EPA, Bd. Of Trade Officials Discuss Air Service To Island

Representatives of Eastern Provincial Airways met with the council of the Charlottetown Board of Trade last evening at the Charlottetown Hotel to discuss EPA air transportation as it applies to Prince Edward Island.

Meeting with the Council was EPA Vice-President, William Harris of Gander, and Farrell Gaudet, Gander, director of industrial relations with EPA.

Interviewed following the meeting Mr. Harris was quite satisfied with the meeting with the city Board of Trade. Details of the meeting were not disclosed.

Effective Oct. 26, and to coincide with the time change, said Mr. Harris, there will be Dart-Harold service twice daily six days a week to and from the

Speed Limit Extension Suggested At Inquest

SUMMERSIDE — A coroner's jury last night found that Alvin Joseph Arsenault, six-year-old son of Mr. and Mrs. Tillman J. Arsenault, Abram's Village, met his death on July 8, due to being struck by a motor vehicle driven by Abel Joseph Arsenault of Wellington, at Abrams Village.

The jurors felt this was purely accidental and attached no blame to any individual. They recommended, however, an additional extension of the 40 mile speed zone for a distance outside the village "until the road is straight".

The decision was handed down following the testimony of five witnesses. Members of the jury were: Joseph Ulric Poirier, et al.; Joseph Ulric Arsenault, Louis Joseph Gallant, Arthur Gilbert Gallant, Leo Jos-

eph Gallant, Joseph Levi Arsenault, Joseph Cyrus Gallant.

The first witness, Edgar Joseph Gallant of Abram's Village, told of driving on the highway the day of the accident on a tractor while hauling a trailer of sand when he first noticed the young boy walking towards the vehicle on the opposite side of the highway.

CROSSED HIGHWAY

Mr. Gallant said his three sons were sitting on the rear of the trailer and he had been told later by the sons that the child had crossed the highway after the tractor had passed and had spoken to the boys on the trailer.

Mr. Gallant said he had seen the Arsenault vehicle while proceeding towards him but had not seen the accident and had not heard any brakes applied over the trailer.

When questioned by Prince County Coroner, Dr. Marvin Clark of Kensington, Mr. Gallant said the Arsenault vehicle was not travelling at a high rate of speed.

Mr. Arsenault said he was proceeding towards his home in Wellington in his 1961 maroon-colored car accompanied by his three children when he was struck.

He said that he was abreast of Mr. Gallant's tractor and trailer when his child ran out and hit the front center of his car. When asked if he had seen the child prior to striking him, he answered he had not seen the child.

Mr. Arsenault said he had immediately applied his brakes and the child, after being struck, had landed on the right hand side of the highway. He said he had immediately contacted the RCMP and Dr. G. E. Robinson of "Type Valley" who pronounced the child dead when he arrived at the scene.

Dr. Raymond Reid of Wellington had not been available at the time, he said.

A third witness, Lillian Mary Arsenault, 14, of Abram's Village, testified she had seen the child hit by a maroon car while she was looking out of a side window of her parents' home.

Asked if she knew him, she answered that she had heard his name before but did not know him.

RCMP Constable Daniel A. Durling of Summerside who investigated the accident, said it had happened ¼ mile past Abram's Village.

In the investigation, he said, measurements and photographs had been taken at the scene, although very faint wheel marks had been measured, he added. One of the skid marks measured 20 feet, 2 inches and the other 29 feet. The investigation however, he concluded, had failed to determine the point of impact.

The only other witness, Duncan MacNeil, a mechanic for Summerside, said he had been following the accident and had found it to be a good mechanical condition.

George R. McMahon acted for the Crown last night.

Science Teachers To Meet At Banff

The first National Science Teachers Association conference in a country other than the United States takes place this week at the Banff School of Fine Arts at Banff, Alberta. An international emphasis will be given as delegates from Northern Region States (Idaho, Montana, North Dakota, Alaska) are joined by delegates and speakers from major science education centres across Canada, the United States, Commonwealth countries and elsewhere.

The program from Sept. 17-20, will focus on a critical appraisal of new science curricula by outstanding educators and scientists whose basic concern is for the general education of all children.

Prince Edward Island will be represented by Lawson Drake, Mt. St. Charles, Department at Prince of Wales College.
