The word "Facilitators" has been thrown around somewhat lately, now from this group comes word that an office will be opened this week, using an extension of the UPEISU phone service to answer any questions that you can throw at them. It's free, no questions asked, and it could help you out. Hours will be from 1-2pm daily at 892-4727, ask for the facilitators or for the problem center, or anything, but just ask.

Problems that you could be helped with range from class problems (crappy assignments, ect, ad infinitum) to finances, to lonely heart problems, to anything that you want to know or be helped with.

So call anytime, it's run by students, it's free and just might get you out of a spot.

Senior Week activities take place in May and through few realize it, the Junior Class usually foots the bill. This year is no exception and the Junior Class has taken the initiative as no other Junior Class has before--to start before the snow flies.

Masterminds of the Junior Class have put their brains in gear, their shoulders to the wheel and have arrived at the FANTASTIC idea, JUNIOR WEEKEND (OCT.14-17).

The opening event is Academy Award nominee, ANNE OF A THOUSAND DAYS, starring RICHARD BURTON and GENEVIEVE BUJOLD. This will be shown three times, Thursday, Saturday and Sunday nights at 8:00 in Duffy Amphitheatre for the benefit of those who wish to see it three times. Admission is only 75¢ with I.D. courtesy of the Junior Class.

JUGATAR, a great sound out of Halifax makes the scene Friday night in the Gym (9-12). Don't miss the latest gig.

Watch for a SATURDAY night special in the BARN.

The Junior Class is showing themselves worthy of being the first true graduates of U.P.E.I.
