One of the most brilliant society weddings in London for some time took place at St. Margaret's Westminster, when Lady Angela Scott, sister of the Duchess of Gloucester, was married to Lieutenant-Commander Peter Dawson, royal navy. Among the notabilities present were the Duke and Duchess of Gloucester, while the ceremony itself was performed by the Archbishop of Canterbury. Among the hundreds of presents received by the bride were four royal gifts. Pictured above are the Duke and Duchess of Gloucester leaving after the ceremony.

Is any part of your estate invested to yield 12%

until your youngest child is grown up? The Imperial Family Income Policy more than doubles the protection. If protection for a young and growing family is your great need, here is a plan designed for you especially. The Imperial Family Income Policy provides in case of your death for 12% of the face value of the policy to be paid to your family every year until your youngest child is grown up. For example, a \$10,000 policy on this plan would provide \$100 a month (\$1,200 a year) continuously until the youngest child is grown up. The sum of \$10,000 invested safely at 3 1/2% or 4% would not return more than \$350 or \$400. Think what a vast difference the extra would mean to your family. Then, when your youngest child has grown up, this Imperial Family Income Policy would still pay its full face value, \$10,000, to your widow, or other beneficiary. Note the extra service this policy offers—more than twice as much income is guaranteed as the money could earn in these days of low interest rates. Yet the principal sum is left intact. Further—should you live—the policy could provide YOU with an income for your own years of retirement. Send for further particulars today. MAIL THIS COUPON FOR COMPLETE INFORMATION The Imperial Life Assurance Co., Head Office, Toronto, Ont. Please send me particulars of the Imperial Family Income Policy without obligation on my part.
