing from the *Free Press*, Winnipeg, May 19th. Mr. Craig is well and favorably known in Charlottetown. He is a native of Malpeque, and was for many years in the employ of W. & A. Brown, of this city. We extend congratulations.

Personal.

Hon. James Nicholson, Belfast, was in the city to-day.

Miss Willard and Miss Gordon left this morning for Moncton.

Mr. E. E. Robins, formerly of Charlottetown, but now of Honolulu, is here on a brief visit.

Mr. C. W. Bourke and wife, of Charlottetown, were registered at the Royal Hotel, St. John, on Wednesday.

Jas. H. Reddin, Esq., Barrister-at-Law, was a passenger in the *Esquimaux* yesterday evening. He is off on a holiday trip to London.

Paul Peel, a son of John R. Peel, of London, Ont., has been awarded the gold medal of Salon at Paris for special excellence in painting, thus becoming the most famous painter in Europe. This is the first time in the history of the Salon that the gold medal has been awarded to a native of the American continent.

Mr. J. T. Stewart, formerly of Cardigan, P. E. I., but now secretary of the Franklin Building and Loan Association, of Portland, Oregon, has been elected representative to the Sovereign Grand Lodge, I. O. O. F., which meets at Topeka, Kansas, in September next. Mr. Stewart was initiated in Wilsey Lodge, No. 27, of this city.

London advices state that some surprise was expressed by the guests of the Stanley dinner last Friday night that the explorer made no reference to his marriage. A gentleman there who knows Stanley intimately says that, despite Stanley's professed aversion for women, he had loved and lost before he ever met Miss Tennant. Twelve years ago he fell in love with Miss Webb, of Newcastle Abbey, Surrey's old home. She was then about 18. Lately she married an English army officer. At the time Stanley was very much smitten, but the girl refused to listen to his suit.

HE'S A WORKER.—Before the police committee of the St. John City Council, on Wednesday, Chief Clarke asked for a supply of light summer coats without belts, and grey and black helmets for each member of the force. The men have hitherto supplied their own coats and hats, but the chief claims that the city should supply them. The chief also applied for an ambulance wagon to convey female prisoners to the station, and for cases of emergency.

QUICK WORK.—St. John's latest murder trial is finished. The jury, on Wednesday night, found a verdict of not guilty in the case of Gray, and of manslaughter in the case of Watts, with strong recommendation to mercy. Watts' voluntary confession and statement that when he struck Torry he forgot about the knife with which he had been cutting tobacco, together with the fact that rum was at the bottom of the trouble, had considerable weight with the jury. Sentence was reserved.

A BIG SUIT.—The Halifax *Mail* has the following reference to an estate in which some residents of Charlottetown are interested: An action has been commenced in the Supreme Court against Patrick Scallion, Susan Scallion, and Andrew Scallion, at the suit of William O'Connell, to have the estate of the late James O'Connell administered and the sum of \$2,000 paid over to him as a legatee, said amount having been left to him by James O'Connell by will. The plaintiff contends that the defendants wrongfully withheld said money, and seeks to have the estate administered at once and the money paid to him. James O'Connell, it will be remembered, died last year at Herring Cove, leaving property to the value of twenty thousand dollars.

THE CONTEST OVER.—The Halifax *Mail's* most popular teacher contest has closed, and the prize, a handsome secretary, was won by Miss Downey, of Dartmouth, who received 31,442 votes. Mr. Kennedy, of the Academy, stood second, with 29,276; Mrs. Guimane, of St. Patrick's School, third, with 10,473; Mrs. McArthur, National, fourth, with 5,327; and Miss Torry, of St. Patrick's fifth, with 4,789. There were also many votes sent in for other teachers. Votes came from all parts of Nova Scotia; from St. John, Fredericton, Moncton, Charlottetown, Boston, New York, Lowell, Chicago, Montreal, Ottawa, and Oakland, California. The work of counting the votes occupied several days.

—The Educational *Journal* of Toronto says that the teacher who rises to the height of his responsibilities will never fail to keep in view that he is training citizens for citizenship, as well as men and women for business, social and professional life. There can be no doubt that the views on social and moral questions imbibed in the school often cling to the pupil through all his future career. From this point of view we can get an enlarged perception of the importance of the teachers' work. The character of the social and civil institutions of Canada twenty-five years hence, is being in no small degree moulded in the school-rooms of Canada to-day.

According to recent advices from London the plague of rats continues unchecked and is indeed increasing in Lincolnshire, although hundreds of thousands have already been killed. The rodents are killing poultry and eating the corn and mangolds in spite of the efforts of professional catchers, who say the worst is still to come. Some of the rats are said to be as large as rabbits (the size of the rabbits is left to the imagination) and very vicious, attacking the people when they (the rats) are brought to bay.

Tornado and Cloud Burst.

TERRIFIC DAMAGE IN NEBRASKA AND IOWA.

The state relief party returned from the scene of the tornado at Bradshaw, York County, Neb., on Wednesday evening. Bradshaw is a town of 500 people, situated on the Nebraska railway, 60 miles west of Lincoln. A storm struck the town at 8:30 on Tuesday evening, coming from the southwest. The roar of the whirlwind was the first notice the terrified people heard. It struck the town fairly, and not a building escaped. In the extreme western part of the village a few houses are left with slight semblance of their former appearance. They are without windows and doors, and their contents are scattered broadcast over the prairie. The railroad station was crushed into kindling wood and every car standing was wrecked except one loaded with stock, which was blown, without leaving the track, to York, nine miles distant. The relief party found that the Russian settlement near the town had been struck, and the report is that nine persons were killed there. Physicians say that in all 12 are dead, 8 mortally wounded and perhaps 21 hurt more or less seriously.

A Council Bluffs, Iowa, despatch of the 4th says: A special to the *Nonpariel* from Underwood states that about 2 this morning a cloud burst some miles north of the valley. Mosquito Creek received a deluge. The little city which lies on a flat was all but engulfed, scores of dwellings were totally wrecked, and others twisted from their foundations. At noon the waters of Mosquito Creek registered 25 feet above high water mark, and the lower part of the city is standing in 10 feet of water. It is impossible to estimate the damage to-night.
