not worth while to run the speed risk to life and limb."

Other regulations call for the suspension of the operator's license when the owner is found guilty of driving while his faculties are impaired by alcohol, and for a second offence, the license will be taken from the guilty party for two years. In order to have the licence thus suspended, restored, the regulations governing a new application will have to be complied with. A standard set of signals has been adopted and will be given publicity immediately so that everyone may become familiar with them, Mr. Darby said.

"Thirty-five States of the Union cut their highway traffic accidents by one-half in less than five years by proper training which started in the manner we have now inaugurated," he said.

"Good driving habits can be developed to the point where they become automatic. Common courtesy is the greatest single factor in attaining this goal; it may surprise you to learn that only six per cent of the accidents on this continent last year, were due to mechanical defects."

In the question period which followed, Mr. Darby stressed that the dimming of lights was very difficult to check on and therefore came definitely under the category of "Courtesy".

A resolution passed by the largely attended meeting strongly commended the Attorney General for the obvious step forward being made by his department in the interest of safe driving. Mr. Fred Pound, chairman of the traffic and safety programme committee, thanked Mr. Darby on behalf of the membership for his enlightening address. The announcement was made that a traffic safety meeting would be held at 7 p.m. next Thursday to consider the "Safety Week" programme.

It was also announced that the regional convention of the Junior Chamber of Commerce at Saint John, N. B., May 15-17 would be attended by several local members including Messrs. Henry McWilliam and wife, Jack Morris and wife, Gordon Gay, Dave Andrew and Past President Ignatius MacDonald.
