Archbishop Kingston Is Special Speaker

Choosing as his subject "The last half century in the development of Religion," His Grace, Most Rev. G. F. Kingston, Archbishop of Nova Scotia and Primate of the Church of England in Canada addressed a gathering of almost 150 clergy and laymen in St. Paul's hall last evening. Speaking of the development of the Anglican Communion throughout the world, His Grace pointed out the growth of the missionary organization, even in times of depression and hardship. "The Anglican Communion," he stated, "stands in a very special place in relation to reunion of Christendom, and in this the Church of England is vitally interested." One of the major highlights in the development during the past fifty years was the establishment of the World Council of Churches. The final fruition of the International Missionary Council, the Movement of Faith and Order, and of Life and Work was reached in the development of the World Council. His Grace stated that it was a privilege to representatives of 147 different churches. "The population of Canada has grown in fifty years from 5,500,000 to 13,000,000," His Grace said. "And one of the greatest tasks of the Church of England has had to face is that of keeping pace with this very rapid development." He continued by saying that one of the greatest stories in missionary work is that of the work being done among the Indians and Eskimos in the North country. "In the past 50 years we have a great history, now we must work to increase our scope. Maintenance and extension of our development in the North is the challenge of the day." After dinner had been served by the ladies of the church, President Tom DeBois called upon various clergy from all over the Island to introduce their laymen. This was done by Archbishop Harrison of Summerside, Canon Malone of Charlottetown, Rev. Percy of Milton, Rev. Mr. Davies of New London, Rev. Mr. Armstrong of Crapaud, Rev. Mr. MacMahon of Alberton. One other representative of the clergy who was present was Flight Lieut. Fee of the R. C. A. F. Station at Summerside. Major T. E. MacNutt, president of the Laymen's Association of St. Peter's gave a short talk on the Duties of the Laymen's Association to the country, and expressed the hope that new branches will be formed throughout the Island. In his introduction to His Grace Major MacNutt referred to him as "the man we all honor, respect and love." Entertainment was provided by the Laymen's Choir of St. Paul's, saxophonist Mr. Jack MacAndrew, and by Mr. Royston F. Murgatroyd who played solos on the Hammond organ, loaned for the occasion. It was announced that a large class of adults and children are to be confirmed by His Grace the Archbishop of the Diocese in St. Paul's Church at 7:30 p.m. today.

Shipments Curtailed By Reefer Car Shortage But Conditions Now Improved

"Our potato market has gathered considerable momentum and large quantities of potatoes are steadily moving from the Province," states the weekly report of the Provincial Department of Agriculture, prepared by Mr. W. R. Shaw, Deputy Minister. "An unfortunate reefer car shortage has curtailed this movement to some extent. We are assured, however, by rail authorities that cars are being moved to the Province with all possible despatch. It is expected that we will have over 400 on this division by tomorrow night and hope to have the situation pretty well under control by Monday." "There is one aspect of the present situation that merits some attention. The demand for seed, particularly in areas that are now or soon will be planting, should receive special consideration. Cobble seed, particularly, should be delivered by April 15th to many sections. If our exporters are not in a position to guarantee deliveries on certain dates the orders are cancelled and requirements are secured from sources of supply that can fill the orders promptly. In view of the importance of filling every possible market as quickly it would seem as if some priority should be provided orders for seed." "It is to be sincerely hoped, however, that the reefer car situation will improve to the extent that all our potatoes can be handled normally to an expanding market. The next month will be particularly busy as far as exports are concerned." "It is encouraging to note that some slight improvement has taken place in price levels, although not of a particularly impressive nature. United States markets are showing greater life and the Upper Canadian markets are evidencing a keener interest, as is also true in Western Canada. The trend would seem to be for stronger demand in these areas. Potatoes loaded direct to cars for prompt shipment are bringing a slight advance in price over those in storage for delivery on previous contract. The general situation, as far as demand is concerned, is encouraging, and it is to be sincerely hoped that a corresponding improvement in price levels will take place along with expanding deliveries." Entertainment was provided by the Laymen's Choir of St. Paul's, saxophonist Mr. Jack MacAndrew, and by Mr. Royston F. Murgatroyd who played solos on the Hammond organ, loaned for the occasion. Dwelling At St. Andrews Is Destroyed

Fire destroyed the dwelling of Mr. and Mrs. Fred Reddin, St. Andrews, and practically all their furniture, clothing, personal effects and a quantity of turnips in the cellar to cause an estimated damage of \$8,000 in an outbreak around noon Tuesday. The blaze was believed to have originated in the second floor while Mr. Reddin was working in the cellar. For a time it threatened to consume the barn and a tractor nearby, but the efforts of nearby neighbors prevented it from doing further damage. The building situated on the site of the old St. Dunstan's College farm on Mount Stewart was a 40 x 40 foot structure and contained eight rooms. It was partially covered by insurance. Cause of the fire was not known but so quickly did it spread that Mr. and Mrs. Reddin and their two children were fortunate in escaping from the burning structure unscathed.

"We were thinking of putting those delinquents out on farms," he said "rather than sending them to schools in Saint John and Halifax from which they returned worse than when they entered." He added, "We now have 10 acres of land at Mount Pleasant that might be used for such a purpose." The brief stated the Institute's willingness to co-operate with the Government in matters pertaining to Child Welfare. It also urged that Government assistance be given to
