**Legion Will Participate In Ceremonies**

(C. P. By Guardian's Special Wire) OTTAWA, April 28—Prior to the unveiling of Canada's national memorial on Vimy Ridge on July 26, the Canadian Legion will participate in a number of ceremonies in France. Brig.-General Alex Ross, Dominion President, said here today. Representatives of the Legion will take part in the annual "Bastille Day" celebrations of France on July 14.

Col. W. W. Foster of Vancouver, who is chief of police of that city and first vice-president of the Legion, will head a small party to take part in France's national parade in Paris. General Ross, with a small party, will precede the pilgrims by several days. He expects to reach Boulogne on July 18, where a reception is being arranged for the pilgrims. Next day he will go to Paris and on July 20 deposit a wreath on the tomb of the unknown warrior at the Arc de Triomphe.

Two days later the Legion president will pay the respects of the Canadian veterans to the burgomaster and citizens of Mons, reaching Brussels in the evening. On July 23 the Canadian delegation likely will be received by King Leopold, and on the same day they will proceed to Arras, where a ceremony has been arranged.

On July 25, the day before the unveiling of the memorial on Vimy Ridge, General Ross and his party will go to Valenciennes where he will present to the mayor and municipality of that town the thanks of Canadian veterans for the honor conferred on them in naming l'Avenue de la Tourelle after the late Sgt. Hugh Cairns, of North Saskatchewan. At the same time he will present the city with a plaque from the 65th Canadian Battalion, on which the late Victoria Cross hero was an original member, in honor of the occasion. It is expected that during the pilgrimage the Legion head will also visit Ypres and Poperinghe, so well known to Canadian ex-service men.

**Committees In Session**

(C. P. By Guardian's Special Wire) OTTAWA, April 27—Four of the most important special committees of the House of Commons will be in session tomorrow morning and probably every morning for the remainder of the week. They are the committees on pensions, clearing and franchise acts, broadcasting, and wheat marketing.

Progress has been made by the first named committee, under the chairmanship of Health Minister Power, in hearing evidence from ex-service men's bodies and individuals on pension and returned men's problems generally. Considerable pension legislation is under consideration, designed to strengthen the machinery and speed up action in dealing with claims.

Much interest attaches to the radio broadcasting committee in view of the proposed legislation which would have the effect of substituting a general manager for the present commission control.

Sessions of the radio committee up to date have had to do almost exclusively with investigation of the political program "Mr. Sage" put on in the interests of the Conservative party during the last general election campaign.

Details of the wheat marketing situation with particular reference to the market activities immediately after J. R. Murray of Winnipeg became head of the Canadian Wheat Board early last December, have been occupying the committee on wheat, with former Prime Minister Bennett leading the examination of witnesses. Mr. Murray was under examination when the committee adjourned Friday last.

Election reform has been the subject of the committee on election and franchise acts at previous sessions, with particular attention being paid to proportional representation and the transferable vote. It is not anticipated this committee will recommend legislation at the present session of Parliament in view of the lateness of the season and the fact that no general election is expected for several years.

MONTREAL, April 28—The gross revenues of the all-inclusive Canadian National Railways System for the week ending April 14, 1936, were \$3,203,752 as compared with \$3,150,326 for the corresponding period of 1935, an increase of \$53,426.

**Liners Assist Crippled Freighters**

(A. P. By Guardian's Special Wire) NEW YORK, April 28—Three liners resumed their courses today after crashing through a southwest gale to the aid of two crippled freighters in mid-Atlantic.

The freighters, the Ivanhoe of Norway and the St. Quentin of Great Britain, succeeded in riding out the storm and cancelled their calls for help. Both have steering gear trouble.

The liners Bremen and Washington were ploughing toward the St. Quentin when the British freighter wireless.

"Weather moderating. Sustained considerable deck structure damage. After effecting repairs to steering gear will proceed this afternoon without assistance. Thank you all."

The Polish liner Pilsudski already had drenched the Ivanhoe, but the Norwegian decided to wait for a salvage tug.

A third freighter that experienced trouble in yesterday's gale, the Rushpool, was believed, in the absence of any further word, to have effected repairs.

**Urge Completion Of Quoddy Project**

(A. P. By Guardian's Special Wire) AUGUSTA, Me., April 28—Governor Louis J. Brann set for Wednesday today to "insist" to President Roosevelt that the Passamaquoddy Bay tide harnessing project be completed. He carried the endorsement of 700 Maine citizens.

Brann said he took with him telegrams from 700 Maine residents urging him to "secure continuance" of the Quoddy project.

"I will place them before President Roosevelt," said Brann, "and couple them with my insistence that Quoddy be completed."

Those close to him indicated the Governor intended to remain at the National Capitol until "final action" was taken on Quoddy's future status.

Lack of Congressional approval and Mr. Roosevelt's recent statement that no further funds for Quoddy would be forthcoming without sanction of Congress threatened the doom of the big tidal job.

Army engineers have estimated present funds would carry it along until July 1.

