The Champion.
M. R. Beasley and H. B. Haynes, of
Stark, Fla., are responsible for this: "Mr.
Beasley and his wife were riding in a buggy
and ran over a rattlesnake. It chased
them, and in trying to get at them got
entangled in the wheels. Uncoiling again, it
extricated itself and pursued them nearly
half a mile, when Mr. Haynes came up.
The two men fought the monster with clubs,
and after 30 minutes battling, it was killed.
It measured fourteen feet and had 23
rattles and one burton, and its stuffed hide
holds a bushel of bran.

Directions to Voters for Legis- lative Council.

1. Qualification: Every male person of
the age of twenty-one years or upwards,
who shall own a freehold or leasehold prop-
erty, of the value of one hundred pounds
currency, or who shall own lands partly
freehold and partly leasehold, amounting
together in value to one hundred pounds
currency, and who shall have been in pos-
session of the same for a period of at least
twelve calendar months, previous to the
date of the writ of election, shall be en-
titled to vote for a member to serve in the
Legislative Council of this Island, and shall
vote at the place or places at which he
ordinarily votes at the election of a mem-
ber or members of the House of Assembly,
under and by virtue of the laws now in
force relating to the election of members
to serve in the General Assembly. Vic.
25, Cap. 18, Sec. 7.

2. Poll opens at 9 o'clock a. m., and
closes at 5 o'clock p. m. On the 11th day
of this month the election will take place.
3. Vote early, and see that every Liberal
Conservative elector in your neighborhood
votes early, also.
4. Do not "pair" on election day with a
Grit neighbor. Poll your own vote and let
him look out for his.
5. Don't let anything keep you home on
the day of the election, but go to the polls
as though the result of the election de-
pended upon your individual exertions and
vote.
6. Don't stay home, as though the Leg-
islative Council election were of no conse-
quence. It is of the utmost importance
that bad and designing men should be kept
out of that body: as one man in the Upper
House might be able to thwart every good
measure which the Government would
bring in.

7. Be sure, therefore, not only to go to
the polls, but go early and vote for the
Liberal-Conservative candidate, the man
who goes in to support an honest Govern-
ment—a Government that has succeeded in
relieving you of taxation by collecting debts
due the Province.

Political Meeting at New Perth.

The meeting held at New Perth on
Wednesday evening, the 27th ult., was well
attended. John McLean, Esq., was ap-
pointed Chairman, and the undersigned
consented to act as Secretary.
Geo. F. Owen, Esq., Government candi-
date, was the first to address the meeting.
He stated that he had received his nomi-
nation at the hands of a large convention of
delegates of the Liberal Conservative party,
and believed he would be sustained at the
polls. He then entered upon an able
defence of the policy of the Government,
regarding the abolition of the Legislative
Council.

John G. Scrimgeour, Opposition candi-
date, stated that he was not in favor of the
abolition of the Council until some sufficient
substitute was provided. He then wasted a
great deal of eloquence over delegations
and in abusing the Government for their
selection of live stock lately imported.
When he finished speaking some of his
friends were so disgusted that they im-
mediately left the meeting.
Cyrus Shaw, Esq., M. P. P., came for-
ward and thanked the electors for the
hearty support they had given him in the
late contest. He spoke at considerable
length, and made an able defence of the
policy of the present Government.

James D. Dewar, Esq., came forward and
recommended Mr. Scrimgeour as a fit and
proper person to represent us, and stated
that his past history was a sufficient guar-
antee that the management of our affairs
could be safely entrusted to his care. He
thought the young men could not be trust-
ed, and that when he was a young man him-
self he took very little interest in public
affairs, and was not a fit person to be en-
trusted with the unfettered privileges of
the franchise.
After a hearty vote of thanks was ten-
dered to the Chairman the electors quietly
dispersed.
J. A. DEWAR,
Secretary.
New Perth, Oct. 27, 1886.

Prohibition in the South.

Prohibition is making its way in the
South. In a very large part of Georgia the
bar-room is a thing of the past. In 1883,
of the 142 counties in the state 78 were
prohibitory and 64 license; in 1886, 108
are prohibitory and 34 license. In most of
the latter the saloon has ceased to exist.
High license that is high license has been
too much for it, the rate running from
\$2,500 to \$5,000. Many temperance peo-
ple look upon the latter plan with favor.
In places where it is in vogue the law is bet-
ter observed than in strictly prohibition
districts. The statute is enforced, drink-
ing places are few, and the temptation that
some pretend leads people to seek for
liquor just because it is forbidden does not
exist. There is room for the institution of
higher license in this province. There are
far too many saloons that are only saloons
in Montreal. They would not exist if
their business was not profitable, and if the
levying of a higher tax upon them would
reduce their number here, as it has done in
Georgia, the result would be in every way
beneficial to the community.

