MAKE YOUR SUMMER DRIVING SAFE

Get set now for happy vacationing and safe driving all summer.
One of the big factors in accident prevention so far as the motorist is concerned is to have a trouble free car.

A good 10-point safety check includes: BRAKES, to be sure your car can stop in 25 feet at 20 miles per hour. HEADLIGHTS, check for maximum light and minimum glare. LIGHTS, bulbs and controls of rear and stop lights and directional signals. TIRES, checked for uneven wear, cuts or breaks. STEERING AND WHEEL ALIGNMENT. EXHAUST SYSTEM, WINDSHIELD WIPERS, GLASS, HORN, and REAR-VIEW MIRROR.

All government and civic bodies are interested in safety on our highways, and our Junior Board of Trade has taken a leading role, year-in and year-out, in promoting a safety campaign.

MAKE SAFE DRIVING A HABIT

REMEMBER

- Keep within speed limits and keep a safe distance behind the car ahead.
- Drive carefully; keep your eyes on the road.
- Use the standard hand signal to indicate your intentions.
- Avoid trying to pass unless road is clear ahead.
- Do not drive when you have been drinking.
- Park if you are sleepy or fatigued.
- Reduce speed and dim your lights when meeting other cars at night.
- Have your brakes, lights, steering and tires checked regularly.
- Come to a complete stop at stop signs or stop lights.
- Allow for the fact that the other fellow may be careless. Drive "defensively".
- When in doubt, don't gamble . . . wait.
- Avoid cutting curves . . . stay within your white lines.
- Watch out for pedestrians . . . adults and children alike.
- Avoid stopping abruptly . . . there may be cars behind you.
- Be prepared to make good by insurance or otherwise, any damage you may do on the highway.
