THE ROAD.—It is said that heavy loads of lumber have been sent to the mainland, and will be shipped to-day.

THE RAILWAY.—We are pleased to learn that Mr. Swinerton has left Ottawa to arrange about the opening of our railway.

PACIFIC RAILWAY.—The Government has adopted the Pacific Railway policy of their predecessors—with a few slight changes in details.

SECRET PREACHING.—Rev. George Moffat (a blind man) preached on Queen Street yesterday—Subject, "Rise and Fall of Nations or the Five Kingdoms."

CAPE BRETON JOURNALISM.—The "News of the Week," of Port Hastings, has been sold to a Company, and will hereafter be published at Port Hawkesbury.

PACKETS.—Tenders for sailing packets, to trade between Charlottetown and the out-ports of this Island are called for by the Government. See advertisement.

LEON DE NORD.—Public attention is directed to the "North Star Oyster and Refreshment Rooms," just opened on Great George Street.—Messrs. Palmer & McLeod's old stand. See advertisement.

A FIFTY TWENTY SUNDAY.—One steamer and twenty schooners were sunk, and four steamers—the *David* and the *North Star*, the *Georgia* and the *Moskitch*—were badly injured by the recent ice storm on the St. Lawrence.

CREW RESCUED.—The Ship *James D. Smith*, which arrived on Friday last, fell in with and rescued the crew of the German Barge *Kiloberry* from Amsterdam for New York. The rescued crew, thirteen in number, were brought to this city.

PRESENTATION.—The Summerside friends of Rev. J. C. Berrie, last week presented him with a purse of \$100. Mr. Berrie has been prostrated by illness the past three months. We are pleased to hear that his case is improving.

APPROPRIATIONS.—A telegram to the *Profrat*, says Parliament has made the following appropriations for public services in this Island:—

\$4000 for Schooner Packet Service.
\$2500 for Marine Hospital Accommodation.
\$1000 to finish Breakwater.
\$1000 to be divided between Scotia and New London.
\$400 for Inland Fisheries.

ACKNOWLEDGMENT.—We are indebted to the proprietor of the *St. John Telegraph*, Mr. Elder, for the paper on which this issue of the *EXAMINER* is printed. Owing to accidents to our sub-printer last during the winter, our stock fell short somewhat shorter than we anticipated, and the unexpected detention of the *Halifax* at Montreal, compelled us to apply to our obliging contemporary.

THE SISTERS OF THE CONGREGATION DE NOTRE DAME.—The purpose of having a Tea-party in the Concert Hall on the 25th of May, (D. V.) All persons who are generous enough to contribute towards it will please send their contributions to the Concert during the course of next week. The Sisters will profit by the occasion to raffle the gold and silver Watches remaining from their last Bazaar. Persons holding tickets should not fail to attend.—*Health.*

STEAMERS AND PACKETS.—The *Halifax* left Montreal on Saturday, and may be expected here on Wednesday. The *Carroll* left Boston for this port on Saturday. The *Moskitch* (Stevenson, Lord, Major & Mun's Line) left Montreal on Wednesday last, and is expected here this forenoon. The *Columbian* (Montreal and Acadia Line) is expected here on Wednesday. The sailing packet *Sol* will leave Boston on the 30th inst. The *Colman* will leave for Pictou on Wednesday.

EMIGRANTS.—The *SS. Seldonia*, from Scotland, brought out two hundred emigrants bound for New Brunswick. A special despatch from Halifax to the *St. John Telegraph*, says of them:—"They are in perfect health, and are the finest body of immigrants ever seen here. The children are all rosy and intelligent, and speak good Scotch. They will, doubtless, make splendid accession to the population of New Brunswick. Many visited them to-day, and everybody is delighted with them."

MONTEVAL AND ABERNATHY'S LINE.—"Competition is the life of trade," and between Montreal and Gulf ports certainly be lively this summer. The Montreal and Acadia Steamship Company will place three boats on the route, viz., the *Canada*, the *California*, and the *Ontario*. Fenton T. Newbery, Esq., is agent for the Company in this city. Rates of freight will, doubtless, be greatly reduced, and passenger fare cheapened by this accession to the trade.

THE ALBION.—The last number of this pleasant illustrated periodical has been received. It has all the agreeable features which belong to the work as a whole, both artistic and literary. The engravings are as usual, divided between the landscapes, which make a large part of them, and those in what we may call the *genre*. Among the landscapes are gems after pictures from the pencils of Woodard and Moran; a capital sea piece; an old-time light; several others, the cloister cellar, and several others. The letter press is partly descriptive of the engravings, and is all in a style adapted to the general character of the *Albion*.

