

ADDITION OF 14 NEW LANES WILL EASE JAM FOR BOWLING TIME IN CHARLOTTETOWN

14 lanes for bowling ready

Chic and ultra-modern are two words that might describe the 14 lane bowling alleys occupying part of the air conditioned basement floor of the new St. Dunstan's Basilica Recreation Centre.

SENATOR ILL

SAN FRANCISCO (AP)—Two California newspapers said Friday that Senator Clair Engle (Dem. Calif.), 51, is suffering from a brain tumor that has left him partially paralyzed and unable to talk. The Los Angeles Times said doctors "are fighting to save his life," and that the tumor is inoperable. The San Francisco Chronicle quoted "authoritative sources" as saying that the senator's condition is regarded as grave.

Wedgewood blue and beige are the main colors for both the decor and furnishings. Drapes and wood paneling adorn the walls. Automatic pinsetters are featured as in all of the most modern alleys.

Mothers without babysitters will be delighted to learn that they can take the kids with them when they want an afternoon's bowling. A nursery with tiny tables and chairs and adjoining washrooms has been provided for small children. This section also contains the bowling office and control room. The latter features a control board that enables the management to keep a check on anyone attempting to "crib". Here also is located the sound system that pipes music to all parts of the building. It adapts to hi-fi, microphone or tape.

SHOES FOR RENT

Bowling shoes from size three to size ten are available for rent. They are sanitized daily. A carpeted lobby adjoins the alleys, and an scrobye screen wall separates the lobby from the restaurant which is mainly for the convenience of patrons. It features lunches and businessmen's luncheons. With the exception of counter stools, furniture for the restaurant has not arrived as yet. It will include 11 tables and three booths.

Officials also hope to set up league bowling from 5 p.m. to 7 p.m. In all, 168 teams are using the facilities during the evening hours. This number does not include school and college bowling, businessmen's bowling at dinner, or the women's afternoon leagues.

CONGRATULATIONS

to the
St. Dunstan's Basilica Parish
ON THE OPENING OF THEIR NEW
RECREATION CENTRE
We were pleased to supply and install the glass in this modern building.

Disease-Free Seed Potatoes Is Quebec Aim

MONT TREMBLANT, Que. (CP)—The Quebec government has set up a station in the remote Manicouagan district to produce disease-free potato seed for Quebec farmers. The station covers a 1,200-acre tract relatively free of germs and insects that are harmful to potato crops. It's some 330 miles northeast of Quebec City.

Dr. Bernard Forest, chief of information and research services for the Quebec agriculture department, told of the work under way there in a paper delivered Tuesday to the Canadian Agricultural Chemicals Association, holding its annual meeting in this Laurentian community north of Montreal. Dr. Forest said the station operates under strict sanitary precautions. "Only authorized persons are admitted. Visitors are not allowed to wander about the grounds. Disinfection basins for vehicles are located at the entrance."
