C. C. CARLTON, JR., Sec'y-Treas

THE DAILY EXAMINER

AUGUST 30, 1899.

VOTE THEM DOWN.

It seems incredible that even a Liberal supervisor should put public work in the way of members of his own family to the exclusion of others who might be competitors. Yet the fact being avouched by an independent and credible member of the electorate, we are bound to believe it. In these "Liberal" days, nepotism is practised and excused upon the same grounds as other forms of selfishness in the conduct of politicians and officials. The rule is: "the country for the officeholder"—not "the official for the service of the country." This rule is followed in the Federal service as in the service of the Province; and the principle upon which it is based is at the bottom of the universal corruption. The Liberal politicians promote their own selfish ends, and the officeholders followed suit. There is but one remedy, and that is the one prescribed by Dr. Duncan Marshall: "vote them down, at the first opportunity;" and if the succeeding party should do likewise, "vote them down" also at the first opportunity. That is the way to teach selfish politicians and officeholders that this country demands of them a true and laudable service.

COMMON SENSE IN EXERCISE.

WHILE there has been a universal awakening to the need of exercise for perfecting the health of both men and women, there has not been a corresponding development of common sense in regard to it. Exercise is taken irregularly, periods of great exertion being succeeded by periods of indolence. The "training" carried on in the colleges results often in greater injury than benefit. More work is put upon the muscles than they can safely endure. The heart is overtaxed and at some critical period gives out. The rank and file of those who devote themselves to exercise do so without system; and, breaking down from over-strain or exhaustion, blame exercise and give it up. The cardinal point to be observed in taking exercise is to begin gradually, stopping short of great fatigue and not increasing the amount until the requisite endurance comes with it. This is especially applicable to walking, skating or the bicycle. Avoid unusual strain and effort. The muscles can be educated to do almost anything; but time and practice must be devoted to the achievement. It is best to walk up the hills in bicycle riding until the strength to ride up without effort has been acquired; otherwise the rider becomes breathless, the heart is strained and its action becomes irregular, the muscles are fatigued and lamed.

Next to graduating the amount of exercise to suit the ability of the individual, comes the persistence and regularity with which it should be taken. A little exercise taken daily, its amount and severity being increased as the person can endure it, will result in the perfection of the person's possible muscular development. The selection of the kinds of exercise should also be made a matter of study. Exercise should be of such a character as to bring into play the muscles which are not used in one's daily avocation. The man who sits at his desk all day should take the exercise that will bring into play the muscles of the lower extremities. He should walk, skate or use the bicycle, rather than row or drive.

BRITISH TAKING CUBA

Picking up About All the Good Investments.

New York, Aug. 27.—A special cable despatch to the Sun from Havana says: The Pinar del Rio correspondent of the Discussion writes that Frederico Kokley, a promoter, has purchased 30 square miles of land in that province, containing valuable iron mines. Kokley is said to represent an English syndicate. He is well known here. The report draws additional attention to the fact that English money is coming into Cuba in larger quantities than American money. This fact has been widely commented upon in the press and in business circles. It is common talk that the British have picked up all the good things, while Americans are wondering what the political future of the island is to be.

Lord Chief Justice Russell, of Killowen, who has been in Paris with the Venezuelan Commission, studied impartially all the phases of the Dreyfus case. He said to a friend in London:—"The evidence adduced is not sufficient even for a magistrate to send the prisoner before a jury."

THE CARTWRIGHT CAMPAIGN.

(Montreal Gazette.)

Sir Richard Cartwright has begun the campaign for the Laurier Government. It is to be a campaign of excuses—excuses for failure to live up to solemn promises made to the electors to give an economical administration, to curtail the debt, to avoid scandals. Sir Richard has imagined, or says he has imagined, that the Conservatives, had they been in power during the past three years, would have increased the expenditure. He, who in the spring of 1896, condemned a Government for spending \$38,000,000 a year, sets up this imagining of his mind as an excuse for his Government spending \$50,000,000. And so through the list. The evil inclinations of the Conservatives are excuses for the Liberals' misdoing. This strain runs through all his speech. To accept it as a defence of what the Laurier Government has done would be to put the Laurier ministers down as political children, who, previous to coming in to power in 1891, did not know anything of the conditions of the country they aspired to govern. The spirit of Sir Richard Cartwright's Toronto speech will increase the confidence felt by the Conservatives that when the election comes it will relegate the Liberals back to opposition. It would be a curious state of affairs if a Government should be endorsed on a plea that its members, condemned through their own mouths and their own acts, were no worse than somebody else might have been.

NOT FROM SO MANY

Dawson City Glutted With Physicians and Lawyers.

OTTAWA, Aug 27.—Mr. Archie Martin, of Almyer, Que., who went out to the Klondike over a year ago, returned home recently. Speaking of Dawson City Mr. Martin said that there were far too many people there. The legal fraternity are coming in by the score, and soon they will have to get out or else take a pick and shovel. There are a large number of doctors in Dawson. In fact, there are as many doctors as patients, with the result that a number of them have been compelled to seek work with a pick and shovel to keep from starving. It is no uncommon sight to see half a dozen doctors working among the laboring men on the construction of roads. A few months ago these fellows came to Dawson, said Mr. Martin, all dressed to kill. They put out their shingles and started to practice. The practice did not materialize and as their money ran out they had to accept the only other way of living; that was—by hard work.

