MASONRY.—The brethren of Victoria Lodge, No. 2, A. F. & A. M., will please remember the regular meeting this evening, at 8 o'clock. Visiting brethren also welcome.

FOREIGNERS ATTENDED.—Special meeting of Court Auxiliaries will be held to-morrow (Tuesday) evening at 8 o'clock for the inaction of candidates and reception of applications. By order of the C. R.

FEDERAL YESTERDAY.—The body of the late Peter McNaughton was interred at 10 55 yesterday. The funeral was largely attended. The members of Division No. 1, A. O. H. were present in a body.

SHOULDER INJURED.—The Pioneer reports that Mr. Thomas McLeod, of North Sydney, had the misfortune to put his shoulder out of joint on Wednesday last. He was binding a load of straw when the pole broke and he fell to the ground.

HOPES OF RECOVERY.—Mr. Thomas McLeod, of the Gas Works, received a telegram from his daughter in Boston on Saturday evening, stating that she sees her brother Alexander, who had been so severely injured, and there was hopes of his recovery.

Now's Their Chance.—There was a great number of the friends of Ireland who could not attend at the celebration of Ireland's Day at the World's Fair. They have a chance yet to hear a glowing description of it, as Father Gregory is going to lecture on the subject in the A. O. H. Hall, on Wednesday evening, the 7th inst.

SCHOONER DAMAGED.—As the Northumberland was coming up, on Saturday evening she struck a schooner riding at anchor and carried away her flying jibboom and broke several stanchions. The schooner did not have her lights up. Fortunately, the steamer saw her in time to slow up somewhat, otherwise the consequence would have been more serious.

THE ROSS CASE.—The case of Frank Rossin, charged with violating the Medical Act of 1892, began before H. J. Palmer, Superior Magistrate, in the City Court-room this afternoon. Police Constable Bradley is the prosecutor. Eighteen witnesses have been summoned—sixteen of whom are from the country. Stewart Q. C., and D. C. McLeod, are counsel for the prosecution; Peters & Peters and Good for the defendant.

ARE YOU GOING SOUTH?—Islanders meditating a trip South the coming winter should write the agents of the Plant system for full particulars about Florida. The "Land of the Magnolia," as it is sometimes called, is far preferable to the winter resort of America, and is much more easily and cheaply reached than Pacific Slope points. A handsomely illustrated book telling all about it will be sent upon application to the agents of the Plant system.

ADDRESS AND PRESENTATION.—On last Friday evening the members of St. Joseph's Society met in their hall and presented Mrs. J. Doiron with a beautiful address, which was accompanied by a very handsome purse. Miss Annie McKenna read the address, in which she expressed in feeling terms the regret of all the members at her departure from the city; and also the high appreciation in which she, as president of the Society, has always been held, and the unfeigned and unselfish devotedness she has ever manifested towards St. Joseph's. It must be gratifying to Mrs. Doiron to know that her services have been duly appreciated by her associate members, and now that she is about to depart from our midst, she bears the good will and highest esteem of the community.

BISHOP MACDONALD ENTERTAINED.—On Friday evening last the pupils of St. Joseph's Convent entertained His Lordship Bishop Macdonald in anticipation of his pastoral feast. St. Charles Borromeo. The hall was prettily decorated for the occasion. Together with His Lordship the Cathedral clergy occupied seats prepared for them. The music, both vocal and instrumental was excellently rendered, but special mention must be made of the French song which expressed and delighted those present. Another pleasing feature of the entertainment was the presentation of flowers by the junior pupils; seven little girls in her turn presented His Lordship with flowers, explaining at the same time the emblematic significance of each. The address by Miss Sweeney was excellently written and well delivered. At the conclusion His Lordship thanked the pupils for their kind wishes to him, congratulated them on the excellent opportunity they have of acquiring a good education and encouraged them by his kindly words to greater zeal in their studies.

THE RALPH B. PEAKE.

Some Further Particulars Regarding the Damage Sustained by this Vessel. The owners of the bark Ralph B. Peake have received a letter from Captain Rendle giving particulars of the disaster which overtook that craft some time ago, and to which THE EXAMINER has already made reference. From this letter we have been privileged to make the following extract:

"The bark left Liverpool on the 17th Sept. last, and enjoyed a splendid run to within two hundred miles of St. John's, N.B. This she made in thirteen days, as on the 30th September she was that distance from St. John's."

On the latter date the bark was struck by a tremendous hurricane, which carried away her two lower topsails, upper main-top-sail, and three lower staysails, breaking the lower main-top-sail yard and main yard, also springing the foreyard and lower fore-top-sail yard.

The sea struck the bark on the star-board side, breaking 22 stanchions, starting covering board, smashing two boats, besides doing considerable other damage to the deck. The waves also broke the wind mill pump.

Capt Rendle then put the vessel before the wind and arrived at St. Michael's, in the Azores, on the 15th October.

WATERPROOF FOLK. I looked from my window, And, dancing together, I spied three queer people, Who love the wet weather.

The turtle, the frog, and the duck all joined hands To caper so gaily upon the wet sands.

The turtle was coated In shell, to defy The patterning rain-drops, And keep him quite dry.

The frog in green jacket was gay as could be, "My coat will shed water—just see it!" said he.

The duck shook his web feet And ruffled his feathers; Cried he: "Rain won't hurt me! I'm dressed for all weathers.

And when I can see the clouds frown in the sky, I'll my gay feathers and keep very dry!" —St. Nicholas.

We know more than "three queer people" that a shower of BILLS don't move any. Our accounts for the third quarter of 1894 are rendered, and our book-keeper is making out a list of Bill Proof People.