**Minister of Mines Pilot's Estimates In Husky Voice**

HALIFAX, April 28—(C. P.)—Coughing frequently and husky of voice, Hon. Michael Dwyer was still showing the effects of his hard labor with rescue workers at Moose River when he appeared in the Legislature to pilot through estimates of the Mines Department.

"Out of consideration for the Minister," Col. Gordon E. Harrington, leader of the Opposition gave speedy approval to estimates totalling more than \$250,000.

The Minister of Mines, who donned a miner's outfit and went underground to assist in the rescue of Dr. D. E. Robertson and Alfred Scadding last week, had difficulty in answering questions the Opposition leader asked him in the brief time the estimates were before the committee of the whole House.

Only one item, \$100,000 for the Inverness Mine deficit, was left standing when the committee rose for the day.

Col. Harrington remarked that such a short debate on the Mines Budget was unprecedented.

**CORNWALL—YORK POINT W. I.**

The April meeting of the Cornwall-York Point W. I. at the home of Mrs. Gifford Bain, was a very interesting one, in spite of the small attendance. Mrs. Waldo Bain presided and the members answered roll call with a labor-saving suggestion. The reports of committees were received and the various bills were ordered to be paid. Correspondence consisted of letters of appreciation for gifts dispensed during the month. A grant of five

Lunch was served by the Cornwall Ladies and the evening ended with a sing-song. The May meeting will be at the home of Mrs. L. H. Drake. The subject for study will be Agriculture. Mrs. Walter Shaw, Convener, and members are to describe an Island bird in answer to roll call.

by this deal. There was no announcement of the sale price and it could not be learned immediately.

**Bright Outlook For Empire Tobacco**

Of the tobaccos imported into Great Britain for pipe use, 80 per cent is from Empire sources. Nyasaland supplies the largest quantity, followed by Southern Rhodesia, British India, Canada, Northern Rhodesia and a considerable smaller quantity from Borneo, Cyprus and South Africa. Canada and British North Borneo are the principal sources of supply for cigar tobacco. With the rapid improvement in the quality of Empire tobaccos, especially bright flue-cured and particularly in the case of Canada, there is an increase in the use of such for cigarettes, according to the Industrial Department of the Canadian National Railways.

The cigarette trade is a large one as is evidenced by the fact that of the 160 million pounds of tobacco used in Great Britain each year, from 125 to 130 million pounds is accounted for by the cigarette trade. The outlook for Empire tobacco is most optimistic. The United States, however, is still the chief source of supply for tobacco to Great Britain.

FAITHFUL WIVES GUARD PREMIERS

(By The Canadian Press) LONDON, April 28—Mrs. Stanley Baldwin has maintained something of a tradition for the wives of Prime Ministers in her announcement that these great men are "helpless" and that the best work a woman can do is to look after them and "see that they are able to do their work."

Of the "helplessness" there are various anecdotes. Among the less hackneyed is Lady Salisbury's comment on her husband after receiving from him an account of the activities of a small boy who had been left for a short time in his care at Hatfield. "Having tried all the weapons in the gun cupboard in succession—and having failed to blow his fingers off, he has been driven to reading Sydney Smith's Essays and studying Hogarth's pictures." "He may be able to govern the country," was Lady Salisbury's comment, "but he is quite unfit to be left in charge of his children." And all the domestic management of Hatfield fell upon her.

Of Mrs. Gladstone in charge of a "helpless" husband there is a pretty picture in E. T. Cook's "Diary." Cook was visiting Rosebery at Durand's. "Dinner at eight. Mr. and Mrs. Gladstone then first appearing. Mrs. Gladstone hurrying after him with shawls and comforters. 'Oh, he's very naughty. He would go out to dinner at Ferdinand de Rothschild's, and we had already put off a lunch next day at Sir J. Paget's to meet Virchow and ever so many doctors.'"

Disraeli, of course, was looked after most carefully by his wife, and her own account of his "helplessness" when it came to pulling the cord of the shower bath is pretty well-known.

**GUIDES CALLED FOR MAY 22-25**

(By The Canadian Press) EDMONTON, April 28—Paired with an extended program of reports and discussions for furthering the work and objects of the Girl Guides, the 25th annual meeting of the Association's Canadian Council will be held here May 22-25. Premier William Abernethy and Mayor Joseph Clarke, on behalf of the province of Alberta and the provincial capital, will welcome the Commissioners and Guides coming from all parts of the Dominion. Mrs. E. C. Pardoe and the Alberta Guides Council are hostesses for the conference. The Chief Commissioner, Mrs. H. D. Warren, C.B.E., is to reply to the official greetings. Development plans will be presented to the delegates by Lady Falconer. Such subjects as camping, handicrafts, dramatics, keeping fit, practical psychology and singing are set for debate. An Empire Day service in Convocation Hall, University of Alberta, on Sunday, May 24, is one of the features of the program. The official call of the Chief Commissioner notes that the Guide uniform is the correct dress for Commissioners and Guides for all occasions of the conference.
