NEW YORK

NEW YORK (AP)—Steels led the way in a stock market decline Wednesday as trading dwindled. It was only the third clear-cut fall in the market this year.

The drop was robbed of emphasis as turnover withered to 3,740,000 shares from Tuesday's 4,360,000.

U.S. Steel's report that 1962 profits were the lowest in 10 years was not surprising to financial analysts, but wide publication of the news Wednesday exercised a depressing effect on the market, brokers said.

"Big Steel" ended the day as fifth most active stock, off 1⅜ at 45¾ on 39,600 shares.

Other leading steelmakers took losses of a point or more. Bethlehem, which reports on finances and operations today, was down only ¼.

The barring of Britain from the Common Market caused some uncertainty as experts pondered the implications. The decline in stocks, however, was regarded as a long-deferred spell of profit-taking after a steady advance, and the U.S. Steel earnings served merely as an "excuse."

REGISTERS DECLINE

The Dow Jones industrial average declined 5.16 to 678.58.

The Associated Press average of 60 stocks dropped 1.3 to 255.8.

American Motors was the most active stock, off ½ at 19⅞ on 81,800 shares.

Among Canadian stocks, Dome Mines gained ⅞, Hudson Bay Mining ½ and McIntyre Porcupine ⅜. Walker - Gooderham was off ⅜, International Nickel ¼ and Canadian Pacific ⅛.

Prices were irregularly lower on the American Stock Exchange. Shawinigan was up ⅛. Preston Mines fell ⅜, and Canadian Marconi and Scurry Rainbow Oil were down ¼.

Salt Refining Plant Is Opened At Pugwash

PUGWASH, N.S. (CP) — The Canadian Salt Company of Montreal has opened a $2,250,000 salt refining plant here to bring a $6,000,000 salt producing complex in this northern Nova Scotia community one step nearer completion.

Although the official opening of the refining plant is being reserved until June 9, already it is producing domestic and industrial salt at the rate of 10 tons an hour.

A company spokesman said Wednesday the plant is currently working three shifts round the clock and is turning out almost 1,500 tons of refined salt during a six-day week.

The addition of the refining plant has added another 50 employees to the company's Pugwash staff and turned the mine into a year - round operation. About 130 men are employed at the mine.

Before the refinery opened, the mine was producing about 150 tons of rock salt an hour for commercial customers from the Maritimes as far west as Manitoba. However, the chief use of the salt was for cutting ice from highways and the market depended on the weather.

The new plant, equipped with the most modern equipment for the production of domestic and industrial salt, started fulltime production recently after a three month breaking-in period.

PRODUCTION VARIED

It is now turning out packaged salt for table use; special mixed salts in 100 pound bags for wholesalers, farms dealers and manufacturers; compressed salt in the form of blocks, licks and tablets for farms and canneries; and bulk salt shipped loose in boxcars and ships for large industrial consumers.

The first shaft was sunk here by the Montreal company in June, 1955. What was first planned as a six-month job took almost four years when the drill hit shifting sand, seams of water, gypsum and gas.

The company called in an expert from South Africa and 300,000 bags of cement had to be dumped into the ground to solidify the mess. The salt was finally reached in March, 1959. The reserve of salt in the mine is estimated at about 2,000,000,000 tons.

With the refinery in production, work has now turned to sinking a second shaft adjacent to the first at a cost of about $1,500,000. The 16-foot-wide hole will go to a depth of 1,000 feet.

The company spokesman said the second shaft would enable the company to have a continuous flow of salt from the mine while using the second shaft to transport mine personnel up and down.

Death Of 11 Accidental

CHANDLER, Que. (CP) — A coroner's jury has ruled accidental the deaths of a mother and 10 of her 12 children in a fire at their home Tuesday.

Only the father, Fernand Dupuis, 36, and two of his sons survived the fire in the nearby hamlet of Pabos in the Gaspe Peninsula.

Mrs. Dupuis, 33, had been rushed to safety by her husband but she ran back into the burning house where the 10 children, ranging in age from two months to 12 years, were trapped in their upstairs bedrooms.

Mr. Dupuis testified Wednesday that he believed the fire was caused by defective wiring.
