**Daniel Rodier.**  
Scholarship student. Dedicated to becoming a marine biologist.

Will he make it?

Yes, he will.

Danny's a brilliant student. There's no end to what he wants to learn. Yet Danny's no hermit. He really enjoys a good time.

One of the things Danny's learned at university is how to keep those good times good. When he drinks, whether it's beer, wine or spirits, he knows his limit and he respects it.

Another year or so, and Danny will be working in a field that's fascinated him all his life. He wouldn't risk spoiling the opportunity for anything.

Yes, Danny is going to make it.

No, he won't.

Danny's a brilliant student. There's no end to what he wants to learn. Yet Danny's no hermit. He really enjoys a good time.

That's the problem. It's not that he sets out to drink too much, but once Danny starts he often forgets he has a limit, and then it's too late.

Danny would be wise to see a doctor, except he says it's just a phase he's going through. His work hasn't suffered yet. But if Danny doesn't change, it soon will.

And, no, Danny won't make it.
