

Qualified Under Advanced Registry

The Advanced Registry Board for Swine has issued a report which shows the following P.E. Island sows recently qualified:

- Paydable Empress 25D, W. Ronald Paynter, 9-179-90.
Pave View Eva 2E, F. J. McInnis, 9-162-88.
Kimberley Mae 60D, N. W. MacLeod & Sons, 10-179-87.

In the above scores, the first figure indicates the number of pigs saved in the tested litter. The second figure denotes the age in days of the pigs when slaughtered. The last figure gives the average slaughter test score of the four test pigs.

U. S. Newspaper Prices Are Boosted

NEW YORK Sept. 30 (AP)—Daily newspaper prices are swinging upward all over the United States as costs of publication increase steadily.

This upward trend has been under way for several months. Large and small newspapers alike have found a price boost necessary. The trend is country-wide.

Publishers say the higher cost of putting out a paper are responsible. They cite greater newspaper costs, higher salaries and larger bills for distributing their papers.

In Los Angeles, The Times and the Examiner, both morning papers, have increased daily newsstand prices from seven to 10 cents, effective Oct. 1.

In Memphis, Tenn., the Commercial Appeal and the Press-Scimitar raised subscription prices effective Monday. The former's weekly rate for daily and Sunday papers goes from 40 to 45 cents. The latter's daily editions only cost from 25 to 30 cents.

Other papers in many cities have gone from 10 cents to 15 cents and in some cases to 20 cents.

ATTLEE HAS CLOSE CALL

SLAITHEWAITE, Yorkshire, England, Sept. 30 (Reuters)—The metal and glass cover of an arc lamp crashed from the roof of a maquette here Saturday just missing Prime Minister Attlee. It fell three feet in front of the platform from which Attlee was making an election speech. Mrs. Attlee was sitting beside her husband.

IN MEMORIAM

In loving memory of Harold I. Green who passed away October 1st, 1950.

Nothing can ever take away the love a heart holds dear. Fond memories linger every day. Remembrance keeps him near.

Lovingly remembered by Father, Mother, Brothers and Sisters.

BIRTHS, MARRIAGES

DEATHS

50c per insertion

Gaudet in the Queen's County Magistrate's Court on Saturday morning. Evidence was heard in a case against a resident of Hermitage charged with the theft of logs, and the accused was remanded until the 1st of October, and a former resident of Montague, now a member of the armed services, was further remanded until October 6th on a charge of retaining possession of a car, knowing it to have been stolen.

ALLIES SEIZE

(Continued from page 1)

him in men and equipment." The communique said four Allied planes were shot down by Communist anti-aircraft guns Sunday. The Allies admitted losing one.

Gen. James A. Van Fleet, United States Eighth Army commander, labelled the continuing action as a carry-over from a limited summer offensive which he said took a toll of 188,237 Communists since May 25.

In a lengthy statement, Van Fleet's estimate of Red casualties was coupled with an admission that the Allies had "suffered many casualties in taking hills which on the surface appear minor or insignificant."

Doctors Report

(Continued from page 1)

after he had regained consciousness, "her eyes were moist and glistening." She was tired and paler than usual after her week of strain.

The article said she has spent the days sitting at the bedside reading or doing embroidery and sometimes holding his hand. The King was spoon-fed by his nurses until Thursday but that since then he has had easily digested foods such as steamed fish, boiled breast of chicken, mashed vegetables, eggs and fruit.

The Express quoted Dr. Clement Price-Thomas, the chest surgeon who operated, as saying: "The King is the best patient I have ever had in my life. Not only is he brave, but he is full of humor. Just like an ordinary individual to deal with."

Meanwhile, the Paris newspaper, France-Soir, Saturday night quoted "an eminent personality in close contact with Buckingham Palace" for a report that surgeons found the King's lungs free of cancer in the operation last Sunday. The paper said that the operation removed only part of one lung, not the entire organ.

LABOR PLATFORM

(Continued from page 1)

platform statement. It said: "We do not for one moment accept the view that a third world war is inevitable. We arm to save the peace." It added "peace cannot be preserved by arms alone. Peace depends equally on bringing freedom from poverty to lands where hunger and disease are the lot of the masses."

Home On Leave After Cruise To Australia

After travelling 19,025 miles in 98 days aboard the cruiser H.M.C.S. "Ontario" on its recent Southern Hemisphere cruise, and from Vancouver to Halifax, through the Panama Canal, Able-Seaman Vernon Durber has returned home for a seven day leave prior to reporting to H.M.C.S. "Stadacona" where he will take a course.

The cruiser left Esquimalt, B. C. on February 26th for Honolulu and sea legs were acquired in a hurry as a gale sprang up on the second day out, causing some damage but no casualties. Although the stay in Honolulu was marred by rain, AB. Durber was one of the many aboard who were converted from "tadpoles" to "shellbacks" in the crossing of the line ceremonies on the next stage to Pago Pago in the American Samoas.

