

LOCAL AND OTHER MATTERS.

FINN—The school-house at Narrows Creek was destroyed by fire on the night of Wednesday, the 24th February.

GRAIN SHOW.—The Queen's County Annual Grain Show will be held at the Market Hall on Friday next, the 12th inst.

PERSONAL.—John Knight, Esq., of Souris, is much better than when reported last week; but his recovery is still considered doubtful.

DEATH OF ANOTHER CARACUET RIVER.—The Chatham Herald says it is reported that the Frenchman, Lataigne, who was wounded by the constables in the affray in Albert's house, in Caracuet, has died.

PROHIBITION.—A petition in favor of prohibition, from London, Ont., signed by 5,100 persons, was presented in the Commons last week. The list measures 92 feet in length. The prohibition petitions average about a dozen daily.

BRANCH OF PROMISE.—Mr. Henry O'Leary, member for New Brunswick Assembly for Kent county, is being sued by Miss Mary Cunningham for breach of promise. The amount claimed by the plaintiff is \$5,000. The case will be tried next month.—Herald.

We very much regret to hear that the Hon. Daniel Davies is seriously ill at Bangor, Me. He injured his leg while crossing the straits, on his way to Ottawa, and he became so ill in consequence that he was obliged to remain in Bangor, being unable to proceed further.—Patriot.

We call the attention of our readers to the advertisement in another column of the Hope Manufacturing Co., of New York they advertise what is the most wonderful invention of the age, a first class Sewing Machine, with Table and Treadle complete for Ten Dollars. Read their advertisement headed "Wonderful."

New BRIDGE.—Petitions to the Local Legislature for a bridge across Grand River, at Poplar Point, are being signed throughout King's County. Public opinion, generally, is in favor of the work. It is believed that the bridge will greatly convenience a large section of the county, and insure the interest of few, if any.

DIPHTHERIA IN FREDRICKTON.—This fatal disease is quite prevalent in Fredericton at the present time, and is causing considerable anxiety. A little son of His Honor Lieutenant Governor Tilly is suffering from this disease, but it is hoped that the case is not dangerous. A little child of Mr. Wm. Lemont was considered yesterday as being in a very critical condition with this disease, in fact its life was despaired of, and many other children of the city are also said to be suffering.—St. John News.

J. H. FLETCHER, Esq., Editor of the Island Argus, delivered a lecture in the County Court House in this town, on the evening of Wednesday, the 24th ult. Although several other meetings happened to be appointed for that evening the Court House was crowded on the occasion. Mr. Fletcher's lecture was highly appreciated, as indeed it well deserved to be, for it was replete with good advice and sound information—conveyed in a pleasing style. The "True Order of Nobility" was the theme, and it was treated in an interesting and instructive manner by the lecturer.—S. Journal.

SAD EVENT.—As our readers are aware, the trial of John Dugas, at Digby, for the murder of Capt. Robichau, of Weymouth, was postponed from the special term held last week until April next, in consequence of the illness of Mrs. Robichau, widow of the murdered man. A despatch received by Mr. John Herbin, conveys the sad intelligence that Mrs. Robichau, who, a few days ago, gave birth to a child, died at Weymouth on Saturday morning. The deceased woman was an eye witness, it is said of the stabbing of her husband by Dugas, and hers would have been the principal evidence against the prisoner.—Egmont.

COAL MINE.—There has recently been discovered by W. Brigham and Alexander Henderson, 'the well known miner' a very valuable coal mine on Mr. John McDonald's property, Hunter's Mountain, Victoria County, Cape Breton. Eight feet of the depth of the seam is visible, and it can be worked without sinking a shaft. It lies within a distance of six miles, in a north-westerly direction from the town of Baddeck. The coal can easily be brought to the place of shipment, by constructing a railroad, which can be done with very little cost, as it is only a mile, and all on an inclined plane, from there to the Bras d'Or Lake.—Herald.

FATAL ACCIDENT.—On Wednesday, the 17th ult., three young men, named James Turner, Andrew Litch and Laurence Litch, were on the Bay Shore for the purpose of shooting ducks, and while endeavoring to get within gun shot of the birds Turner, being some three rods in advance of Litch, the latter stepped on some ice which caused the gun to discharge, the contents lodging in the back and shoulder of Turner and causing death in about thirty minutes. An inquest was held before Samuel McCormack, Esq., coroner, and a verdict was returned by the jury that the deceased came to his death by the accidental discharge of Litch's gun, and exonerating Litch from censure or carelessness, as they believed it was purely accidental.—Annapolis Farmer.

