(By Harold J. Fair, Canadian Press Staff Writer) (C. P. By Guardian's Special Wire)

TORONTO, May 28—A 42-year-old Simcoe County farmer and member of the House of Commons, Hon. W. Earl Rowe today was elected as new leader of the Ontario Conservative party and its hope in the struggle to regain power in the province.

PREDICTS VICTORY

Mr. Rowe told the convention in his pre-election address: "If you give me that leadership today and God spares me health in the days that are ahead, I shall give you victory."

"By your confidence and co-operation we shall then drive from Queen's Park a political circus troop such as never before disgraced the public service in Ontario."

He stressed the need of laying broad and progressive plans for development of new enterprises and

Saint John And Halifax Trade Boards Opposed To B. N. A. Act Amendment

"Serious Obstruction To Inter-provincial Trade" Seen In Proposed Amendment Sponsored By King Government.

(C. P. By Guardian's Special Wire) HALIFAX, May 28—Objections taken by the council of the Halifax Board of Trade to proposed amendments of the British North America Act were forwarded today to the Canadian Chamber of Commerce.

The council voiced particular opposition to a section of the amendments that would permit imposition of taxation on goods being conveyed from province to province. It was claimed this would prove a serious obstruction to inter-provincial trade.

"If safeguards would be put in the act to prevent discrimination by one province against another, the amendment would not be so objectionable," Secretary E. A. Saunders advised the secretary of the Dominion organization.

The Halifax council was also opposed to "retroactive provisions," Mr. Saunders stated.

LOCAL BOARD COUNCIL IS NON-COMMITTAL

No Decisive Answer Given To Commerce Chamber Query.

The council of the Charlottetown Board of Trade took a non-committal attitude in regard to proposed amendments to the British North America Act at a special meeting last night. A telegram received by the local board from Mr. W. McL. Clarke, secretary of the Canadian Chamber of Commerce in Montreal, by E. A. Saunders read: Meeting council Board of Trade held today discussed proposed amendment to British North America Act giving provinces power to impose indirect taxation. Council opposed to proposed amendment because it permits of discrimination by one province in taxing products and manufactured goods from another province and also gives power to any province to discriminate against persons and companies in one province doing business in another. If safeguards were put in act to prevent such discrimination by one province against another amendment would not be so objectionable. Council also opposed to retroactive provisions.

Strong Opposition

SAINT JOHN, N. B., May 28—Strong opposition to proposed amendments to the British North America Act without the sanction of all the provinces in the Dominion, was recorded by the Saint John Board of Trade at a meeting of the council today. Although a statement in the Senate this week by Senator Raoul Dandurand, was to the effect that provincial delegates at the recent inter-provincial conference in Ottawa had agreed to the proposed amendments, it was made clear last night that neither the New Brunswick government nor the Legislature had agreed to any of the proposed changes.

(C. P. By Guardian's Special Wire) MONTREAL, May 28—Isaac W. C. Solloway, former Toronto stockbroker of the firm of Solloway Mills, charged with theft of approximately \$2,300,000 left Montreal late today for Toronto in the custody of Ontario provincial police.

Mussolini's Overtures To Britain Irks London Press

(A. P. By Guardian's Special Wire) LONDON, May 28—Premier Mussolini's apparent efforts to smooth Britain's ruffled feelings gained impetus tonight through Ambassador Dino Grandi's long interview with Foreign Secretary Eden. Other signs have pointed to apparent overtures, but the London press was salty in its comment. The Star said editorially: "Signor Mussolini condescends through newspaper interviews to tell us his terms for being a good christian neighbor. Among other things it seems sanctions must go and the British navy must withdraw from the Mediterranean." "Then His Excellency in Rome will remove his Libya army and grant Britain an inestimable boon in his agreeable friendship. After that doubtless he would like more trade with us, and possibly a loan to help consolidate his civilizing mission in Africa." "The dictator knows what he wants, and it looks like he's getting it for he is finding sympathetic ears in influential places in Britain."

"QUEEN MARY" HITS TOP SPEED ON VOYAGE

Travelled At 32 Knots Several Times During a Course of 326 Miles.

ABOARD THE R. M. S. QUEEN MARY EN ROUTE TO NEW YORK, May 28—Her maiden voyage logged from the Cherbourg breakwater, the liner Queen Mary pushed ahead through the Atlantic tonight with her powerful turbines humming.

After 24½ in the Cherbourg harbor, the vessel steamed westward at an average speed of 28.73 knots, indicating the ship travelled her top speed of 32 knots at least several times during a course of 326 miles.

Officials declined to state the highest speed, but if the Queen Mary ran more than 31.30 knots for an hour it would better the French Normandie's best average for one hour, officially timed.

The log of the westward Atlantic crossing was started at the end of the Cherbourg breakwater, reversing previous plans to begin the official record from Bishop's Rock, at the west entrance of the English Channel.

The giant liner paired at Cherbourg, with various reasons—including loading of gold shipments—advanced for the delay. She finally got away at 8:35 p. m. A. S. T. Wednesday and at 12 noon A. S. T. Thursday was 326 miles westward.

Rohama Siegel, who slowed away from the vessel at Southampton left the ship at Cherbourg, it became known today.

TORONTO, May 28—Rohama Siegel, who "slowed away" on Britain's giant liner Queen Mary, is a 1927 arts graduate of University of Toronto and daughter of a member of Toronto's board of education.