MR. PHILLIPS.—This much-talked-of singer came at last; and all the world and his wife rushed to hear him. So high was expectation raised, that the building was nearly filled an hour before the singing was to commence. Mr. Phillips began with a hymn, in which he requested the audience to join, followed by a short prayer. He then sang hymns and songs, as follows:—"I will take thy hand, my child, and lead thee home;" "Scatter seeds of kindness;" "The Shipwreck;" a temperance song, and several others, of which the two last named were the most effective. Mr. Phillips has a very fine voice; and the evening would have been all that could be desired if the audience had not, through some misapprehension, gone to hear him with the idea that he was going to sing some choice selections from the oratorios of the old masters.

LOCAL AND OTHER MATTERS.

MILITIA.—The Militia force of the Dominion is to be reduced to 25,000 men.

Eight hundred and sixty-five tons of coal were imported from Pictou last week.

"THE LOOSE FISH."—Mr. Laird is known in Ottawa as "the loose fish."

TO OUR EXPOSITOR.—James H. Cunniskey and A. Monaghan, next week.

NAVIGATION ON THE ST. LAWRENCE.—Steamers from Montreal to Quebec began their regular trips on Monday last.

MESSES. Pope, Walker, Peake Bros. & Co., and Carvell Bros., exported last week to England grain and lumber value for \$42,179.

THE SCHOOL QUESTION.—The debate in our Legislature on the School Question will be continued next week.

HON. PERCEE HAY.—In the market of Belleville, (Ont.), on Saturday, the 9th inst., hay sold at \$45 per ton. Think of that, farmers of Prince Edward Island!

The lumber trade appears to be active. 270 thousand feet of deals, 200 thousand shingles, and a quantity of laths, ship-plank and mast-pieces, arrived here during last week, principally from New Brunswick.

PACIFIC RAILWAY.—British Columbians regret the delay in the construction of the Pacific Railway; but express their satisfaction with the new policy of the Government, and their willingness to wait for a year or two.

The value of Island produce exported within the last week aggregated \$62,211.51. It consisted principally of oats and deals to England; oats and potatoes to Newfoundland; and eggs and potatoes to Halifax and Boston.

CHEERLY TO ANIMALS.—"A Humani-tarian," writing to the *St. John Telegraph* complains that cattle sent by rail to the St. John market are packed in the cars "heads and tails," like sardines in a box. He suggests that cattle cars be fitted up with railing partitions so that each animal shall be kept separate and distinct, "with room enough to prevent chafing at the sides."

A CENSING DET FOR TROTTERS.—W. H. Wilson, a well-known horse-trainer of Cynthiana, has invented a very ingenious bit, to be used on the trotting horse, so neatly arranged that a driver can give his horse liquid nourishment during a heat without changing his position. A rubber tube runs from the bit to the seat of the sulky, where there is attached a rubber bag for water or spirit, from which the lightning otter can drink refreshment on his fiery track without pausing.

WOODWORTH'S EXCLUSION.—The *Pictou Standard* reports that the mass meeting of Mr. Woodworth's constituents in King's County was a grand success. Over eight hundred people were present, and the expression of opinion commendatory of the Government was unanimous. Mr. Woodworth made a splendid speech, and was rapturously cheered. The County of Kings with one voice, renews the indignity offered to it through the person of its representative, and the other Counties of the Province will support it in the assertion of its rights, which have been infringed by a corrupt government, and its slavish followers.

INSOLENENCY.—M. Dorion's new Insolency Bill did not bear the dint of criticism; and so it has been withdrawn. The *Halifax Reporter* remarks:—"This is the second great measure promised in the 'Speech,' and heralded by Government organs as evidence of the Government's wonderful promptitude; the Court of Appeals Bill being the first. Plainly, the measures Mr. Dorion, in search of originality, has undertaken to frame, have not recommended themselves to shrewd old foxes like Blake, and therefore they have saved the Government a repetition of the humiliation of the tariff defeat by a timely insolvency, and judicially suggested advice to withhold this and the other Bill till next session." The result will more than likely be that the Insolency Law will continue much as it is, with perhaps some few changes which experience may have suggested."

POLICE IN NEWFOUNDLAND.—The Legislature of Newfoundland has been prorogued. A St. John's correspondent of the *Montreal Gazette* says that "no announcement has yet been made as to a general election, and it is generally believed Government have come to no determination as yet. Of course they will avoid an election if possible, but unless they can strengthen themselves by obtaining additional support from the ranks of the Opposition, they cannot face a second session, depending on the casting vote of a Speaker to carry their measures." A "Times" Commissioner is at present, investigating the public accounts for the last four years. Judge Robinson has accepted the position of President of this Commission, and two commercial gentlemen of experience—Messrs. Goodfellow and Fox, act along with him. All sorts of rumors are afloat as to the "awful disclosures" the Commission are likely to make in their report, but until that report appears it would be premature to speculate on the subject. Whether we are to have a "Newfoundland Scandal" and revelations of corrupt practices rivaling those of other more advanced communities, time will determine. A searching investigation of this nature, even if nothing wrong is discovered, will be wholesome as a terror to evil-doers in the future."