RIOT AT BARRETT.—On Tuesday last the quiet village of Baddeck was the scene of considerable excitement and confusion. It appears a certain publican, named Marshall, had been sued for selling liquor without license, and on Tuesday, when he appeared in the Court House for trial, he was followed by a large crowd of the gay and whiskey-loving sons of Bacchus, armed with sticks, knives, bludgeons and iron pokers, and clamoring for temperance blood. When the justices had taken their seats, and the first witness had been placed on the stand, one of the mob, named Watson, went forward to force the witness from the stand, which apparently was the signal for the attack, for then commenced the struggle—the rebellious against the law-abiding. Fists, sticks, knives, shovels, pokers, anything that came to hand were used with vigor and determination, until blood flowed freely in every quarter. Angus McLean, Clerk of Licenses, his father, Neil McLean, and brother Donald, were cut, bruised and beaten in a most brutal manner. It is thought one man would have been killed had he not jumped through the Court House window and made his escape. Neil McLean's life was despaired of for some days, but he is now recovering. On Saturday last the rioters were to be tried, but the counsel for one of the fictitious not having arrived from North Sydney, the case was postponed. The whole affair is indeed disgraceful, and does not speak well for the magistracy of Baddeck, who should certainly use more stringent measures for preserving the peace of their village.—Port Hastings News of the Week.

LOCAL AND OTHER MATTERS.

TROTTING RACE.—A trotting race took place on the ice on Saturday last. Mr. Bob Crabb's horse came off victorious.

SCHEMERS' DEATH.—A passenger named Drew, cook in one of the island steamers, died very suddenly on Saturday morning last.

LECTURE.—The Rev. Ronald McDonald, of Miscouche, will deliver a lecture in St. Patrick's Hall on Wednesday evening next. Subject—"Catholic Education."

WILD CAT SHOT.—A large wild cat was killed at Mr. Knox's premises, on the Preston road last week. The animal was bold enough to look in at the window of Mr. Knox's house, giving the children at play in the room a terrible fright at beholding the green glaring eyes of the monster fixed on them. Luckily, Mr. Knox had his gun loaded, and with one well-aimed shot, he laid his unwelcome visitor at his feet. The animal measured something over four feet from neck to tail.—Herald.

A melancholy story comes to us from Lot 15. It appears that on the 16th February, a man by the name of Foster had his horse burned, and he and his wife and child were rendered homeless. They started to walk to Mr. Fraser's, some miles distant, but the weather being severe, the child was so chilled and frozen, that it died a short time after they reached their destination. Much sympathy is felt for the afflicted family, but as they stand much in need of something more substantial, we feel assured that the humane among us will not let them suffer for want of the necessities of life.—Progress.

CHILDEWOTTON DEBATING CLUB.—On Saturday, the 6th inst., the adjourned debate on the question, "Would it be advisable to pass a Prohibitory Liquor Law for the Dominion of Canada," was, after a spirited discussion, closed by Mr. John J. Chappell, and the question being put, was carried in the affirmative—10 to 2. Subsequently a protest was entered against the vote having been taken, on account of their not being a quorum of members present at the time. The question for discussion for Saturday next, the 13th inst., will be, "Is the position of Great Britain among the Great Powers on the decline." To be opened by Mr. Eustace Haviland.

On Monday evening, March 1st, a meeting was held in the Presbyterian Church, to consider the propriety of establishing a Female Seminary in this town. Rev. Neil McKay and members of the congregation addressed the meeting on the subject—agreeing that the time had arrived for such an undertaking. In consequence of the inclemency of the weather the meeting was small. The following resolution was unanimously adopted, after which the meeting adjourned:—

Resolved, That a meeting of the congregation be called to discuss the best manner of constructing a building, to be used as a Female Seminary, and that said meeting be held in the Presbyterian Church, on Monday evening, the 8th inst.—Summerside Journal.

LATEST NEWS BY TELEGRAPH.

OTTAWA, March 2.—Mr. Mills' motion to amend the Constitution of the Senate was carried by a majority of 3 in a house of one hundred and fifty-one members. Mr. Mills stated his proposed scheme would not interfere with the present Senators; but after their death it provided for reducing the Senate to half its original number.

LONDON, March 2.—In the Commons the Chief Secretary for Ireland introduced a Bill lessening the penalties for the unlawful possession of arms in Ireland, repealing the law which authorizes the closing of Public Houses and the arrest of persons found out of doors at night in proclaimed districts, and removing restrictions on newspapers.

LONDON, March 3.—The Managers of the Kensington Oval have refused the use of that building to the Messrs. Moody and Sankey. It is reported that the latter have engaged Her Majesty's Opera House in the Haymarket.

LONDON, March 4.—If the present negotiations fail, President MacMahon will form a Ministry without further consultation with the Parties in the French Assembly. Several cases of religious insanity resulted from the revival meetings of Messrs. Moody and Sankey. It is reported that Germany has demanded the dismissal of the Papal Nuncio at Munich, and the cessation of relations between the Vatican and Bavaria.

VERY LATEST FROM OTTAWA.

OTTAWA, March 6.—Carroll examined yeas today before Intercolonial Committee, evidently clearing himself of dishonest imputations. Mills, seconded by Blake, took division on Resolutions to make Senate elective—75 for, 73 against; Premier, Huntington, Laird, Vall, Coffin, for; Burpee against.

