

If there is a history of weak lungs in your family, take Scott's Emulsion.

It nourishes and invigorates.

It enables you to resist the disease. Even if your lungs are already affected, and if besides the cough you have fever and emaciation, there is still a strong probability of a cure.

The oil in the Emulsion feeds; the hypophosphites give power to the nerves; and the glycerine soothes and heals.

See and \$1.00, all druggists. SCOTT & BOWNE, Chemists, Toronto.

Of Special Interest to our Farmers

Sheep Dips and Dipping.

The wisdom of dipping the flock at least once a year for the destruction of ticks and lice and the prevention of scab and other skin diseases is acknowledged and practiced by all successful shepherds. In our own experience we have found it surely profitable to dip twice a year—in the spring, after the sheep are shorn, when sheep and lambs should all be dipped, and again in December or January, the whole flock treated either by dipping or pouring. We are thoroughly satisfied that it pays a large percentage in the healthy growth of strong, lustrous wool, in the prevention of cotted fleeces, and in the increased weight of fleece and flesh which the sheep will produce owing to a clean, healthy skin; while as preventive and cure of that terrible scourge, "sheep scab," the prepared dips on the market are invaluable. There are a number of excellent dips advertised which are non-poisonous to the sheep, yet entirely effective in the destruction of vermin and in the cure of scab if properly and thoroughly applied according to directions, and they are so cheap that no one can reasonably excuse himself from using them on the score of cost. The principal expense is in the preparation of a tank, which need not be an elaborate or costly affair: a wooden tank of matched plank, five or six feet long, three feet deep and two feet wide at the top, and sloping to one foot at the bottom. This is only a rough estimate of dimensions, and no doubt smaller dimensions will be found quite as suitable. Probably a more satisfactory tank would be one made of rough planks and lined with galvanized iron, and what would be still better is the galvanized steel tank made for the purpose, which is not very expensive and will last a lifetime. A vigorous crusade is being waged by an American exchange against the use of sulphur and lime preparations, which have never been popular or in general use in Canada, but which are obviously inimical to the health of the sheep and to the quality and condition of the wool. We quote:

"The effect of the mixture is to form a compound of the sulphur and the lime known as sulphide of lime, and is one of the most active depilatories used by persons for destroying superfluous hair. It is extremely corrosive to the skin, and completely neutralizes the protective yolk and gum in the fleece by which the wool is preserved and the body of the sheep is protected from excessive rains. It cannot help but greatly damage the fleece, and if used before shearing will depreciate its value considerably. The new growth of wool on the shorn sheep will be seriously damaged, and it is quite possible for a considerable part of it to be loosened from the skin. If it is used soon after shearing it will tend to irritate any cuts or wounds made in the shearing, and as its effect is not complete at one dipping, and it must be repeated in two weeks, the ill effects of the first dipping are repeated in the second, with increased ill effects.

There are none of these objections urged against the ready made dips. On the contrary, all those who have tried and tested are free from any injurious effect on the skin or the wool, and, on the other hand, have in nearly every instance added to the growth of fleece by the stimulating, healthful result in the thorough cleansing to which the skin has been subjected. This is an important matter. A healthy fleece of sound wool cannot grow upon an unhealthy skin. The skin must be in perfect condition. Its secretions must be natural and unobstructed. There must be nothing to interfere with the perfect action of this most important secretory and excretory organ. We must remember that the skin is not

Marmalade.

We have just received a new kind of ORANGE MARMALADE, put up in glass pots, which we are now offering at the low rate of

2 Pots for 25 cents

Also just opened a case of Pine-apple Marmalade which is of very fine flavor. The Pineapple and Ginger Marmalade has also given excellent satisfaction.

These are all new goods and you should try them if you want something nice and tasty.

BEER & GOFF GROCERS

merely a protective covering for the animal. It gets rid of more waste matter in a given time than the bowels or kidneys do. And we may easily learn, its secretions and excretions are no less offensive than these are. Hence the condition of the skin is to be considered in this regard, as well as the comfort of the sheep in other ways."—Farmer's Advocate.

Do not conclude, because the hens have a large range in summer, that they do not need any food but what they can find. While they may get along, they will not be kept in prime condition when fall comes. Use good judgment in feeding the hens in summer both as regards quantity and quality of food.

