THE SITUATION.

"The whole Dominion, except Manitoba, has granted separate schools to the minorities; but Mr. Greenway says he will not give to the minority in Manitoba what they have a right to by the constitution, and the Dominion may spend as much time and money as its pleasure in efforts to do what the highest authority in the empire, by what is implied in its decision, says he ought to have done, and what the Dominion Government is bound by the constitution to do, in case Manitoba persists in its course of inaction. The government of that province has had every opportunity to end the trouble. But, if she stands by and sees the Dominion concede by the matter, which she ought to settle, and spending an untold amount of time and money all of which holds back the legitimate business of Parliament, essential to the country's welfare, and the fires of sectarian strife kindling on every hill top, then it is about time to say, as Mr. Gladstone once said: "Let the thing that is right be done," and, as the Roman was used to say, "Fiat justitia ruat cælum."—REV. E. M. SACREBURN, D. D.

Electors, Stand by the Law and the Constitution.

THE ORGANIZED HYPOCRISY.

The Leaders of the different factions in the Opposition have, and do express, views on different questions as opposite as day and night. Mr. Laurier seems to have no fixed opinion on any question. He is, indeed, "all things to all men." Dalton McCarthy has strong views, at a rate, on the question of refusing constitutional rights to minorities. Clarke Wallace, L. H. Davies and other prominent leaders of the Organized Hypocrisy hold political views on school questions, as well as on trade questions, diametrically opposed to those of other members of the same party. Out of their own mouths they may be judged.

Electors, Vote for Permanency of Tariff Laws and Steadiness of Trade.

LET THEM TALK: The Opposition press as usual are whistling furiously to keep their courage up. But yawns, lying telegrams and fabrications of all kinds, are not arguments. The electors of Canada know full well. The Grits and obstructionists dealt in the very same bluster in 1882, 1887 and 1891. Therefore it will deceive no one now. In the late House, the Government had 15 out of 21 members from Nova Scotia, fourteen out of sixteen from New Brunswick, and two out of six for P. E. Island. It is estimated and finally believed that the three Maritime Provinces will hold their own and come out of the battle of tomorrow with a majority for Sir Charles Tupper's Government, equal at least to that of the year 1881. It is the ballot vote that counts, not bluster.

Electors, Vote for Branch Railways in P. E. Island.

DO NOT THROW AWAY YOUR VOTES!

The Guardian says: "A statement is going the rounds of the ministerial papers to the effect that in 23 constituencies the Liberal party has no candidates. This is quite misleading. In the seats referred to there are some eight Patron candidates, five or six McCarthyites, and the balance made up of various classes of Independents. The Patron platform is well known to be in pretty close accord with the Liberal platform in tariff matters, and we have yet to learn of a single Patron candidate who is not opposed to the Government policy of coercion. The Canada Farmer's Sun, official organ of the Patrons, is squarely calling for a change of Government in its every issue. Equally are the McCarthyites opposed to the Government and seeking to bring about its defeat. The other Independents who oppose the ministerial standard-bearers are also, in almost every instance, opposed to the Government. So that, whatever the chances of success may be, there is an Opposition candidate for nearly, if not quite, every seat for which an election is being held."

THE DAILY EXAMINER.

JUNE 22, 1896.

A FACT TO BE NOTED.

SPEAKING in Ottawa on nomination day, the Hon. Senator Scott attacked the Government viciously, because of their avowed intention to build branch lines of railway on this Island. This the Senator characterized as a direct bribe to the Islanders to return Government supporters, and he asked the electors of Ottawa, if they were willing, as a city of 50,000 inhabitants, to contribute \$125,000 as their share of the twelve and a half millions which it was proposed to expend in so infamous a transaction! The ferocity of the worthy Senator's tirade was a genuine surprise to those acquainted with that normally urbane and mild-mannered gentleman. But Senator Scott spoke not of his own mere motion. He had been inspired, and told what to say and how to say it. He spoke from the text which has been adopted by the Grit party in Ontario, and from which their demagogues exhort untidily day after day. That text is: "Great is the indignation of the 'bribe' which he claimed had been offered this Island, he turned around and in the next breath abused the Government because they had not granted \$250,000 to a projected second bridge over the Ottawa River. Our readers will recollect that the Ottawa River is the division line between the provinces of Ontario and Quebec, and that Ottawa city on the Ontario side and Hull city on the Quebec side are situated on this river directly opposite each other; and, further, that under the B. N. A. Act bridges and ferries connecting the provinces are maintained at the cost of the general Government. Already Ottawa and Hull are connected with the C. P. R. bridge, which is available for trains only; by the suspension bridge over the Chaudière Falls a regular traffic bridge used all the year round; by a steam ferry about half a mile below the suspension bridge; a mile further east another steam ferry connects Ottawa with the Gatineau village, a suburb of Hull; and still another mile east a scow ferry crosses the River. All these services (except the C. P. R. bridge) are maintained by the general Government, and we, Islanders, have to pay our share of the cost. Not content, however, these uncorrupt and selfish Ottawa Liberals demand that the Government shall contribute another quarter of a million towards the construction of a second bridge which shall take the place of the steam ferry that runs half a mile below the suspension bridge. This bridge is estimated to cost \$750,000, and for nearly five months of the year, during the winter, it would be valueless, as travelers would prefer the frozen river. Our readers will kindly bear in mind that Senator Scott was the Secretary of State in the McKenzie administration; and if, by any misfortune, the Liberals should be returned to power, from his position as leader of the Ontario Catholic Liberals, there can be no doubt he would again hold a portfolio. In speaking as he did, he uttered the sentiments of the Liberal party. "No branch railways for little P. E. Island," but expensive public works for Ontario and Quebec—that is now the cry of Messrs. Laurier, Scott & Co.

