SUCCESS OF THE CRECHE AT THE WORLD'S FAIR.

The Great Principle That is Represented by This Exhibit and What Certain Philanthropists Hope to Accomplish—Creches for Working People.

The latest object lesson to be studied at the World's Fair is that found in the children's building and more particularly in the creche or nursery, opened for the reception of babies and young children.

Fifty-one babies were left in the creche during the summer season, and the public and the day following fifteen-teen ranging from two months to eight years old were admitted.

Twenty-five cent is the very modest fee required for so many of the children's creche for the care of a child daily and in addition the little one is fed beautifully in the nursery dining-room, morning and evening. Sterilized milk is the diet for babies in arms while the older children are given plain, wholesome food that includes all the staple necessities of life.

There are little plots of ground, as indicated by the black vessels, the flag ship Victoria in the center.

EVERYBODY does, after taking a few boxes of MALTO PEPTONIZED PORTER.

It builds up the run-down system, is strengthening and appetizing, it is readily borne by weak stomachs, regulates the bowels, and is invaluable to those afflicted with Indigestion and Flatulency.

Get the Best. The public are too intelligent to purchase a worthless article a second time on the contrary they want the best. Physicians are virtually unanimous in saying Scott's Emulsion is the best form of Cod Liver Oil.

THE CHILDREN'S FRIEND, Skoda's German Soap and Skoda's Ointment, Should Always Find a Place in the Nursery!

SKODA'S DISCOVERY CO. GENTS—We cannot be too grateful, for the success of this medicine, derived from the use of SKODA'S REMEDIES. When less than 3 months old, his face broke out with a terrible Eczema.

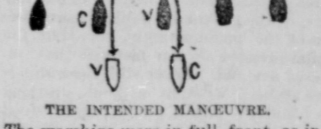

THE VICTORIA DISASTER. Three Diagrams That Tell a Long Story in a Small Space.

There is a naval manoeuvre called the "gridiron" with mass and precision illustrates this manoeuvre.

THE GRIDIRON CHANGE OF FRONT. If six tug boats should arrange themselves in a row with their bows pointing down the Delaware they could execute the "gridiron" with mass and precision, and would all soon be in line pointing up stream; but tugs are very different from great floating fortresses of iron.

Now comes a diagram illustrating the special manoeuvre proposed by Admiral Tryon:

THE INTENDED MANOEUVRE. The warships were in full front, as indicated by the black vessels, the flag ship Victoria in the center.

THE VICTORIA DISASTER. The Victoria had nearly turned when the Camperdown, stern in starting, swung down upon her and crashed into the starboard side forward of the armor bulwark.—Philadelphia Record.

PORTUGUESE CUSTOMS. They Are Curious and Embarrassing to an American.

I should hardly think Portugal a pleasant place for an American to live, in a business sense. The laws of Portugal are rather peculiar and embarrassing to one accustomed to the freedom of an American community.