The Liberal, Blake's paper, retorts that Globe only represents minority of Liberal party, and that the majority would be dictated to any longer. Great dissensions in Government ranks.

'The sun is all very well,' said an Irishman at a recent Wicklow philosophical conference, 'but the moon is worth two of it; for the moon affords us light in the night when we want it, whereas the sun's with us in the day time, when we have no occasion for it.'

CORRESPONDENCE.

DEAR SIR—A few weeks ago, I was apprised of the sale of the Stock Farm horse Roland, which took place in Georgetown on Thursday, the 26th ult. This being to my knowledge, the only thorough bred Entire Horse on Prince Edward Island, I was somewhat interested in his sale, and consequently attended it. I heard it said in Georgetown, previous to the sale, that Mr. Haviland intended this horse as a boon for the people of Georgetown and Murray Harbor. If so, that Hon. gentleman appreciated the enterprise of his former electors too highly, or he would not have adopted the means of granting this boon which he did. Much to his disappointment as well as to my own, (for I expected to see him brought nearer home again) he was bought by Morrow & Co., of Souris, and taken from their doors.

I often heard the people of Souris and East Point characterized as thrifty and enterprising; and I must admit, by the desire they evinced to bring this person among horses to the East, that they deserve this character in its fullest extent. In conclusion, Mr. Editor, I must congratulate the people of Souris and East Point on having attained that boon intended for the electors of Georgetown and Murray Harbor.

PAY NO MORE FEES. QUACKS CONFOUNDED

Rheumatism and Gout have heretofore been considered by the ordinary practicing physicians as incurable diseases, and the query has often been propounded, of what benefit to the helpless sufferer is all their pretended science; and what doth it avail—their logic, their science, and their genius has been curbed in its flights of investigation can easily be imagined. And often really grand and beneficial discoveries have been made under the ban of censure by those self-constituted censors for no reasons whatever, but that they are innovations upon a stereotyped and time honored prescription. It was not so however with the proprietor of the

DIAMOND RHEUMATIC CURE, for his high standing in the profession, and the learning and science of an able mind, quickly compelled the student to tread in the footsteps of a physician generally all over the world, where the medicine is introduced, admit of its wonderful efficacy, and often prescribe it for their patients. Of course the use of the Diamond Rheumatic Cure, without the aid of a physician, is a saving in fee to the sufferer, but the really conscientious physician, who prescribes this, for the reasons the general benefits arising to mankind from its use.

READ WHAT THE PEOPLE SAY. OFFICE OF THE MONTREAL POLICE, Montreal, June 18, 1874.

MESSRS DEWIS & BOLTON: GENTLEMEN—Having been one of the many martyrs of Rheumatism that afflicted me on my daily rounds, I was induced to try the celebrated Diamond Rheumatic Cure, I had suffered the last five or six weeks the most terribly acute pains in the loins and back—so severe indeed that I could hardly walk without the aid of a stick. I commenced using the Diamond Remedy, following the directions carefully. It came immediately with the first bottle—improved with the second, and completely cured and free from pain after using my fifth small bottle.

You are at perfect liberty to refer to me either privately or publicly, as I feel very thankful for the relief and sympathy with my fellow sufferers from Rheumatism.

Respectfully yours, J. B. CARDINAL, 51 Laballe Street. St. Joes, N. B. Sept. 29th, 1874.

A. CHAPMAN SMITH: DEAR SIR,—This is to certify that the Diamond Rheumatic Cure has perfectly cured me of that dreadful pain called Rheumatism. I have suffered with the said complaint for upwards of twelve years, and tried several doctors, but never found anything to cure it until I found some of the Diamond Rheumatic Cure. I took myself as well as any man could wish for to be; for which I strongly recommend it to all who suffer from that dreadful pain.

PETER F. JOHNSTON, 123 Prince William St.

This medicine has for several months past been used with perfect success and satisfaction in the hospitals of Montreal, and is recommended by the best medical practitioners in that city, as a safe, speedy, and powerful cure for either chronic or acute Rheumatism.

There is no medicine which so promptly relieves the depressed vital action, restores the general and local circulation, allays the pain, dissipates the congestion, prevents inflammation and restores the healthy action, as

The Diamond Rheumatic Cure. In thousands of instances the prompt and free use of this medicine has saved valuable human lives. Hence the Diamond Rheumatic Cure should be in every hospital and infirmary, in every doctor's office, in every family and factory, in every ship and ship, in every office and counting room.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only medicine having control over this class of disease, is the

DIAMOND RHEUMATIC CURE. It is the result of 30 years of scientific study, and is now for the first time offered to the Canadian public, prepared by a careful, experienced, and conscientious physician, in substance to the desire of numberless friends in the profession, in the trade, and among the people.

Every bottle of the medicine contains the full strength of the medicine, in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

This medicine is for sale at all the druggists throughout Canada. It is to be had at your druggist has not got it in stock, ask him to send for it to
