ders for the construction of the road before the same had been either located or surveyed, tended to confirm those suspicions.

"And *Whereas*, intending contract rs were denied the requisite information to enable them to put in honest tenders for the work.

"And *Whereas*, the ejection of the two lowest tenders, and especially that of Mr O'Brien, in the face of the security offered by him and the acceptance of the tender of one of the Railway Ring, at a much higher figure, has, together with other evidences, proved clearly that the Government of the Colony or; at any rate, some of its leading members, are in league with that Ring.

"And *Whereas*, all experience has shown that jobbery and corruption are the necessary results of such combinations, and that the people are fleeced while schemers are enriched.

"Therefore *Resolved*, That, in the opinions of this meeting, the Government of the Colony are unworthy of support, and that their continuance in office will damage materially the best interest of the Island, and this locality in particular and will enrich the Railway Ring at the expense of the people.

"*Resolved further* That our representatives be instructed to take all constitutional steps in their power at once to overthrow a Government whose members have proved themselves careless of all interest except their own and those of the Ring with whom they are allied.

At the close of the proceedings, Hon. F Kelly said he wished to know if his constituents were for or against him. Those against him would please step to the right, and those for him to the left. Several voices said they has nothing against him. The meeting did not divide, and broke up after a great deal of patience and good humor being for several hours standing "out in the cold."

THE RAILWAY CORRESPONDENCE.

IV.

ALTHOUGH the Government waited from the 9th of August till the 31st for the securities which Mr O Brien should have had ready before he put in a tender yet even then he did not come up to the mark. It is urged by some, that the Government gave him this time to keep up a show of appearances. If they were really not desirous of giving him the Contract, it seems certainly, contradictory to any such assertions that they should offer to take as part of the security, the Halifax Horse Railroad — some eight or nine miles in length counting the double track – for the sum of £60 000 For £60 000 remember which is pro rata a far larger amount than he offered to build the Island Railway for with Fences, Wharves Cars Station Houses and Locomotives! Mr O Brien was not unaware of the assertions of the "suspicious" portion o the press He should have hurried up if he suspected any unfair play and should have handed in the securities which were comparatively easy, long before the elapse of three weeks In all the history of business negotiations on such a large scale we never heard of such unbusiness like tardiness. We have reason to believe however, from reading the correspondence that this "dilly dallying was not owing to any want of business tact on Mr O Brien's part but because he found it difficult to raise means to clear the Bonds or Mortgage upon the Horse Rail Road, and bec use he did not feel warranted perhaps in asking first class names to go security for the £4 000 Although, as a business man he must have known that the Government could not take a mortgaged Horse Railroad and that they would not be justified in taking Moir & Co as bondsmen for the Mortgage, and much less Peake Wood & Son, and Starr & Sons for £40 000; yet on the 29th of August he telegraphs that his securities were ready! Is it any wonder that after this the Government asked him for written guarantees from such names as they named as suitable, and sufficient securities for the £100,0 0

Well on August 31st, the Attorney General said in reply to Mr. O Brien the security you offer is not what we asked, and what you promised to give, and as so much time has elapsed, "the Government are not disposed to grant any further extension of time." The next lowest tender to that of Mr O'Brien was McLeod & Co's £4 200 per mile. They were offered the contract. In the mean time Mr O Brien wrote to the Attorney General, on September 2nd as follows:

"In reference to your communication of the 31st ult, I beg to state that I have now made arrangements to deposit fifty thousand dollars in a Bank at Halifax, to be held as security to your Government until I shall be able to obtain a release of the Bonds and Mortgage existing for that amount against the Halifax ity Railroad.

"Also, that if you will please indicate what amount you consider the personal securities named in my etter of the 3 st ult., satisfactory for, *I am in the position to furnish the balance from residents of this town or the entire if necessary*

"When I offered my sureties on the 29th ult and requested action relative thereto by the Honorable the Colonial Secretary, I could have arranged by last Wednesday as indicated if explanation had been vouchsafed me."

Now, we feel it a duty which we owe truth and the public, to ask Mr O Brien, or any of his ring organs, to tell us the names of the "residents of this town," that would have become his security for the "entire, if necessary" This is a most important point, The letter is dated in Charlottetown, September 2nd. It was received by the Attorney General late on Saturday night. Mr O Brien says in that letter that he was in a position to furnish the names of residents of Charlottetown for the "entire personal security, £40 000 if necessary." The names of two influential merchants were spoken of during the week end ing 2nd sept., as being willing to become his security. We have heard from several persons, that on the morning of the 2nd before Mr. O'Brien could have written his letter, that *one* of the gentlemen above referred to intimated to him that he could not go his security. But we do not wish to accuse Mr. O Brien of any intention to deceive the Government We will assume that he did not pen a wilful and deliberate falsehood, but we can not help saying that he deceived himself.

