

Deadline In Laos Is Due On Sunday

By DAVE MCINTOSH
OTTAWA (CP)—The cold war deadline arrives Sunday, Oct. 7.

On that date, all foreign troops are supposed to be out of Laos, theoretically isolated from the cold war by the Geneva agreement reached in July. If they aren't, Laos may be a worse headache for Canada than it has been since 1954.

Canada, India and Poland form the international truce supervisory commission established in 1954 to oversee the armistice which ended eight years of civil war in French Indochina. Similar commissions operate in Viet Nam and Cambodia.

Some 35 Canadians, about three-quarters of them soldiers and the remainder from the external affairs department, now are serving in Laos.

Officials said Wednesday they hope all countries involved will comply with the Sunday deadline for withdrawal of all foreign military forces.

ARE OPTIMISTIC
They added that withdrawals have been taking place and that so far there is no firm reason to believe the Geneva agreement of last summer won't be observed.

However, it has been noted here that the United States and Russia have been skirmishing diplomatically to make sure, apparently, that one doesn't withdraw.

6 Cuban Refugees Land In Montreal

MONTREAL (CP)—Six Cuban refugees got temporary landing privileges in Montreal Wednesday, while the immigration department pondered what to do about them.

The six, whose names were not disclosed, were found afloat on the Atlantic last week in a small boat.

The British freighter Sanderson picked them up 80 miles east of the Florida coast Thursday.

They asked for transportation to the United States but the ship was coming to Montreal and they came with it.

The Cubans are reported to have described themselves as refugees from Premier Fidel Castro's army.

When the Sanderson arrived here Sunday they were placed under protective custody by the immigration department. Now they have been given temporary landing privileges, they are staying with friends in the city but remain under the department's jurisdiction until their destination is settled, a spokesman said.

CMA President Warns Against Planned Economy

HALIFAX (CP)—Carl A. Pollock of Kitchener, Ont., president of the Canadian Manufacturers Association, said Wednesday the recently announced Atlantic Development Board should steer clear of planned economy.

The board was announced in the speech from the throne at Thursday's opening of Parliament.

Mr. Pollock said during a press conference the board's function should only be "to analyze the situation in the Atlantic Provinces."

He said although the CMA supported the idea of the development board, it should stay away from any attempt to regulate the area's business. This would be the result of a planned economy.

The throne speech said the board would promote the economic development of the Atlantic region.

Mr. Pollock also urged the federal government to change structure of corporate and personal income taxes because the existing structure worked against the proper growth of the nation's economy. To help the economy, he urged Canadians to curb imports.

He said Britain's entry into the European Common Market would prove "beneficial for Canadian manufacturers in the long run."

Mr. Pollock has visited Nova Scotia, Newfoundland and New Brunswick on a tour of the Atlantic Provinces. He leaves for Prince Edward Island today.

Conference Held On Nfld. Trains

ST. JOHN'S, Nfld. (CP)—Premier Smallwood met with Howard Grayson of Moncton, Atlantic vice-president of the Canadian National Railway Wednesday to talk over a proposed reduction in CNR service across Newfoundland.

There was no statement from either party on the discussions concerning plans to reduce to three the six passenger trains a week across the province.

Mr. Smallwood asked for a meeting with CNR president Donald Gordon after receiving complaints from 11 railway unions who said it would be against the best interests of the province. Mr. Grayson came in place of the president.

DENSE POPULATION
The Indian state of Uttar Pradesh, less than half the size of Alberta, has a population of 65,000,000.

The Geneva agreement provided that the Laotian government name withdrawal points for foreign military and paramilitary forces.

This was done some weeks ago and international truce commission teams have been stationed at the exit points to check the withdrawals.

After Sunday, the commission will have to consider how effective the withdrawal has been and report to Britain and Russia, co-chairmen of the Laos conference.

Pollution Control Federation Meets Next Week In Toronto

By GREG MACDONALD
Canadian Press Staff Writer
The meeting has been held in Canada. Last year's meeting was in Milwaukee. Host to the convention is the Canadian Institute of Pollution Control.

More than 250 delegates from Canada, the United States and other countries are expected in Toronto next week for the 31st annual meeting of the Pollution Control Federation. It is the first time in 15 years

to be covered include municipal industrial wastewater treatment, safety and operations of collection treatment systems, research, management, financing and public relations.

Sessions expected to draw most attention are discussion Tuesday on U.S. and Canadian practices of disposal of radioactive wastes and Wednesday on the removal of strontium-90 in water and wastewater by x-ray emulsion.

More than 70 papers will be presented in 17 technical sessions at the five-day meeting which begins Monday. Subjects

Association says it now is releasing certifications to manufacturers of motor vehicle safety belts, "which have been found to comply to CSA standards."

The certified belts will be identified by red and white labels issued by the CSA.

Cities Service Oil Co. Ltd. says it plans another expansion to its Tragalgar, Ont., refinery. The company says it will increase its refining capacity by 39 per cent to 27,000 barrels of

western Canada crude on a day. In 1961 the company spent \$3,000,000 on expansion at the refinery which was built in 1959 at a cost of \$27,000,000.

Canadians purchased a total of \$265,900,000 of new life insurance during August, says the Canadian Life Insurance Officers Association.

Total for the first eight months of the year is \$4,611,000,000 compared with \$4,684,800,000 in the corresponding period last year.

VANISHING BREED
SEXSMITH, Alta. (CP)—Nels Johnson, 72, 34111, "hunks around" in his blacksmith shop here, although he says it has been "about 15 years since I touched my last horse." He finds that blacksmiths are becoming as rare as whooping cranes, but he still hasn't taken down his advertising signs, one of which reads: "Victims horses charged for on extra-time basis."