Three ports were visited in Australia following a call at Suva, Fiji Islands, and at Brisbane, Sydney and Melbourne the hospitality was "overwhelming" in the words of AB. Durber, with the Australians, for many of whom it was their first contact with the Australians, arranging entertainment after entertainment and conducting parties of the ship's crew to points of interest inland. At Hobart, Tasmania, a contingent of the crew took part in the traditional Anzac Day parade, and the cruise was then resumed, the next ports of call being Lyttelton, the port of Christchurch, Wellington and Auckland, where

assistance to these lands. As our armed strength grows more attention must be given to the underdeveloped regions of the world."

The party statement said that the cost of living—the country's biggest domestic issue—has risen less in Britain than in most other countries of the world.

To Extend Controls

The party promised to extend and strengthen price controls. It claimed full employment during the last six years as its greatest achievement.

"It has never happened before," it said. "It has meant a revolution in the lives of our people." The party said the nation's industrial output now is 50 per cent greater than pre-war. "World shortage of raw materials has steeply raised the prices of our imports and re-opened the dollar gap," it said. "The difficulties are great but we can conquer them."

Britain's loss of gold and dollar reserves has been freely predicted by official sources at close to \$500,000,000 for the three months ending today. The official figure will be announced Wednesday.

HOLMAN STORE NEWS

A friend of ours went into a super-rave about the BELL HEATHER patterned ROYAL DOULTON BONE CHINA DINNERWARE which is on display in the China Departments of both the Charlottetown and the Summerdale Stores. She was deeply entranced with the sweetly simple Heather design in delicate colors and the graceful "Montrose" shape... she pointed out to us that Bell Heather would be equally charming in a period dining room as in one of the most modern trends.

COOL NIGHTS make a girl yearn for soft fluffy SNUGGLEDOWN NIGHTWEAR and the Lingerie Department has PYJAMAS and GOWNS of this wonderful brushed rayon material that is so light and so warm! The Pyjamas are in two styles—pull-over with knitted neckband and wristbands on the long sleeves, and tailored P.J.'s with buttoned front and lace edging on the neat collar. The Nightgowns are tailored with buttons to the waist and a collar edging of tufting. Snuggledown Nightwear is in sizes small, medium and large, priced 4.49 and 4.98 in the Lingerie Department.

SHOE SPECIAL for School Boys! Regular values to 5.25 a pair—sharply reduced to 3.50 for Youths' sizes 11, 12 and 13—3.95 for Boys' sizes 1 to 4. The Shoes are sturdy black leather or Blucher cut with toe cap. They have heavy stitched soles and rubber heels, the linings are of English kip leather. I know—you know—we all know just how hard on Shoes school boys can be—this is your chance to get real "toughies" at a real Bargain in the Shoe Department.

The first definite change in Girdles in years... And you like the PLAYTEX and PINK ICE GIRDLES—Well, you'll simply love FAB-LINED GIRDLES—they're glorious to wear, figure slimming with complete freedom of action and their soft fabric right next your skin. Fab-Lined Girdles are invisible under the most clinging clothes, they wash in seconds and dry in a flash. Fab-Lined Panty Girdles are 7.95 and Fab-Lined Garter Girdles are 8.95 in sizes extra-small, small, medium, large and extra-large in the Foundation Section.

Minister Honoured On 10th Anniversary

At the close of Divine service in St. James' Church yesterday morning the members of the Kirk Session assembled in the vestry to greet the Rev. T. H. B. Somers, M.A., S.T.M. (above) on the occasion of the tenth anniversary of his induction into the pastorate of the Kirk congregation on behalf of his brother Elders, His Honour, the Lieut. Governor, Hon. T. W. L. Prowse, warmly congratulated the Minister and called upon the Clerk of the Session, Mr. D. A. MacKinnon who presented Mr. Somers with a generous purse and read the following address:

"The Reverend T. H. B. Somers, M.A., S.T.M. "Dear Moderator: "On this the Tenth Anniversary of your induction as our Minister, the Kirk Session takes great pleasure in congratulating you on having reached this milestone. We cannot let it pass without assuring you of our love and esteem which are increasing as the years go by. Both you and your charming wife have endeared yourselves to every member of the congregation."

"We ask you to accept this small gift, coupled with the prayer that God will bless you abundantly and grant you Grace to carry on in the future as you have in the years that are gone, the Glorious Work of bringing in His Kingdom of Righteousness and Peace."

"On behalf of Session, D. A. MACKINNON, Clerk."

At their meeting earlier in the week the Board of Trustees offered congratulations upon the Minister's anniversary and on motion of Dr. R. Gordon Lea, seconded by Mr. Wm. R. Burnett, a resolution of appreciation and good wishes was ordered incorporated into the Minutes. On the actual day itself, September 25th, the Kirk Auxiliary honoured the Minister with a beautiful gift of red roses accompanied by the following message: "With very best wishes on the tenth anniversary of your induction as our Minister, and with the hope of the continuance of our very pleasant associations with you and Mrs. Somers for many years to come."

Good Response To Plea For Assistance

TORONTO, Sept. 30 (CP)—About a week ago Mr. and Mrs. Barclay Henderson walked into the office of the Toronto branch of the Canadian Red Cross to ask for assistance to get them to Scotland.

