

New Smelting Works.

Messrs. E. A. C. Pew, who is at present in Ottawa, and Mr. Eccles, of New York, have organized a company to erect smelting works at Ironside, and constructed a narrow gauge line of railway from Gatinou Point to Whitetoot Lake, a distance of 40 miles.

Pleasing News.

Commenting on the announcement that, on the authority of Mr. George Stephen the Manitoba Southwestern line would be pushed on to Whitetoot Lake in time to move next season's crop, the Winnipeg Times says: "This will be pleasing news to the farmers of Southern Manitoba, and will prove a great blessing, long desired and prayed for, to the numerous settlers who have acquired homesteads in 'the garden of Manitoba.'"

The Idle Man's Danger.

The habit of doing wrong is strong in the idle mind, and can be driven out only by something better occupying its place. The man with feeble vitality is the first to take contagious disease, while he who is overflowing with good health and strength passes by unharmed.

Grains of Gold.

Good character is above all things. Never play at any game of chance. Never borrow, if you can possibly avoid it. Keep good company or none. Never be idle.

The best way to accumulate property is to buy when others want to sell, and to sell when others want to buy.

Let a man learn that everything in nature, even notes and feathers, goes by law and not by "luck," and that what he sows he reaps.

Place before children nothing but what is simple, lest you spoil their tastes; and nothing that is not innocent, lest you spoil their hearts.

Method implies foresight and a logical mind. A man should think of his work and arrange it beforehand.

The tongue which speaketh no evil is as lovely as the hand which giveth alms. Conscience is the voice of the soul; the passions are the voice of the body.

Take care to be an economist in prosperity; there is no fear of your not being one in adversity. Our characters we make; our reputations are often made for us.

MORRIS & IRELAND'S

NEW IMPROVED PATENT EIGHT-FLANGE FIRE-PROOF SAFE.

THE only Eight-Flange Safe in the world, and containing more improvements than ANY SAFE made, such as:

1st. THE PATENT INSIDE BOLT WORK, which is placing the bolt work with the whole of the filling (six inches) between it and the outside, that is, as far from the fire and thief as it can be.

2nd. THE PATENT HINGED CAP—the back plate of the door being on hinges, enabling the owner, by turning a thumbscrew, to have easy access to the lock and bolt-work.

3rd. IRON INSIDE LINING, stronger than wood, and which retains the moisture in the filling for an indefinite time. Wood is thicker and weaker, and after a few years absorbs the moisture and "requires filling over again."

4th. FOUR-WHEEL COMBINATION LOCKS, the simplest, strongest, most efficient and easiest to change of any in use.

5th. SOLID ANGLE IRON FRONTS, BACKS AND CORNERS, which prevents warping or injury to safe from falling, or falling walls or timbers.

6th. MIGHT FLANGES—the most important improvement ever made in fire-proof safes, providing eight laps, thus preventing the passage of heat, it having to pass over twelve inches, no injury arises from this source, as in other safes containing one, two or three flanges.

THESE SAFES have stood the test of years, and the greatest fires on this continent, and have the CHAMPION RECORD in the Boston, Chicago and Haverhill Fires.

We are selling these safes as low as any good safe, and are disposing of large numbers throughout the Dominion.

BANK WORK AND VAULT DOORS are specialties of our firm. For prices, testimonials and information, address, JOSEPH JACOBS, GENERAL AGENT, MORRIS & IRELAND, 61 South Bay St., Boston, Mass.