We now come to the point that seems to have been overlooked in this discussion, by our contemporaries, The Government had before them Mr. O Brien s letter stating that he was in a position to give "residents in this town" as personal security. Though they had commenced to negotiate with other Contractors yet McLeod having declined to accept the contract they said to Mr. O'Brien two days after receipt of his letter and before he left Charlottetown: Very well. Mr. O Brien get us such residents "of this town" as Hon. D. Breman and Owen Connolly Esquire — he very gentlemen whom it was reported about town that he could get. Could he, or did he get them? No! and the fact indubitably proves that the Government in this as in the previous instances showed no desire to "bluff him off." Had they any such desire, how could they have offered to take the "residents" he assured them he was in a position to give This very "strong fact" we will leave all honest men to consider as we think it will justify some of the late friends of the coalition to reject the infamous slander that the men at the head of our public affairs are guilty of a criminal swindle or what is as bad, accomplices thereto in awarding the Contract as they have done.

THE Messrs. PERKINS BROTHERS have commenced business in the handsome new store of Mr. Heard, on Queen Street, They have, as may be seen by advertisement in another column, a large and splendid stock of general Dry Goods, &c., which they will sell as low as possible. The Messrs. Perkins have many friends from their gentlemanly and obliging habits, and we have no doubt but they will meet with very great success in their new enterprise.

PRINCE COUNTY EXHIBITION.

If all the world and its wife were not at the Exhibition on Wednesday, in Summerside, at least a large party of the County were. There were about seven hundred teams in Town, probably the largest number ever before in Town at the same time. In addition to a large number of 'solid men' of the County, there were several of the Legislative Representatives from different parts present We observed Hon'ble J C. Pope, John Yeo, Peter Sinclair, Donald Montgomery; J O. Arsenault and J. A. McDonald, Esquires. The Colonial Treasurer Hon, Joseph Pope, and J. S. Carvell, Esq., were also among the visitors; and the City Press was represented by Mr. Currie of the *Patriot*, and Mr. T. Reilly of the *Herald*.

The Exhibition was held in the Drill Shed, and on the Square adjoining. The tables gave abundant proof that the fair fingers of the ladies of Prince County are no less skilful than their sisters of the other Counties. Cloths of excellent quality, flannels of every variety, and an endless description of shawls, rugs towels, mats, and druggets evinced skill, taste, and industry. Several Fancy articles that received much attention were sent by the ladies of the Convent which is doing a great work for education in this place.

A piece of Berlin work, by Miss O Connor was very generally admired and also some fine drawings by Mrs. Wilson Miss Hackett also exhibited some crayons, which showed that the fine arts are not neglected in Summerside.

There were on exhibition several articles of mechanical skill and taste amongst which we may name a very handsome sleigh, by Mr. Tuplin, and a splendid set of silver mounted harness by Mr Charles Sanders

The cereals, and roots exhibited were remarkably fine, and the Poultry, Geese, Duck and Turkey showed that considerable attention is being paid to the raising of improved breeds.

The live stock on the Square was not so large as one would expect, yet what were shown were very creditable. The hogs of Mr McKinnon and the pigs of Messrs Wright T. Cairns, and John Beers were fully as good as any exhibited in Queen's County. The sheep were fair, though not so good as those in Queen's County Exhibition. There were several very fine horses, those of Messrs Walker R. Coffin, and James Yeo, carried off the prizes. A beautiful mare owned by Mr. W. Tuplin, and another by Mr. H. Lee were very deservedly admired

The proposition made last winter in the EXAMINER in reference to a Stock Farm for this County and King's should be enforced next meeting of the Legislature. The advantages of having a good Stock farm here is so obvious that it is unnecessary to argue a favor of it

Out of the great number of people in town but very few were seemingly under the influence of intoxicating drinks and with the exception of a little quarrelling every thing passed off orderly, and very creditably to Summerside, and Prince County

EAST AND NORTH AMERICAN RAILWAY CELEBRATION.—The celebration of the opening of the East & North American Railway, last week, was not unworthy of the great event. British Provincials can take an honorable pride in the work which has just been completed. New Brunswick finished her part of the line up to time, twelve months ago, through the skill and energy of Mr E. R. Burpee. He has thus greatly increased his own reputation, and by his engineering skill saved the Company which built the Road $2 000,000 less than it was estimated that it would cost. There is now connection by Rail from Shediac to California. Within two years we will have a Railroad to Summerside, and very probably a daily steamer from there to Shediac. The business man and tourist will then be enabled to reach the Island from Boston and other great centres of population, in less than thirty-six hours, and there is no doubt that the amount of travel will greatly increase.

TO CORRESPONDENTS.