Mrs. Henderson, 29, wanted to get back to her parents in Glasgow who had offered to take care of her four children and help her husband make a new start in life.

Doctors here had given Mrs. Henderson six months to live—she is dying of lung cancer.

The Hendersons needed \$550 for their fare and to them that much was a fortune.

AWARDED MEDAL

PHILADELPHIA, Sept. 30 (AP)—The Franklin Institute Saturday awarded its highest honor, the Franklin Medal, to Sir James Chadwick, noted British scientist who identified the neutron as part of the nucleus of the atom. The Franklin Medal, awarded since 1914, goes annually to a worker in physical science or its application."

One of the world's famous flat-topped mountains is Mt. Roraima, towering 9,100 feet in British Guiana.

The Hunting Season opens today so draw a bead on these hunting needs:

Dependable, Powerful 10, 12, 16, 20 and 410 gauge, all shot loads,

Jack Knives, Vacuum Bottles, Flashlights and Batteries, Camp Stoves, etc.

Be Careful and Good Hunting

Island Odds And Ends

When the British elections are held in late October, Mr. Churchill will be depending for victory on the "many" for whom the "few" preserved freedom in the Battle of Britain.

Television stations cost many dollars to build and their effective range averages only about fifty miles. It is most unlikely, because of the high costs of equipping a station, that we in this part of Canada will be buying T.V. receiving sets for some time. But there is one set in Charlottetown which was brought here purely for research purposes. It is owned by Col. K. S. Rogers, who pioneered in wireless telegraphy in the early nineteen hundreds, and later was among the first Canadians to operate a privately owned broadcasting station. When Mr. Rogers' T.V. set arrived in Charlottetown a while ago, it was found defective and a replacement for the defective part is now on order. Its owner does not expect that the machine will "bring in" any pictures except possibly through some freakish behaviour of the air waves. Whatever the reactions of the set they will be recorded and may be valuable when this part of Canada is brought into the circle of television service.

In this column last week a number of ponds and mill dams were mentioned which had been rebuilt on the "by pass" plan to give searout easy access to them. Omitted from the list was Marshall's pond at Covehead which has just been completed for the Provincial Government by "Ginger" McKay, who specialises in this field. The Marshall pond will be for the use of the general public.

From a point south of Pinetown ten miles of the Trans-Canada highway route is being sub-graded towards the Wood Island ferry terminal. The preparatory work is proceeding rapidly, and the hole is held by the Minister of Public Works, Hon. Dougald MacKinnon that the road will be paved by this time next year. Every cooperation is being extended by the contractors, who are doing the preliminary work, by the farmers living along the highway. So wholehearted has been the encouragement given by the local residents that one contractor remarked: "We never worked in a district where the people were so understanding and so pleasant." At any rate Belfast has waited long for this hard-surfaced road, and is very pleased that it is now only a matter of time before it has one of the best in the province.

It is not expected that the faster mail service, which goes into effect in this Province immediately will bring objections from many Islanders. In an air-mail age we have endured stage coach speed for many years. The new truck service should remove the feeling of living in a part of Canada, remote from modern advancement. It has frequently been remarked since air-mail service and travel became common that it took almost as long for a letter to travel from Charlottetown to Tishish as it did from Canada to England.

"Bill" Brown, manager of the Forum is the busiest man in three counties right now. For the past few days he has been putting the pressure on to have a skating surface ready for use this present week. Prior to making the wooden flooring at the Forum had to be removed, the ice-making machines tuned up and the miles of piping which underlie the ice tested for leaks. Somehow the work was carried out, though only a week ago, a bazaar was held in the Forum and previous to that an industrial exhibition.

FAMOUS CHURCH

The early English cathedral built at Glasgow in the 13th century incorporated parts of an even earlier structure.

Island Plowing Champion

The Prince Edward Island plowing champion, Frank Clay of Dundas sits on his tractor after winning the tractor three sod event at the Provincial Plowing Match last Wednesday. Mr. Clay came back again the next day to win the Provincial title by beating out a field of 14 contestants. Shown in the background is Frank Perry of Dundas, the runner up in the tractor three sod event.

Radio-Controlled Jet Plane Tested

SYDNEY, Australia, Sept. 30 (AP)—The Sunday Herald's aviation writer says that Australian aircraft designers have completed first flight tests of a secret radio-controlled jet plane at the guided missiles range at Woomera in Southern Australia.

In the first test, the plane carried a pilot so he could develop radio control technique between the air and ground. In the final version the plane will be pilotless. Equipped with a turbo-jet 27 inches in diameter, the plane is capable of speeds of more than 500 miles an hour. It has a wingspan of 220 feet and a fuselage 24 feet long. The wings are detachable and the wheels retractable.

HISTORIC BRIDGE

London bridge until 1750 was the only bridge over the Thames at London, now crossed by more than a score of bridges.

LARGE LIZARDS

LONDON (CP)—Believed the largest American "lizards" ever seen here, two iguanas, each measuring six feet long, have been presented to the Regent's Park zoo.