Another Invention.

A lady who took exception to her husband's
habitual wakefulness is credited with the in-
vention of a mechanical device that it is prom-
ised shall do more to induce sleep than all
that opiates, chloral hydrates and even raw
onions has ever done. The machine looks
like a very long S, and is made in hard rub-
ber, with a pad on one of its inner curves.
At one end is a soft leather strap; at the
other, its curve forms a handle. In use, the
left hand pulls down the strap—after the
instrument is placed on the neck—and the
right hand laid on the handle presses down
firmly, but not too firmly, the pad which rests
on the carotid artery, so as to diminish the
flow of the blood to the brain. During sleep,
the brain is comparatively bloodless. A rush
of blood to the brain creates insomnia. It
was not remorse so much as an excess of blood
in his head that kept the Thane of Cawdor
awake. The "somnolizer" keeps back the
blood and sleep ensues naturally.

A Prosperous Season.

The Portland, Me., *Advertiser* says that
the season just closed has been a prosperous
one in that city. Since the beginning of the
year fifty-five new wooden buildings have
been erected. Of this number six are located
on the islands. The average cost of these
houses has been below \$5,000. They have been
built as homes by people in comfortable cir-
cumstances, and would seem in this re-
spect to indicate a healthy condition in the
city's growth. Within the same time twenty-
one brick buildings have been erected, while a
great deal of repairing and enlarging has been
done to houses all over the city, and many
large additions have been made. There has
also been a considerable number of buildings
for storage, stables, etc., erected.

A Sporting Earl.

The death of Earl Aylesbury elevates Lord
Saverne to the position of an aristocrat. He
is an aristocratic fellow, and has been a well-
known frequenter of music halls and the bet-
ting-ring—a cross between a professional pug-
list and a betting bout. He dresses like a
costermonger. Some years ago he married
Poly Tester, a ballet girl at the Gaiety, and
was long since ostracised from the aristocratic
circle. He now becomes the patron of eleven
church livings, and comes into an estate worth
\$1,950,000 per year. The estate is, however,
burdened with four jointures, there being no
less than four living Marchionesses of Ayles-
bury.

Poisoning the President.

The steamer which has just arrived from
Puerto Cortez, Guatemala, brings the fol-
lowing news: "On the 10th ult., an at-
tempt was made to poison the President,
by two brothers who are druggists in the
city of Guatemala. They prepared the
poison and gave it to a servant of the Presi-
dent, with \$2,000 as a bribe to administer it,
but the servant proved honest and handed
over to his master both the money and the
poison. The druggists were both put to
death."

Water for the Town.

A reservoir has been constructed at
Presque Isle which is said to be of capacity
sufficient for holding a year's supply
of water for the whole town. Three
fourths of a mile of pipe must be laid to
carry the water into the village. About
\$40,000 have and will be expended during
this year in Presque Isle village, in erect-
ing new buildings and repairing and en-
larging old ones. Building lots sell for
large prices. All kinds of buildings are in
demand and rents are high.

A Gentle Hint.

He was seated across the room. "Harry,"
she said, "if a fire were to break out sud-
denly in the house, what would be your
first impulse, do you think?" "Well, my
first thought would be for you, of course.
I would get you to a place of safety, and
then do what I could to extinguish the
flames." "That would be very nice of you,
Harry, to think of me first; but if a fire
were to break out now, for instance,
wouldn't you lose valuable time reaching me
from way across the room?"

To the Antiseptic Inhaler Co.

GENTLEMEN,—According to promise I write
to inform you that your Inhaler has worked
wonders in my case. I have only used it
about two months and I find my difficulty
entirely removed. I was troubled very much
with a bronchial affection, accompanied with
nasal catarrh which prevented me from sing-
ing—a part of my profession. I tried
various nostrums without relief, until I heard
of "Butcher's Antiseptic Inhaler" through a
friend who had proved its efficacy. I shall
do all in my power to recommend a remedy
which, to my own knowledge, has been so
beneficial in every case coming under my
observation.
Yours truly,
JOHN HOWARD,
Prof. of Music.

Mr. Watson is Agent for the Inhaler, which can be seen at his Drug Store.