An English turkey raiser says: "I make it a hard and fast rule if at home to feed my turkeys myself every morning, as by so doing, I see at once if any of the birds are ailing. If ever you see a turkey refusing its morning meal you may be quite sure it requires attention. Sometimes, when 5 or 6 months old, you see one lagging behind the rest, and either refusing food altogether or just pecking a few grains, then walk away. Taken in time this state of affairs is soon remedied. Catch the turkey and put in a warm, dry building, and mix half a teaspoonful of lard, or unsalted butter, with a half teaspoonful of cayenne pepper, and make into small pills with a little flour. These pills I give at night and feed very sparingly next day. The following morning the bird generally goes out all right, and quite ready for breakfast. Should this not be the case, I have often given half of one of Carter's Little Liver Pills with good effect."

No Cure for... Bright's Disease

In its advanced stages—The Reason Why—Danger Prevented by the Timely Use of Dr. A. W. Chase's Kidney-Liver Pills.

To understand Bright's Disease is to know that in its advanced stages it is past the reach of human aid. The cells of the kidneys undergo a wasting change, which leaves them dead so far as performing their functions is concerned. Just think of having the kidneys dead. Think of the poisons left in the system when these organs could no longer perform their duties as filters of the blood. It would be difficult to conceive of anything more dreadful, and yet this is the goal to which every case of neglected kidney disease must lead. When the back aches, when urinating is difficult or too frequent, when there are deposits in the urine after standing for 24 hours, there is no time to lose in procuring Dr. Chase's Kidney-Liver Pills. It is not claimed that they will cure Bright's Disease in its last stages. They are an absolute cure for kidney disease, and so long as the kidneys are not entirely wasted away they will give new strength and vigor and enable them to resume their duties of filtering the blood. Dr. Chase's Kidney-Liver Pills will stop backache and headache in short order by removing the cause, and will positively prevent Bright's Disease. One pill a dose, 25c. a box. At all dealers, or Edmanson, Bates & Co., Toronto.

PERFECTLY SATISFIED.

Listowel Gentleman who has Complaint to Make Regard Dodd's Kidney Pills

Listowel, Ont., July 10—Mr. Thomas Tamblin of the firm of Tamblin and Clime, grocers, was lately in receipt of a communication from a gentleman in Toronto who is gathering statistics as to cures by Dodd's Kidney Pills.

Some three years ago Mr. Tamblin was troubled with a weak back and severe pain in the kidneys. He used Dodd's Kidney Pills and his trouble was removed. The Toronto enquirer asked if the cure had been satisfactory. Mr. Tamblin took the letter and wrote on the bottom in a firm hand, "The cure was quite satisfactory."

T. TAMBLIN.

Weary of Experimenting

With salves, suppositories and ointments and dreading a surgical operation, scores and hundreds have turned to Dr. A. W. Chase's ointment and found it an absolute cure for the terrible itching, and it is very seldom that more than one box is required to effect a permanent cure.

There is a better half in every wedding—but the best man doesn't get her.

DR. A. W. CHASE'S CATARRH CURE... 25c.
Is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

The evil that men do is soon forgotten—by themselves.

HIS OWN FREE WILL

DEAR SIR,—I cannot speak so strongly of the excellence of MINARD'S LINIMENT. It is THE remedy in my household for burns, sprains, etc., and we would not be without it.

It is truly a wonderful medicine. JOHN A. MACDONALD, Publisher Inquirer Chronicle.

A literary statistician declares that for the year 1898 eight novels a day were published, Sundays and holidays not included.

Ask for Minard's and take no other.

A New York despatch states that the Standard Oil Co. has increased its capital stock from \$100,000,000 to \$110,000,000.

School Girls' Nerves

Many a pale, weak school girl, suffering the evil effects of an exhausted nervous system, and thin, watery blood, has been fully restored to the vigor and buoyancy of robust health, by using A. W. Chase's Nerve Food. The healthful glow on the cheek and the brightness in the eye tell of the building up process which is taken place in the body.

The average man who tries heroico measures gets a misfit.

Rheumatism Can't Exist

When the kidneys are kept healthy and vigorous by the use of A. W. Chase's Kidney-Liver Pills, the Uric Acid left in the blood by defective kidneys that causes rheumatism, Dr. A. W. Chase's Kidney-Liver Pills make the kidneys strong and active in their work of filtering the blood, and this removes the cause of rheumatism. One pill a dose, 25 cents a box.

The annual interest charge on the Spanish national debt is \$125,000,000 and the total revenue is only \$150,000,000.