THE CROPS.—For some time past we have been hearing very bad accounts from many sections of this Province with regard to the prospect of the winter wheat crop. The heavy and late frosts were represented to have almost completely killed it in places where there was no depth of snow to protect it, and appearances give at present strong presumptive evidence of the truth of these statements. In heavy clay lands it is to be feared that a good deal of mischief has been done; but it is well known that every year some gives more apparent cause to the farmer to keep up his reputation for grumbling, while the harvest results, as a rule, quite in advance of his declared expectations. Let us hope that it will be so this season with regard to the fall wheat. It cannot be doubted that there were to be tolerably copious rains, followed by warm and genial weather, the fields would soon put on a wonderfully revived appearance. We are afraid the damage done to grass and clover is more serious, and anything better than light crops are hardly to be looked for. Hay is now very dear everywhere, and there is little likelihood that prices will fall off much, if at all, during the summer. There is the more probability that value will be sustained, as oats are also scarce and dear, having within the last six or seven weeks advanced from 36c. per bushel to 55c.—*Toronto Globe.*

(In view of the above report, it might be well for our farmers to have large wheat fields this year. If the wheat crop of the Upper Provinces fails, flour will certainly dear here next winter.—*Ed. EXAMINER.*)

The Premier Baron of Ireland, Lord Kingsland, died recently. He was born in 1828, and succeeded to the title in 1865, on the death of his brother. A singular privilege enjoyed by the De Courcy, Lord Kingsland, was that of wearing their titles in the presence of the sovereign, which they had been entitled to do since the time of King John, who granted it to De Courcy, the Earl of Ulster.

A printing office has lately been established at Pictou in connection with Poking O'Connell, which has a history of the Taping and Nienfel Rebellion, will shortly be issued, and where also a work on Chemistry by Professor Billings is being printed. The establishment has been visited by Prince Kung, who expressed himself much pleased with the arrangements.

Central America is of all the regions of the earth, that in which the general public are least acquainted with. It is a region of earthquakes, fevers and incessant revolutions, and never-ending faction fights. But there is an announcement now made public which, if true, is worth recording. It is the suggestion, and so gratifying, that we will not risk the spoiling of its significance by any comments.—*Peace reigns throughout Central America!—The Nation.*

The Icelanders are making preparations to celebrate the fitting solemnity of the hundredth anniversary of the colonization of the Island. In strictness, the commemoration should have taken place last year, since it was in 873 that the first settlers, 25 in number, landed on the island. But afterwards still known as Reij-javil, after a fruitless attempt to land on the south coast in 870, Herjald, the unnamed Haflager (descent of hair), had recently made the conquest of Norway, he united its various provinces for the first time under our rule. His severities towards the conquered junks compelled many of them to abandon their country, or either become slaves or seek a home elsewhere. Ingolf and Leif were among the exiles. Another of these colonizers, and a far more celebrated one, was the famous Roif Vanger, founder of the Duchy of Normandy, and ancestor of William the Conqueror.—*The Nation.*

The N. Y. Tribune says:—"We had no April, and it seems possible that we may have no May. Our March this year lasted for three days, and even the snow did not melt, turning and ending us at least with great wrath, like the evil spirit that goeth out of a man. The fair believers in the poets and the calendar, who crowned their pretty heads with spring hats, and who were flattered about the streets since then like heroic comers, who are willing to suffer as a testimony of good times on the way. With eyes sufficed with the galling snow, and delicate noses as blue as the field flowers in their hats, they have defied the March weather in the name of the absent April, and now they are to have their reward. For the time being, the weather is not to be sky and air are full of June, and a Winter is crowded out by Summer without the intervention of Spring. There never was such a season, the forgers eyes got out, and the people were the disagreeable people who keep a record of the weather say that these exceptional years average about 100 to the century."

HILLSBOROUGH SQUARE.—Some inducement should be held out to our City Bands to play on Hillsborough Square in the coming summer evenings. Many citizens would like to promenade on the square and listen to good music on at least one evening of the week. We trust public spirited lovers of music in this city will take the matter in hand. Let a subscription be raised. The Corporation will doubtless head it with a handsome contribution. We hope Mr. Douglas will see that the iron seats are replaced and a new flag-staff erected without delay.