Electors, Vote for a Government of Experienced Statesmen.

Electors, Vote Down the Obstructionists.

A SHORT ADDRESS.

To the Electors of Charlottetown. FELLOW ELECTORS.—Vote on principle, not for men. Vote for the maintenance intact of the Liberal-Conservative Government. By doing so you will help to strengthen Canada and uphold our Constitution, handed down to us by the Fathers of Confederation.

Remember the fact that the so-called "Liberal Party" have been hostile to the Government since Confederation for its object the building up of home industries, and the extending by sea and land of the power and influence of our common country.

The factions now seeking the overthrow of the Government are the very same obstructionists who would, five years ago, have made Canada subservient to the will and power of the United States by taking away from our Parliament every vestige of independence in the construction of our tariff.

Remember that the wisdom and statesmanship of Liberal-Conservative leaders, who had faith in the resources and undeveloped wealth of the country, Canada has continued to prosper in the midst of a wide commercial depression.

Vote not only in your own interests, fellow electors, but also for handing down to your children those dearest and most valued constitutional treasures which an unscrupulous Grit faction threatens.

SPECIAL DESPATCHES TO THE EXAMINER

ONTARIO! ONTARIO!

Good News From the Premier Province.

Liberal-Conservatives Will Make Large Gains.

Toronto, June 22. Sir Charles Tupper, Prime Minister, and Dr. Montague, Minister of Agriculture, spent Sunday in Toronto, after the great series of meetings which they have been holding in the Province of Ontario. When asked as to the result of the contest in Ontario, the largest province of the Dominion, both the Premier and his colleague declared that they had no doubt whatever that Ontario will, in their judgment, do very much better than it did in 1891, and will give a good majority to the Government.

A careful and cautious analysis of the Province indicates that the Government will lose scarcely a riding which they held at the close of the Parliament, and that they will gain fully a dozen seats now held by the Opposition. In many parts of the province the Liberal campaign is broken altogether, as evidenced by the fact that in sixteen seats no Liberal could be found to take the field.

In many constituencies, where the Liberal Party began with a show of making a vigorous fight, during the past week they have given up their struggle in disgust, and in some parts of the province for many days past their candidates have been practically out of the race. In the judgment of cool, level-headed business men, wherever Laurier went in Ontario it has had only one effect, viz., that of consolidating the ranks of the Conservative Party, while his weak, shilly-shally utterances have had a very depressing effect upon his own friends.

The Premier Minister has addressed thirty-nine meetings in two weeks, and to-morrow takes three more. The betting in Toronto last night was two to one in favor of a decisive Government victory. Everywhere from thirty to fifty of a majority is expected. Nobody can be found to put a dollar on the Laurier-Mowat-Tarte-Wallace McCarthy combination.

Mr. McCarthy and Mr. Wallace have proved a great source of weakness to the Liberal cause, and Mr. Laurier would have been much better off had he cut clear from these disgraced gentlemen months ago, instead of putting, as he has put, his campaign under their control and guidance in Ontario and Manitoba.

Speaking tonight to a Liberal reporter one of the leading business men of Toronto declared that he had watched closely the last five campaigns in the Dominion, and that, without exception, he never saw two days before the fight, a campaign looking so promising for the Conservative Party; and, he added, "if you can find me a taker, I am prepared to stake a considerable sum of money upon the result." The reporter, however, was out of funds and out of faith in Laurier as well.

The Gazette's Estimate.

MONTREAL, JUNE 22. The Montreal Gazette, a paper not given to boasting, concludes an article as follows: "Allowing for all the influences against the Government, including the illegal, but often exhibited feeling that 'it is time for a change,' and remembering that the best founded calculations are liable to error, there is believed to be reasonable grounds for expecting that a standing of the parties in the next Parliament will be approximately as follows: Patrons, McCarthyites and Liberals being all placed against the Government: Province. Cons. Opp. Quebec..... 35 30 Ontario..... 47 45 Nova Scotia..... 15 5 New Brunswick..... 12 2 P. E. Island..... 2 2 Manitoba..... 5 2 British Columbia..... 3 3 The Territories..... 3 1 Total..... 122 91 [The Gazette's estimate is much too modest as to P. E. Island. If it is in the same proportion all over Canada, Sir Charles Tupper's majority will be fifty-one—not thirty-one.]

CARPET BARGAINS.—If there is carpet need, present or prospective, it is worth your while to come before these lots are gone. Every element of the markets, seems to warrant the higher carpet prices that the makers agreed to and which you'll likely pay when we've quit selling these lots at prices little than you've known.

STRAW MATTINGS.—Humburg is rampant in straw mattings. The market is full of mattings that are hardly worth the tacks and trouble that are necessary to put them down. Against such stuffs and the humbug methods employed for its sale we put a regular carefully selected stock at prices so low that true competition cannot meet them.
