N. Y. STOCKS
NEW YORK (AP) - A lunge ahead to a new peak last week sent the stock market on the way again into uncharted heights. Markets immediately after the Labor Day recess are always carefully watched for signs that might indicate near-term trends. This year the watchers had little time to wait. Prices advanced strongly to push the market up higher than it ever had been before. Volume was at the best levels in two months. The Associated Press average of 60 stocks, yardstick for the market, established four highs in four days, ending the week at \$178.10. The major part of news during the week for the market as a whole was the increase in the discount rate by the federal reserve banks in New York and six other cities to 2 1/2 per cent from two per cent. That put all but the Boston Bank in line with the 2 1/2 rate instituted in Cleveland six weeks ago. The five most active issues on the New York stock exchange were Rhodesian Selection Trust up 1/2 at 84; Phillips Petroleum up 1/4 at 73 1/2; Republic Steel up 1/4 at 52 1/2; American Telephone up 1/4 at 177 1/2; and U. S. Steel up 1/4 at 59 1/2. Several Canadian issues posted substantial gains on the week. International Nickel shot up 7/8 at 84 1/2; Canadian Pacific was advanced 3/4 to 16 1/2; Dome Mines added 1/4 at 79 and Distillers Seagram was ahead a like amount at 43 1/2. McIntyre was off 2 1/2, closing at 83 1/2. Royalite Oil was up 1/4 at 16 on the American stock exchange while Lake Shore dropped 3/4 to 5 1/2 and Giant Yellowknife eased 1/4 to 6 1/2.

Will Decide On Potato Tariff After End Of Sept.
OTTAWA (CP) - The government will decide some time after the end of this month whether Canadian potato growers should be given more tariff protection. By that time it is expected to have a lengthy report on Canada's potato industry gathered during the last couple of months by the tariff board at the request of Finance Minister Harris. Potato growers have asked for year-round tariff protection from United States imports, but there is some feeling among them that even an extension of the present six-week period when imported potatoes are subjected to a duty would be welcome. The tariff board has not been asked to make any recommendations concerning the situation. But its report will contain extensive argument by growers' representatives, particularly the Canadian Horticultural Council, in favor of extending the six-week tariff to the full year. The duty now is 37 1/2 cents for each 100 pounds imported between June 15 and the end of July. Potatoes enter duty-free the rest of the year.

U. S. STEEL
CLEVELAND (AP) - Deliveries by steel mills should be larger in the fourth quarter, but will be matched by an increase in consumption, says Steel, the metalworking weekly. Both the steel mills and metal consuming plants will be without the third-quarter interferences of summer vacations and work-slowsing hot weather, the magazine points out. In addition, the automobile industry - steel's biggest single customer - will be in volume production after the 1953 models come out.

PRODUCTION CLIMBING
 Steel ingot production already is climbing with a one point rise to 93.5 per cent of rated capacity last week, the highest since the end of July. Consumers' inventories of steel continue to attract close attention. The National Industrial Conference Board reports inventories were increased about 2.3 million tons during the first six months of this year. It points out, however, that the increase merely built up working inventories to the higher level required by business. The rise is modest compared to the inventory reduction of approximately 15 million tons starting in mid-1953. Steel says.

Cornwall Man
 mental Farm turned the best single furrow with his team of fine Clydesdales. Mr. Gaudet has been a consistent winner in this event over the years. He had the best crown, the best finish and the straightest furrow. In the gang plow event, first place went to Henry Jones, second to George Jenkins and third to Harold Robertson. The best crown was plowed by Henry Jones; best finish by Harold Robertson and the straightest furrow by George Jenkins.

U. S. IMPOSES DUTY
 Canadian exporters, however, are faced with a year-round U. S. tariff of 72 cents a hundredweight, although Canada is allowed to ship in 2,800,000 bushels of seed potatoes and 1,000,000 bushels of table potatoes a year at the reduced rate of 37 1/2 cents a hundred. While Canada ships some potatoes, mostly for seed, to South American countries such as Uruguay and Guatemala, her main market is the U. S. In the 1953-54 crop year Canada imported 2,024,853 bushels of U. S. potatoes for eating purposes and 23,740 for seed while shipping only 848,909 bushels of Canadian table spuds and 1,509,901 of seed to the U. S. Imports from the U. S. for the 1954-55 crop year ending July 31 were more than doubled to 4,045,344 bushels of table potatoes and 35,951 of seed as a light Canadian crop last fall became felt in Canadian stores.

Blue Cross Accepts Actuarial Rate Report
 The Executive Committee of the Maritime Hospital Service Association held a meeting in the Board Room of the Blue Cross Administration Building in Moncton, N.B. recently. Joseph A. MacDougall, M. D., Chairman of the Board, presided. Other members of the Executive Board included: H. D. Roberts, M. D., Vice Chairman, and E. W. Wilson, M. D., of St. John's, Nfld.; Mr. John N. Flood, M.E.I.C., of Saint John, N. B.; Mr. W. Russell Fiske of Moncton, and Mr. J. A. Likely of Charlottetown, P. E. I. Also attending the meeting were Ruth C. Wilson, Executive Director, and Secretary-Treasurer of the Board, Associate Directors Doyle and D. O. Downing and Walter W. B. Dick, Auditor. Current business affairs of the Association were reviewed and the financial statements showed the Blue Cross and Blue Shield Plans to be operating on a sound basis. Although involving an increased cost, estimated at approximately one quarter of a million dollars over 1954, Blue Cross has paid member-hospitalists their regular 1953 scheduled rates, on behalf of Blue Cross subscribers, in keeping with the service principles of Blue Cross. The Executive Committee ratified the action taken by the Canadian Council of Blue Cross Plans

Farm Price Index Drops One-Tenth Point In July
OTTAWA (CP) - The price index of Canadian farm products declined one-tenth of a point in July. The bureau of statistics reported Tuesday that the index, based on 1935-39 prices equalling 100, was 228.2 in July, down from 228.3 in June. Prices were higher for poultry and eggs, lower for potatoes and relatively unchanged for grains,