A. Currie, letter received — A Railway Man, will publish your letter with answer next week —W. S D., attended to.— "Scrutator," our correspondent is too hard on the "Kent Street Luminary," who is said to be the author of the "fire and brimstone" writings in the *Patriot*. Please excuse us yet a while from "carrying the war into Africa" Our friend is not a bad-natured fellow, although he takes a sly shot at us; he stands more in his own light than that of any one else. From politics and politicians he will only get thistles; by attending to his business he might luxuriate on a higher order of vegetation.— *J. K. R.* received will publish your letter next week.—Mr. L. H. Davies' letter will be attended to next week. In the mean time, if he reads his own letter attentively, he will see that it contains a tacit admission of the inference we drew from his remarks.

THE extract which we give below from the 'New York Journal of Commerce,' will furnish Merchants and others interested in insurance, with a fair idea of the liberality and good standing of the Company named, for which G. W. DeBLOIS, Esquire is General Agent in P. E Island:

"The North British and Mercantile Insurance Company have telegraphed their Agent here to settle all losses promptly and to draw Bills of Exchange at *three* days sight for the amount thus not touching the present American assets (over $1 300 0 0) of the Company on this side. They also subscribe $50 0 for the sufferers at Chicago. The only effect of their losses will be to reduce their surplus from fire remiums."

The "semi infidel *Progress* as Thomas Kelly Esq. describes it has thrown off the mask of decency, and has the assurance to ask us to publish his reply to Mr Kelly, whilst he allows low scurrilous scribblers to attack us anonymously. Let the *Progress* man propose any honorable code for press here, and we will abide thereby We can tell him that his nicknames and low abuse of us are the best recommendations we could have amongst our Irish and Catholic friends towards the West who now know the infidel character of the *Progress* man. All we have to do is to write two lines and the irate philosopher gets as mad as a bear with a sore head. Poor fellow, he does not amount to much.

The *Patriot* denies that Mr. Laird said that he did not consider that it would be any loss to the country in the end that Mr O'Brien did not get the Contract. Will Mr. Laird deny that when asked, the day following the refusal of O Brien's tender, and before it was known that Fraser would decline, if he (Mr. David Laird) was sorry that O Brien did not get the contract, having, in reply, stated that he believed it was no great loss to the country that O'Brien's *tender* was refused, and that he hoped the Frasers would get the contract, whom he had reason to know were very fine men. We wait Mr. Laird's reply to this before giving our "reliable authority." He will find that we take care not to make statements which we cannot back up.

PROFESSOR BECHARD has taken rooms at the residence of Mr McGregor, south side of King's Square. The Professor is well recommended as a most efficient French Teacher He will reside here for at least a year, and will thus afford an opportunity to those who wish to become thoroughly acquainted with the French, Latin or Greek Languages.

S. PETER'S CHURCH. – Wednesday the 1st November, All Saint's Day, the services at S. Peter's Church will be at the hours of 7.30 a. m. (choral); 10.30 a. m.; 11 a. m.; 7 30 p. m. (choral evensong with sermon). After evensong, a solemn *Te Deum* will be sung.

There is to be a public meeting at the Old Saw Mill Bridge, on Wednesday next, at which no doubt the wire-pullers have arranged to get themselves invited. Why do not the Laird & Reilly party try a public meeting in Charlottetown? That would show more pluck than "beating about the bush."

We have received a full account of the Meeting of the Grand Division of Sons of Temperance, held in Springfield, on Thursday last. It was an interesting meeting, and we shall publish full account thereof next week.

An old gentleman of 76 wanted to be married to a girl of 17. One day a friend surprised him tenderly embracing his intended. "I don't wonder at your astonishment," said the young lady; you don't generally expect to find old heads on young shoulders."

Mr. Isidore Chaisson has opened a Barber's Shop in connection with his hotel He has engaged a good workman, and will give satisfaction to his customers.

The shipments of tea eastward by railway from San Francisco, during September, were 3 955 360 pounds and coffee 574 571 pounds.

For the Examiner.

MR EDITOR—How could Mr Reilly state that you manufactured the Rollo Bay letter, when dates are given of the paper that stated the Chiniquy Missionaries converted the Rollo Bay French to Chiniquyism. From his remarks, it appears he would wish it to be believed that the fate of their conversion is true He is afraid that David's treasury will be lessened in consequence of their lies being exposed I can tell him we will not bear any more such insults. Since his meetings to the Eastward, he is not pleased with himself nor any body else. He had not time to "manufacture" the report of them for last "Herald." He may as well drop it. "his race is run," to the Eastward. 'Verily the way of the transgressor is hard." He knows now that his doom is sealed at Saint Peter s.

Yours, &c,

Rollo Bay. I. K R
