

SOURIS CWL SCHOLARSHIP PRESENTED

Gertrude MacDonald (left) daughter of Mr. and Mrs. Anselm MacDonald, Charlottetown, is shown as she received a scholarship cheque from the president of the Souris Catholic Women's League, Mrs. Rena Boylan. Miss MacDonald is a graduate of Souris Regional High School and will attend St. Dunstan's University.

Spud Dealers Warned Against Cutting Prices

It was learned yesterday that the provincial Potato Marketing Board is sending out a letter of warning to potato dealers against price cutting on the Newfoundland potato market. It is known that a few dealers are cutting prices on the market and it is felt that such practices can seriously affect the potato industry by depressing prices.

Ferry Group Planning Cruise Over Proposed Route To N.B.

Directors of the West Point Ferry Company and members of its special ferry committee which includes Robert Grindley, M.L.A. secretary, may go from West Point to Buctouche and Shediac by water Saturday, 11 a.m. to hear a decision from Peter MacCaull, president of the company and chairman of the committee.

The intention is to make the trip by cabin cruiser so the directors and committee members will go over the proposed route by water.

Talks with the interested New Brunswick people at Buctouche and Shediac — both have been proposed as N.B. terminals — are also intended.

Two Cases Heard In Police Court

Only two cases were heard yesterday by Magistrate James Haslam in city police court.

Clifford Joseph MacLaren, Charlottetown, was fined \$25 and costs for speeding and another city resident paid a fine of \$20 and costs for having liquor in a place other than his residence.

Credit Revision Seen Realistic

Agriculture Minister Andrew MacRae said yesterday he is pleased that the federal government may consider revision of the Farm Credit Act which would make it easier for farmers to get into beef production.

According to a Canadian Press report from Ottawa, one change may provide Farm Credit Corporation cash for the farmer during the transition period when he is switching from dairy to beef herds or building up a productive beef herd.

"This," said Mr. MacRae, "would be the most realistic approach to the expansion of the beef industry so far as building a beef herd is a long range proposal and extended credit is essential."

Too Late to Classify
