## NEW YORK

**NEW YORK (AP)—**The stock market rose slightly Friday as it eased trading for the first half of 1963 on low highest volume in six months.

Oil was renewed investment demand, and the biggest in the group—Standard Oil (New Jersey)—was the most active stock touching the highest level it has ever reached.

Big three motors, steels, rubbers, and nonferrous metals also moved higher but many other groups were the smallest since Jan. 2, the first trading day this year, when volume was 2,540,000 shares.

The Dow Jones industrial average made a small gain of .85 at 708.25.

The Associated Press average of 60 stocks was up at moderate 5 at 279.9 with industrials up .5, rails up .6, and utilities of .2.

**RE-ENACT ROLE**  
 Oils were re-enacting their role of last fall when they spearheaded the market rise. Analysts looked favorably on their prices as compared with their earnings, and similar figures for their stocks grew.

Jersey Standard touched a new high of 62.00 before closing at 62.50, a net gain of .50, on turnover of 48,150 shares.

The heavy outflow of U.S. funds this week was cited as a reason for further speculative interest in gold mining issues.

Homestake advanced 1 1/2, 50 Canadian issues, Canadian Pacific was up 1/4 while

Dome Mines advanced 1/4. Both international Nickel and McIntyre Porcupine were off 1/4 and Distillers Seagraves was down 1/4.

**American Stock Exchange** prices moved generally higher on volume of 910,000 shares compared with 1,120,000 Thursday. Preston was up 1/2 and Fargo Oil was down 1/4.
