Charlottetown, May 29, 1860.

MOFFAT'S LIFE PILLS AND PHENIX BITTERS.

THESE Medicines have now been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease which the human frame is liable to.

IN MANY THOUSANDS of fortified instances, they have even rescued sufferers from the very verge of a premature grave, after all the desperate nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a painful blessing. So great, indeed, has their efficacy invariably been, that it has been proved to be a more certain and infallible remedy than any other which has appeared since the discovery of those who were acquainted with the beautiful philosophical principles upon which they are compounded, and upon which they consequently act. It was their constant and sensible action in purifying the springs and channels of life, and inducing them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, nor Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the efficacy of which has been proved to several hundred times, and recently to some eminent philosophical chemists, are altogether unknown to the ignorant pretenders to medical science, and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities which collect round them; and to remove the hardened feces which collect in the convolutions of the small intestine. Other medicines cannot purify these, and leave such collected masses behind as to produce habitual Costiveness, with all its train of evil, or sudden Diarrhoea with its imminent dangers. This fact is well-known to all regular anatomists who examine the human bowels after death; and hence the prognosis of these will invariably inform against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by the means, the liver and lungs, the essential action which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, naturally flows through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing varieties of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be invaluable. DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; Flatulency, Loss of Appetite, Headache, Rheumatism, Tic-Toupe, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure. COSTIVENESS, by cleansing the whole length of the intestines with a solvent and without violence; all violent purges leave the bowels entire within two days. DIARRHOEA and CHOLERA, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the bowels, are speedily cured. FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all internal obstructions in others.

The Lure Medicines have been known to cure Rheumatism permanently in three weeks, and Gout in half that time, by removing local inflammation from the muscles and ligaments of the joints. Dropsy of all kinds, by restoring the action of the kidneys and bladder; they operate most delightfully in these important organs of the body, which they have ever been found a certain remedy for the worst cases of Gravel.

Also Worms, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere. Asthma and Consumption, by relieving the air vessels of the lungs from the viscous mucus which clogs them, and which, if not removed, renders the lungs hardened, and produces disease. Scoury, Ulcers and Incurable Sores, by the direct purgative which these LIFE MEDICINES give to the blood, and all the humors. Scrophulous Eruptions and Bad Complexion, by their alternative effect upon the fluids, that act with the skin, and upon the system of the Common Cold and Influenza will always be cured by one, or two, even in the worst cases.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES afford a distinct and reliable recommendation. It is well-known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of THIRTY YEARS, and that he tried in vain every remedy presented to him, until he was cured of the Malady. He, however, at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE. For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these Medicines is permanent—TRY THEM, BE Satisfied, AND BE CURED.

BILIOUS FEVERS AND LIVER COMPLAINTS. General Debility, Loss of Appetite, and Diseases of FEMALES—these Medicines have been used with the most successful results in cases of this description—KING'S EVIL AND SCROFULA, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. NIGHT SWEATS, Nervous Debility, Nervous Complaints of all kinds, PALIATION OF THE HEART, PAINFUL COLIC, are speedily cured.

MERCURIAL DISEASES. Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury infinitely more speedily than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the estimation of every patient.

BE CAREFUL OF COUNTERFEITS. Several have lately been discovered, and their nefarious authors arrested, both in the city of New York and abroad. Buy of no one who does not act as a recognized agent, and who does not have the name of Dr. W. MOFFAT, 335 Broadway, N. Y. Sold by T. THE FRIEND OF ALL!

HOLLOWAY'S PILLS. Nervous Disorders. What is more painful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? There is one:—drink but little wine, eat no spirits, or fat butter, no coffee, no tea, no chocolate, and if possible, get all the fresh air you can take three or four times every night; eat plenty of solids, avoiding the use of stews; and if these golden rules are followed, you will be happy in mind and strong in body, and forget you ever were nervous.

Mothers and Daughters. If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous and suspended secretions. Mothers, therefore, and also young ladies, who are afflicted with the nervous complaints, they never fail, never weaken the system, and always bring about what is required.

Sick Headaches and want of Appetite. These feelings which soadden us most frequently arise from annoyances or trouble, from obstructed perspiration, or from eating and drinking what is unwholesome, thus disordering the liver and stomach. These organs must be regulated if you wish to be well. The Pills, if taken according to the printed instructions, will quickly restore the natural consequence, good appetite and a clear head. In the East and West Indies scarcely any other medicine is ever used for these disorders.

How to be Strong. Never let the bowels be either confined or overly acted upon. It may appear singular that Holloway's Pills are recommended for a run upon the bowels, many persons supposing that they would increase relaxation. This is a great mistake, for these Pills will judiciously correct the kind of action which is to be avoided. In warm climates thousands of lives have been saved by the use of these Pills, which in all cases give tone and vigor to the whole organic system, however deranged. Health is wonderfully increased by the use of these Pills, combined with the use of solid and preference to fluid diet. Animal food is better than broths and stews. By removing all fermented and putrid humors from the system, and the action of the bowels becomes regular, and the will stop the relaxation of the bowels so quickly as this fine correcting medicine.

Disorders of Kidneys. In all diseases affecting these organs, whether they secrete too much or too little water; or whether they are affected with stone and gravel, or with aches and pains seated in the organ, or the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief when all other means have failed.

For Stomachs out of order. No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity occasioned either by intemperance or improper diet. They reach the liver and reduce it to a healthy action; they are wonderful in all cases of spasm of the stomach, and they never fail in curing all disorders of the liver and stomach.

Holloway's Pills are the best remedy known in the world for the following diseases: Ague, Dysentery, Liver complaints, Lumbago, The Cholera, Bilious Complaints, Female Irregularities, Rheumatism, Dropsy, Scrophulous Eruptions, King's Evil, Scurvy, Ulcers and Incurable Sores, Consumption, Indigestion, Inflammation, Debility, Dropsy, &c. &c.

Sold at the Establishments of Professor Holloway, 234 Strand, (near Temple Bar) London; also at all respectable Druggists and Dealers in every part of the world, and at the following prices:—1s. 1d., 2s. 6d., 5s., 10s., 20s., and 30s. each Box. N. B.—Directions for the guidance of patients in every disorder are affixed to each Box. April 3, 1860.