When any part of the body isn't doing the work nature intended it to do, it puts the whole system out of tune—out of harmony. Sickness in one part of the body is likely to run into all parts of the body. When children stand a row of bricks on end, they knock the whole row down by upsetting one brick. That is exactly what happens to the health when the bowels fail to perform their proper functions. Constipation makes trouble all along the line—puts the liver out of order, is bad for the kidneys—bad for the stomach. I holds in the body poisons matter, and because it cannot go any place else, it gets into the blood. The blood carries it all over the system. That makes sluggishness, lassitude, bad breath and foul taste in the mouth, fill the stomach with gas and causes windy belching, stops digestion in the stomach, causes sour stomach, heartburn and headache. You can avoid all such trouble, for Dr. Pierce's Pleasant Pellets cure constipation and its attendant evils.

ATBARA BRIDGE

Armenian Builders Are Highly Praised by Lord Kitchener.

CAIRO, Aug 27.—In the course of his speech yesterday at the opening of Atbara bridge which was constructed by a Philadelphia firm, after competition with British firms for the contract, Lord Kitchener of Khartoum said: "The construction of this magnificent bridge, I think, may fairly be considered a record achievement. As far as the failure of the efforts to place her construction in England is concerned, I think it demonstrates that the relations between labor and capital there are not sufficient to give confidence to the capitalist and to induce him to take the risk of establishing up-to-date workshops that would enable Great Britain to maintain her position as the first constructing nation in the world. But, as Englishmen failed, I am delighted that our cousins across the Atlantic stepped in. The bridge is due to their energy, ability and power to turn out works of magnum in less time than anybody else. I congratulate the Americans on their success in the erection of a bridge in the heart of Africa. They have shown real grit far from home, in the hottest month of the year and depending upon the labor of foreigners."

MARRIED

At St. Mark's, Lot 7, on the 29th inst. by the Rev. Father Burke, P. P., Bridget Dalton to John Ernest McGregor, both of St. Mark's.

At Palmer Road on the 29th inst., by the Rev. Father Chaisson, P. P., Mary Doyle, of Palmer Road, to Arnold O'Halloran, of St. Mark's.

A PROMINENT VANCOUVERITE.

Permanently Cured of Asthma, Clarke's Kola Compound Cures.

Mr. F. J. Panton, the well-known proprietor of Panton's Music Store, Vancouver, B. C., writes: "I have been a great sufferer from asthma in its worst form for over four years, very often having had to sit up nearly all night. I had consulted physicians both in England and Canada without obtaining any permanent relief and tried many remedies with the same result. A friend who had been cured by Dr. Clarke's Kola Compound advised me to try it. And three bottles have entirely cured me. It is now nearly two years since my recovery, and the asthma has not troubled me since. I feel very grateful to Dr. Clarke for introducing this wonderful remedy, suffering as I was, and do not know of a single case where the required number of bottles have been taken that it has failed to cure. See that you get Clarke's Free sample bottle sent to any person. Mention this paper. Address The Griffiths & Macpherson Co., 121 Church street, Toronto, or Vancouver, B. C., sole Canadian agents."

CHARLOTTETOWN Business College AND Writing Academy Will re-open for the Fall and Winter Term ON AUGUST 29th.

"Let the Searchlight of Practical Illumination the Dark Places of Theory" A THOROUGHLY Progressive, Practical Institution, in which young men and women are not only taught Book-keeping (with all its applications to Commerce) both by single and double entry, but are trained how to do business by actual business transactions. The students act as buyers, sellers, traders, bankers, book-keepers and accountants in actual business operations, and the currency issued by the College Bank, and the merchandise from the Emporium are used in bona-fide business transactions. Just the same as in mercantile and banking houses. Book-keeping in itself may be learned at home, but a knowledge of how to transact business cannot be thus acquired. That our course and system of training is eminently practical write for testimonials from business men and from students who are now holding lucrative and responsible positions.

SUBJECTS:

Book-keeping by single and double entry (theoretical and practical) Actual Business Practice, Business Penmanship, Business Correspondence, Commercial Arithmetic, Commercial Law, Railroading, Steamboating, Banking (actual practice in the College Bank), Typewriting, Shorthand, and Navigation.

FACULTY:

J. E. Miller, Principal, Teacher of Book-keeping, Arithmetic, Business Practice, Business Correspondence, Typewriting and Navigation. A. C. McMillan, Vice Principal, Teacher of Railroading, Steamboating, Banking, Accounting and Actual Business Practice. J. Harry Williams, teacher of Business Penmanship. Wm. Moran [license] Teacher of Shorthand. George S. Egan, Esq., [Law Firm McDonald & Inman] Lecturer on Commercial Law. For circulars or full information write or apply to L. B. MILLER, Principal

All interested are cordially invited to call on the College and inspect our system of training and work in general.

Prince Edward Island Railway
