For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup" and take no other kind.

Days of Agony

is the experience of thousands of sufferers from piles. Hawker's Pile Cure is a positive and painless cure. Sold everywhere. Price 50 cents. If afflicted, try it.

English and French Compared.

Is the matter of first-class battle-ships England is twice as well equipped as France, both in numbers and tonnage. A glance at the following figures will give an idea in a moment of the size of the respective fleets:

France, class battle ships:	Tonnage, 354,950
England, 35	111,281
France, 16	175,043
Second-class battle ships:	
England, 13	89,000
France, 17 (7 wooden)	111,281
Look-out ships:	
England, 19	35,390
France, 6	7,740
Torpedo gun vessels:	
England, 32	27,110
France, 14	6,210
Coast-defence ships:	
England, 12	47,727
France, 21 (4 wooden)	70,541
Armored cruisers:	
England, 18	137,054
France, 13 (4 wooden)	85,434
Protected cruisers, first class:	
England, 11	85,530
France, 11	29,778
Protected cruisers, second and third class:	
England, 51	179,311
France, 51	38,737
Torpedo boats:	
England, first class	86
England, second class	61
England, wood	12
English total	159
French total	133

In this last troop and store ships are not included, nor are the small river gunboats, the numbers of which give no idea of comparative strength.

The article goes on to show that in the last ten years England has spent on her navy twice as much as France has in the same period.

England's active list in the navy is: Officers, 4,295 men; seamen, 41,500; marine officers, 360; marine soldiers, 12,000. Total active list, 58,158. Royal naval reserve, 55,000 men and 28 ships.

France's active navy list is: Officers, 3,400; seamen, 48,000; marine officers, 970; marine soldiers, 23,700. Total active list, 76,070. Naval reserve, 150,000 men.

Shopping in New York.

The New York Press remarks that when a woman goes shopping, with a parcel in one hand and the other firmly clutching her purse and a bargain counter advertisement cut from the morning's paper, it is useless for the man who accompanies her to try to enforce the rule of the road which teaches him to turn to the right. He may turn to the right if he wants to, but if by turning to the right he throws the parcel between the shopping woman and an attractive window, in which goods are being ostentatiously slaughtered for a terrible sacrifice, he will have to shy to the left again. For she will not be cheated out of a close view of that window for any man; and even if there is a rule of the road for men it ought not to apply to women. Galantha ought to teach a man that. So the man's swearing, internally, dodges to his own left to avoid an awkward collision. In so doing he is lucky if he does not collide with a second woman who is trying to walk northward and go westward at the same time. Walking northward, or rather, thinking you are walking northward while you are looking westward, usually has the effect of making you actually walk northward and westward at the same time. Walking westward, or rather, thinking you are walking westward while you are looking northward, usually has the effect of making you actually walk northward and westward at the same time. It is something of a trial to walk the ways of the shopping woman while she is walking them, but a man is sometimes unglamorous enough to draw consolation from the fact that if the shopping woman tries him, he's got something of a trial to her in turn.

THE GROSSER DYSPEPSIA CURE CO.

GENTLEMEN—I am 71 years of age. Have been afflicted with sick headache most of my life, which developed into Dyspepsia of a mild type about twenty years ago, and has continued to grow worse and during the past seven or eight years I have not been able to take a drink of cold water or milk, as they would produce severe pain and sometimes vomiting. I have been subject to severe pains in the chest, with dizziness, which have been more frequent during the past three or four years. My month was furred up in the morning, accompanied with bad breath. My case was yearly growing worse.

During all this long period I have tried many popular medicines, as well as prescriptions from the regular medical practitioners, but without producing any improvement.

In the fall of '92 I concluded to try a bottle or two of your medicine and such were its effects that I continued it and now I can drink cold water or milk without any inconvenience. These dizzy pains are all gone and my month is as sweet as a baby's. In short, your medicine has cured me and I am sure that all Dyspeptics can be cured by its use.

(Signed) W. H. ROGERS,
Late Inspector of Fisheries for Nova Scotia.
